Political Decisions And Agency Performance:

Political Decisions and Agency Performance R. Torenvlied, 2012-12-06 All over the world many people who live in urban areas find themselves in an arduous social situation In the third world people in overcrowded metropolitan areas have a problem in maintaining even the slightest standards of living But also richer parts of the world the United States Europe and the far East show growing social inequalities in their cities And social problems are not confined to the large metropolitan areas impoverishment long term unemployment social isolation and the dependency on welfare programs pops up in medium sized cities and even in smaller communities At the same time these cities are confronted with a growing bureaucratic conglomerate which is increasingly inapt to fight social degeneration The catastrophe seems to be total how to deal at once with declining social conditions and bureaucratic inadequacy Two American authors Osborne and Plastrik 1997 claim to have found the answer just banish bureaucracy The liberating accomplishments of the free market will elevate ordinary citizens and force lazy incompetent bureaucrats to do their work properly If they succeed they survive Otherwise these agencies will vanish They illustrate their arguments with the American city of Uphill Battle which stopped its decline by reinventing government Strict performance measures allotting financial controls and incentives to the citizens and improving accountability have saved the city We should however be very careful in taking such measures so far that they banish bureaucracy It is far from obvious that simply banishing bureaucracy indeed will help people in poor social situations

Outcome-Based Performance Management in the Public Sector Elio Borgonovi, Eugenio Anessi-Pessina, Carmine Bianchi, 2017-07-17 This book highlights the use of an outcome oriented view of performance to frame and assess the desirability of the effects produced by adopted policies so to allow governments not only to consider effects in the short but also the long run Furthermore it does not only focus on policy from the perspective of a single unit or institution but also under an inter institutional viewpoint This book features theoretical and empirical research on how public organizations have evolved their performance management systems toward outcome measures that may allow one to better deal with wicked problems Today wicked problems characterize most of governmental planning involving social issues These are complex policy problems underlying high risk and uncertainty and a high interdependency among variables affecting them Such problems cannot be clustered within the boundaries of a single organization or referred to specific administrative levels or ministries They are characterized by dynamic complexity involving multi level multi actor and multi sectoral challenges In the last decade a number of countries have started to develop new approaches that may enable to improve cohesion to effectively deal with wicked problems The chapters in this book showcase these approaches which encourage the adoption of more flexible and pervasive governmental systems to overcome such complex problems Outcome Based Performance Management in the Public Sector is divided into five parts Part 1 aims at shedding light on problems and issues implied in the design and implementation of outcome based performance management systems in the public sector Then Part 2 illustrates the

experiences problems and evolving trends in three different countries Scotland USA and Italy towards the adoption of outcome based performance management systems in the public sector Such analyses are conducted at both the national and local government levels The third part of the book frames how outcome based performance management can enhance public governance and inter institutional coordination Part 4 deals with the illustration of challenges and results from different public sector domains Finally the book concludes in Part 5 as it examines innovative methods and tools that may support decision makers in dealing with the challenges of outcome based performance management in the public sector Though the book is specifically focused on a research target it will also be useful to practitioners and master students in public administration

Breul,Carl Moravitz,2007-01-11 Governments are under increasing pressure to produce and to demonstrate

results in terms of their mission Over the last decade countries around the world have undertaken reforms with the aim of improving the relevance and effectiveness of public services and the quality of public sector management Integrating Performance and Budgets showcases attempts by federal and state governments as well as a mix of developed and developing countries to introduce performance or results oriented budgeting and management as a means to support better decision making and accountability

Performance, Identity, and the Neo-Political Subject Fintan Walsh, Matthew Causey, 2013-04-17 This book stages a timely discussion about the centrality of identity politics to theatre and performance studies It acknowledges the important close relationship between the discourses and practices historically while maintaining that theatre and performance can enlighten ways of being with others that are not limited by conventional identitarian languages The essays engage contemporary theatre and performance practices that pose challenging questions about identity as well as subjectivity relationality and the politics of aesthetics responding to neo liberal constructions and exploitations of identity by seeking to discern describe or imagine a new political subject Chapters by leading international scholars look to visual arts practice digital culture music public events experimental theatre and performance to investigate questions about representation metaphysics and politics The collections seeks to foreground shared universalist connections that unite rather than divide visiting metaphysical questions of being and becoming and the possibilities of producing alternate realities and relationalities The book asks what is at stake in thinking about a subject a time a place and a performing arts practice that would come after identity and explores how theatre and performance pose and interrogate these questions

Performance Management and Budgeting F Stevens Redburn, Robert J. Shea, Terry F. Buss, David M. Walker, 2015-01-28 This book provides a fresh look at the process by which governments hold themselves accountable to their citizens for performance Unlike the plethora of other books in the field it examines all aspects of the Performance Management and Budgeting issue not only from the federal state and local perspectives but also internationally in both developing and developed countries Covering both conceptual and theoretical frameworks in performance management and budget the book analyzes the effectiveness of different approaches Featuring insights from a group of distinguished contributors it ties current performance management approaches into the century old literature on public sector reform and management and presents arguments for and against performance management as well as recommendations on how to improve the enterprise
