Political And Social Writings 1955 1960 From The Workers Struggle Against:

Political and Social Writings Cornelius Castoriadis, 1992-12-01 Political and Social Writings Volume 3 1961 1979 was first published in 1992 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This work offers an extraordinary wealth and variety of writings from the crucial years that followed the publication of Castoriadis's landmark text *Modern Capitalism and Revolution* The new orientation he proposed for the *Socialisme ou Barbarie* group centered on the emerging roles of women youth and minorities in the growing challenge to established society in the early sixties Resistance within the group to this new orientation led Castoriadis to criticize the neopaleo Marxism of Jean François Lyotard and others who ultimately left *Socialisme ou Barbarie* A heightened concern for ethnological issues culminated in what might be called the embarrassment of today's poststructuralists Castoriadis's premature antistructuralism Additional texts examine the dissolution of the group itself and analyze the May 1968 rebellion of workers and students who according to their own testimony were inspired by ideas developed in the group's journal Also included were many of Castoriadis's still relevant political writings from the seventies which were developed in tandem with the more explicitly philosophical work now found in *The Imaginary Institution of Society* and *Crossroads in the Labyrinth* Political and Social Writings Volume 3 provides key elements for a radical renewal of emancipatory thought and action while offering an irreplaceable and hitherto missing perspective on postwar French thought

Political and Social Writings Cornelius Castoriadis, 1988 Political and Social Writings Volume 1 1946 1955 was first published in 1988 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions A series of writings by the man who inspired the students of the Workers Rebellion in May of 1968 Given the rapid pace of change in the Soviet Union and Eastern Europe and the radical nature of these transformations the work of Cornelius Castoriadis a consistent and radical critic of Soviet Marxism gains renewed significance these volumes are instructive because they enable us to trace his rigorous engagement with the project of socialist construction from his break with Trotskyism to his final breach with Marxism and would be read with profit by all those seeking to comprehend the historical originality of events in the USSR and Eastern Europe Contemporary Sociology

Cornelius Castoriadis, Political and Social Writings: 1955-1960, from the workers' struggle against bureaucracy to revolution in the age of modern capitalism Cornelius Castoriadis, 1988

The Persistence of Critical Theory Gabriel R. Ricci, 2017-07-05 The latest volume of *Culture and Civilization* gathers contemporary exponents of critical theory specifically those based in the Frankfurt School of social thinking Collectively this volume demonstrates the continuing intellectual viability of critical theory which challenges the limits of positivism and materialism We may question how the theoretical framework of Marxism fails to coordinate with the conditions that defined labor forces as did Max Horkheimer and Theodor Adorno or deliberate on the conditions that justify

the claims we make through public discourse as did Jurgen Habermas Or like Axel Honneth we may reflect on recognition theory as a means of addressing social problems Whatever our objective the focus of critical theory continues to be the consciousness of established positive interests that without debate may sustain injustices or conditions which the public may not have chosen to impose Throughout the hardship of punitive dismissal and exile in the 1930s and 40s and the shock of the New Left in the 1960s and 70s and finally the later linguistic and pragmatic turn the Frankfurt School has sustained the idea that people escape disaffection and alienation when their knowledge of the social and political world is dialectically mediated through creative interaction This new volume in the Culture and Civilization series continues the tradition of critical thought

Ancient Near East from the time of the Sumerians to the rise of the Seleucids in Babylon this book argues that the Sumerian emphasis on the divine favour that the fertility goddess and the Sun god bestowed upon the king should be understood metaphorically from the start and that these metaphors survived in later historical periods through popular literature including the Epic of Gilgame and the Enuma Eli The author s research shows that from the earliest times Near Eastern kings and their scribes adapted these metaphors to promote royal legitimacy in accordance with legendary exempla that highlighted the role of the king as the establisher of order and civilization As another Gilgame and later as a pious servant of Marduk the king renewed divine favour for his subjects enabling them to share the Garden of the Gods Seleucus and Antiochus found these cultural ideas as they had evolved in the first millennium BCE extremely useful in their efforts to establish their dynasty at Babylon Far from playing down cultural differences the book considers the ideological agendas of ancient Near Eastern empires as having been shaped mainly by class rather than race minded elites
