Regime Shift

T. J. Pempel, 1998

Pempel contrasts the political economy of Japan during two decades the 1960s when the nation experienced conservative political dominance and high growth and the early 1990s when the bubble economy collapsed and electoral politics changed. The different dynamics of the two periods indicate a regime shift in which the present political economy deviates profoundly from earlier forms. This shift has involved a transformation in socioeconomic alliances, political and economic institutions, and public policy profile, rendering Japanese politics far less predictable than in the past. Pempel weighs the Japanese case against comparative data from the USA, Great Britain, Sweden, and Italy to show how unusual Japan's political economy had been in the 1960s. The text suggests that Japan's present troubles are deeply rooted in the economy's earlier success.

Japanese Political History Since the Meiji Restoration, 1868-2000 R. Sims, 2019-06-12. Japanese Political History Since the Meiji Restoration 1868-2000 explores through a combination of narrative and analysis the changes in the political process which lay behind Japan's transformation into a modern nation state, its successive turn toward militarism, fascism, and the Pacific War, and the imposition of a fully democratic constitution. Sims examines closely such central topics as the Meiji renovation, samurai modernisers, the rise of liberal political parties, the Meiji constitution, Taisho democracy, the wartime changes in the political system, postwar reforms, and the reverse course, four decades of Liberal Democratic rule, and the shake up of Japanese politics during the 1990s. No other book has covered Japanese political history over the entire period since 1868 in such detail, and the present volume aims to fill the gap between the various general histories of modern Japan and the ever-increasing monographic literature.

The Post-war Roots of Japanese Political Malaise Dagfinn Gatu, 2015-06-12. Writings on post-war Japanese politics have tended to take for granted the dominance of the Liberal Democratic Party (LDP) as inevitable, without questioning how this came about. This book analyses the nature of Japanese party politics over the first four decades following the Second World War, assessing how the chief contenders, the conservative LDP and the socialists (JSP, Japan Socialist Party), competed in terms of their strengths and weaknesses relative to the other. Throughout it addresses the questions: How effectively were the parties' strengths harnessed? How did they alter over time? To what extent was the winning formula challenged? Did the loser have access to strengths with a major potential, and if so, why did these remain underdeveloped? It extends widely to include discussion of the political system, the social and economic environment in which parties operated, internal party matters, especially factions, personal support groups, special interest groups, and the role of government bureaucracy. It shows why the Liberal Democratic Party was dominant, why the Japan Socialist Party remained out of power, and how successive prime ministers conducted policymaking in ways which often resulted in the bureaucracy taking the lead. Overall, the book shows

how precedents for the political system and for policymaking were set in this important period precedents which continue and which have contributed significantly to the present conservative stance on many key issues *Facing Asia - Japan's Role in the Political and Economic Dynamism of Regional Cooperation* Blechinger, Verena, Legewie, Jochen ,2000-05-04 *Facing Asia* examines the political and economic processes of regionalism and regionalization in Asia with a focus on Japan and Japanese actors The articles by eminent scholars address the forces that tie the region together They treat topics ranging from Japanese bilateral and multilateral ODA and the activities of state and non state actors on the regional level to issues such as Japanese multinational corporations foreign direct investment in Asia and regional financial institutions Methodologically the authors draw on disciplinary strengths in either the social sciences or economics while organizing their treatment around a shared political economic perspective By looking at Asia through an interdisciplinary lens the volume offers something to anyone interested in Japanese involvement in the politics and economics of the region In the final chapter the editors weave together the different approaches to Japan s place in Asian regional cooperation in the 1990s and beyond

The Evolution of Japan's Party System Leonard James Schoppa,2011-01-01 *The Evolution of Japan s Party System* analyses the transition by examining both party politics and public policy This volume discuss how older parties such as the LDP and the Japan Socialist Party failed to adapt to the new policy environment of the 1990s *Women and Political Inequality in Japan* Mikiko Eto,2020-12-17 Why are there so few Japanese women involved in the political system In 2019 Japanese women made up 10% of the national Lower House 21% of the Upper House and 14% of local assemblies According to the Inter Parliamentary Union this places Japan 164th out of 193 countries when it comes to women s representation in the legislature The percentage of women in the Lower House has only increased by fewer than two percentage points since women gained full suffrage and the right to stand for election in Japan in 1946 Eto analyses the various factors that have led to women s low presence in the Japanese legislature She evaluates ways in which it might be possible for Japan to catch up and in doing so examines how Japanese society continues to perpetuate gender rigid expectations of people This text is a valuable study for scholars of Japanese politics and society and for readers with an interest in the broader issue of the representation of women in politics

Unveiling the Magic of Words: A Review of "**Political Dynamics Of Japan**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**Political Dynamics Of Japan**," a mesmerizing literary masterpiece penned by way of a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve to the book is central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.
