Political Philosophy And The God Of Abraham

Thomas L. Pangle

Political Philosophy And The God Of Abraham:

Political Philosophy and the God of Abraham Thomas L. Pangle, 2003-08-29 In this book noted scholar Thomas L. Pangle brings back a lost and crucial dimension of political theory the mutually illuminating encounter between skeptically rationalist political philosophy and faith based political theology guided ultimately by the authority of the Bible Focusing on the chapters of Genesis in which the foundation of the Bible is laid Pangle provides an interpretive reading illuminated by the questions and concerns of the Socratic tradition and its medieval heirs in the Christian Jewish and Islamic worlds He brings into contrast the rival interpretive framework set by the biblical criticism of the modern rationalists Hobbes and Spinoza along with their heirs from Locke to Hegel The full meaning of these diverse philosophic responses to the Bible is clarified through a dialogue with hermeneutic discussions by leading political theologians in the Judaic Muslim and Christian traditions from Josephus and Augustine to our day Profound and subtle in its argument this book will be of interest not only to students and scholars of politics philosophy and religion but also to thoughtful readers in every walk of life who seek to deepen their understanding of the perplexing relationship between religious faith and philosophic reason Political Philosophy and the God of Abraham

Thomas L. Pangle, 2003 *Hobbes's Political Philosophy* Aloysius Martinich, 2021 Hobbes's Political Philosophy Interpretation and Interpretations aims to clarify Hobbes's positions by examining what Hobbes considered a science of politics a set of timeless truths grounded in definitions A. P. Martinich explains this science of politics examining Hobbes's views on the laws of nature authorization and representation sovereignty by acquisition and others He argues that in addition to the timeless science Hobbes had two timebound projects The first was to eliminate the apparent conflict between the new science of Copernicus and Galileo and the second was to show that Christianity is not politically destabilizing **The Political Philosophy of Benjamin Franklin** Lorraine Smith Pangle, 2007-09-28 Franklin's political writings are full of fascinating reflections on human nature on the character of good leadership and on why government is such a messy and problematic business Drawing together threads in Franklin's writings Lorraine Smith Pangle illuminates his thoughts on citizenship federalism constitutional government the role of civil associations and religious freedom

The Key Texts of Political Philosophy Thomas L. Pangle, Timothy W. Burns, 2015 This book introduces readers to analytical interpretation of seminal writings and thinkers in the history of political thought including Socrates Plato Aristotle the Bible Thomas Aquinas Machiavelli Bacon Hobbes Locke Montesquieu Rousseau Tocqueville Marx and Nietzsche Chronologically arranged each chapter in the book is devoted to the work of a single thinker The selected texts together engage with 2000 years of debate on fundamental questions which include What is the purpose of political life What is the good life for us as individuals and for us as a political community What is justice What is a right Do human beings have rights What kinds of human virtues are there and which regimes best promote them The difficulty of accessing the texts included in this volume is the result not only of their subtlety but also of the dramatic change in everyday life The authors

shed light on the texts vocabulary and complexities of thought and help students understand and weigh the various interpretations of each philosopher's thought Accessible interpretive essays on the greatest texts in the history of political thought from Plato to Nietzsche Includes key passage plus a succinct discussion that glosses the text examines later day interpretations and guides students in forming their own interpretations Allows students to learn from rather than only about each thinker and to apply their thought to the present day *Political Philosophy* Richard G. Stevens, 2010-10-18 This book by Richard G Stevens is a comprehensive introduction to the nature of political philosophy It offers definitions of philosophy and politics showing the tension between the two and the origin of political philosophy as a means of resolution of that tension Plato and Aristotle are examined in order to see the search for the best political order Inquiry is then made into political philosophy's new tension brought about by the growth of revealed religion in the Middle Ages It then examines the changes introduced by modernity and gives an overview of postmodern political thought The book covers the most influential philosophers and directs readers to the classics of political philosophy guiding them in studying them It is an approachable introduction to a complex subject not just a history of it It is a point of entry into the subject for students and for others as well *Studies in Platonic Political Philosophy* Leo Strauss, 2024-05-31 The award winning philosopher explores the conflict between philosophy and political society through a series of essays One of the outstanding thinkers of our time offers in this book his final words to posterity *Studies in Platonic Political Philosophy* was well underway at the time of Leo Strauss's death in 1973 Having chosen the title for the book he selected the most important writings of his later years and arranged them to clarify the issues in political philosophy that occupied his attention throughout his life As his choice of title indicates the heart of Strauss's work is Platonism a Platonism that is altogether unorthodox and highly controversial These essays consider among others Heidegger Husserl Nietzsche Marx Moses Maimonides Machiavelli and of course Plato himself to test the Platonic understanding of the conflict between philosophy and political society Strauss argues that an awesome spiritual impoverishment has engulfed modernity because of our dimming awareness of that conflict Thomas Pangle's Introduction places the work within the context of the entire Straussian corpus and focuses especially on Strauss's late Socratic writings as a key to his mature thought For those already familiar with Strauss Pangle's essay will provoke thought and debate for beginning readers of Strauss it provides a fine introduction A complete bibliography of Strauss's writings is included

Political Philosophy Cross-Examined T. Pangle, J. Lomax, 2013-04-10 Political societies frequently regard philosophers as potential threats to morality and religion and those who speak for politics often demand a defense of philosophy This book will address philosophy as a mode of existence put into question **Handbook of Political Theory** Gerald F Gaus, Chandran Kukathas, 2004-08-21 The Handbook of Political Theory is a latest addition to the SAGE Handbook collection As with all of our handbooks this is a definitive and benchmark publication that covers all aspects of a given subject This handbook is an essential purchase for everyone interested in Political Theory *Pope Benedict XVI and the Politics of*

Modernity MarcD. Guerra, 2017-07-05 In *Benedict XVI and the Politics of Modernity* distinguished scholars from North America and Europe examine Pope Benedict XVI's searching reflections on the challenges and prospects facing modern Western society. For more than five decades Joseph Ratzinger, Pope Benedict XVI, has made the subject of the continued health and vitality of Western civilization a focal point of his reflections. From his early 1968 *Introduction to Christianity* to his later 2005 *Values in a Time of Upheaval*, the Pope has argued that the preservation of the social, political, scientific, and spiritual way of life that characterizes modern Western societies hinges upon our rediscovery of the unique roots and distinctive nature of Western civilization. Focusing on Pope Benedict XVI's nuanced account as to why the modern West cannot currently afford to forget or neglect its premodern Hellenic and Christian roots, this book will interest religious and nonreligious people who are concerned about the future of democracy and religion in contemporary Western societies. This book was based on a special issue of *Perspectives on Political Science*.

If you ally obsession such a referred **Political Philosophy And The God Of Abraham** books that will have enough money you worth, get the enormously best seller from us currently from several preferred authors. If you want to hilarious books, lots of novels, tale, jokes, and more fictions collections are also launched, from best seller to one of the most current released.
