Policy Making For Russian Industry:

Policy-Making for Russian Industry Stephen Fortescue, 1997-03-27 A description of the contemporary Russian economy on the basis of an analysis of economic policy making structures and procedures The empirical detail is concentrated in the heavy industry sector although the relationships between all sectors receive attention All sources of policy making input are examined the presidency and central governmental agencies sectoral state agencies industrial representative associations parliament and the regions and individual enterprises Policy making procedures receive considerable attention as part of an effort to distinguish sharply between formal and informal styles of policy making Routledge Handbook of Russian Politics and Society Graeme Gill, James Young, 2013-03 There is an ever burgeoning number of books analyzing the Russian experience or aspects of it This Handbook is the first single volume which gives both a broad survey of the literature as well as highlighting the cutting edge research in the area Through both empirical data and theoretical investigation each chapter in the Routledge Handbook Russian of Politics and Society examines both the Russian experience and the existing literature points to research trends and identifies issues that remain to be resolved Offering focused studies of the key elements of Russian social and political life the book is organized into the following broad themes General introduction Political institutions Political Economy Society Foreign Policy Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook seeks to answer questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption and the creation of a market economy Providing a comprehensive resource for scholars and policy makers alike this book is an important contribution to the study of Russian Studies Eastern European studies and International Relations Building Big Business in Russia Yuko Adachi, 2013-09-05 This book examines the development of big business in Russia since the early 1990s explaining how post Soviet enterprises many of which made little sense as business units were restructured into functional firms It includes detailed case studies of three leading companies Yukos Oil Company Siberian Russian Aluminium and Norilsk Nickel Reducing Structural Dominance and Entry Barriers in Russian Industry Harry G. Broadman, The absence of new business in Russia is striking Reforms to make Russia more competitive should start with eliminating regulatory and institutional barriers to the entry of new competitors **The Political Economy of Russian Oil** David Lane, 1999 One of the dominant export oriented industries in Russia oil is a major source of tax revenue and wealth The privatization of these vast assets has made the industry a site not only for conflict between power holders but also a strategic target for international corporations and Western governments In this thoughtful analysis a group of international specialists explores the political and economic issues and controversies surrounding the oil industry s move to capitalism The authors examine the spread of crime and corruption the role of Russian and Western financial institutions regional tensions and the international dimension As a paradigm for the Russian economy as a whole

the case of oil industry provides invaluable insights for understanding the political and economic problems confronting Russia today Explaining Post-Soviet Patchworks Klaus Segbers,2017-10-05 This title was first published in 2001 Based on extensive research this trilogy provides new insights into Post Soviet transformations without taking refuge in the traditional assumption that Russia is unique Using powerful analytical tools this trilogy marks the re integration of the Former Soviet Union FSU into the main current of political science An invaluable resource for all those interested in Russia and the Post Soviet states This first volume focuses on state sectoral and transnational actors from a predominantly rational choice perspective The book includes an extensive introduction by the editor which uses additional material gathered by the project team on two polls 1999 and 2000 which in addition to the individual studies provide sufficient data to obtain unprecedented insights into the basic preferences and the logic of action of the main players in Russia The outcomes of this research will be particularly relevant for students researchers journalists and decision makers interested in Russia and the Post Soviet states politics international relations economics social policy and sociology **The Russian Public Debt and Financial Meltdowns** A. Vavilov,2010-07-07 This book examines history of Russian finances in the period of Russia s transition from communism to capitalism in the 1990s and in the current decade It focuses on obstacles to market reforms and macroeconomic policy choices that resulted in the state debt expansion and the financial crisis of 1998 **Russian Military Reform** Carolina Vendil Pallin,2008-08-29 This book examines reform of the Russian military since the end of the Cold War It explores the legacy of the Soviet era explaining why at the time of the fall of the Soviet Union radical reform was long overdue in the wake of changing military technology new economic and political realities and the emergence of new threats and challenges It discusses the problems encountered by Gorbachev in his attempts to promote military reform in the late 1980s and goes on to analyse in detail the mixed fortunes of the policies of his successors Yeltsin and Putin It describes how the onset of war in Chechnya in 1994 provided clear evidence of the weaknesses of the Russian military in modern conflicts and shows that although the Chechnya debacle did provide some impetus for reforms in the armed forces in 1997 98 the momentum was not continued under the Putin government It argues that Putin s policies of bolstering central control over all aspects of decision making has left untouched many key problems facing the Russian military including infighting between different force structures lack of transparency and independent scrutiny over defence spending and absence of consensus on the main threats to Russia and optimum force posture Moreover it argues that in his attempts to concentrate all means of control to a corrupt and inefficient Kremlin bureaucracy Putin has deprived himself of all alternative channels of independent scrutiny control and oversight thus exacerbating the problems that continue to plague the Russian military **Economic Policy Making and Business Culture** David A. Dyker,2012 This book addresses one of the fundamental problems in Russian society and in Russia s relations with the rest of the world Why do Russians tend to react differently from us in given diplomatic or business situations Why do they find the notion of a contract difficult to grasp Why do they seem hostile to the

principle of the level playing field How do they see Russia's position within the globalised economy In order to probe these issues the author begins with a historical analysis looking at the pattern of political and economic development since Tsarist times always asking the questions What is unique to Russia in all this and which unique features tend to recur in different periods In seeking to illuminate the interface between Russia and the world the author also examines Russia's attitude to itself and to its own resources natural and human to land as an agricultural resource and later oil and gas and to people as cheap labour and as highly trained scientific personnel This book is firmly based on scholarly sources in English French and Russian but aims to go beyond the academic audience to address the concerns of people encountering Russians and Russian organizations in their everyday lives

Russian Environmental Politics Ellie Martus, 2017-07-06

Protecting the environment is a key issue for Russia with its vast wilderness areas and its economy's reliance on extractive industries which have the potential to cause massive pollution This book explores how policymaking works in Russia focusing on the important field of environmental policy It argues that contrary to the prevailing view that the presidency dominates the policy process with Putin making all major decisions or at least being the arbiter between conflicting parties policy is in fact made a range of competing interests including the bureaucracy and influential industry and industrial association lobbyists with relatively little intervention from Putin The book shows how although Russia does not have a strong civil society environmentalist views are represented through the institutionalized bureaucracy The book concludes that policy decision making in Russia is quite dispersed and not overcentralized
