Political Power And Social Theory Vol 4 Political Power And Social Theory:

Political Power and Social Theory Julian Go, 2010-12-07 Helps in advancing our interdisciplinary critical understanding of the linkages between social relations political power and historical development This title contains a section on the politics of the new middle class in the global south and post socialist societies *Political Power and Social Theory* Diane E. Davis, Julian Go, 2009-12-21 It is time to consider changes in the field of comparative historical sociology as the discipline seeks to accommodate old and new trends as well as the transforming spatial scales in which political power and social theory are increasingly embedded This title showcases articles that pursue similar themes Class Struggle and the New Deal Rhonda F. Levine, 1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR's policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle *Radical Unionism in the Midwest, 1900-1950* Rosemary Feurer, 2006 In *Radical Unionism in the Midwest 1900 1950* Rosemary Feurer examines the fierce battles between Midwestern electrical workers and bitterly anti union electrical and metal industry companies during the 1930s and 40s Organized as District 8 of the United Electrical Radio and Machine Workers UE and led by open Communist William Sentner workers developed a style of unionism designed to confront corporate power and to be a force for social transformation in their community and nation Feurer studies District 8 through a long lens establishing early twentieth century contexts for these conflicts Exploring the role of radicals in local movement formation Feurer argues for a civic unionism that could connect community and union concerns to build solidarity and contest the political economy District 8's spirited unionism included plant occupations in St Louis and Iowa campaigns to democratize economic planning and local strategies for national bargaining that were depicted as a Communist conspiracy by a corporate influenced Congressional committee in Evansville Indiana District 8 was destroyed through reactionary networks and the anti Communist backlash of the mid twentieth century but Feurer argues that its history tells another side of the labor movement's formation in the 1930s and 40s and can inform current struggles against corporate power in the modern global economy A website with more photographs and documents is available at www.radicalunionism.niu.edu **Cold War in the Working Class** Ronald L. Filippelli, Mark McColloch, 1995-01-01 This book tells the story of the rise and decline of the United Electrical Radio and Machine Workers of America UE from 1933 to 1990 Once the third largest industrial union in the United States the UE was the most powerful left wing institution in U S history and arguably the most significant victim of the anti communist purges that marked post World War II America This is an institutional study of the formation of the UE and the struggle for its control by left wing and right wing factions Unlike most books on unions during the Cold War this study carries the story up to the present showing the long term effects of the ideological battles **Decentering Social Theory** Julian Go, 2013-08-22 Social theory and research has long faced the limitations of its conventional Eurocentric focus

The essays in this volume offer new thoughts and empirical studies for transcending those limitations **Handbook of Classical Sociological Theory** Seth Abrutyn, Omar Lizardo, 2021-11-01 This is the first handbook focussing on classical social theory It offers extensive discussions of debates arguments and discussions in classical theory and how they have informed contemporary sociological theory The book pushes against the conventional classical theory pedagogy which often focused on single theorists and their contributions and looks at isolating themes capturing the essence of the interest of classical theorists that seem to have relevance to modern research questions and theoretical traditions This book presents new approaches to thinking about theory in relationship to sociological methods Postcolonial Thought and Social Theory Julian Go, 2016-09-23 Social scientists have long resisted the radical ideas known as postcolonial thought while postcolonial scholars have critiqued the social sciences for their Euro centric focus However in *Postcolonial Thought and Social Theory* Julian Go attempts to reconcile the two seemingly contradictory fields by crafting a postcolonial social science Contrary to claims that social science is incompatible with postcolonial thought this book argues that the two are mutually beneficial drawing upon the works of thinkers such as Franz Fanon Amilcar Cabral Edward Said Homi Bhabha and Gayatri Spivak Go concludes with a call for a third wave of postcolonial thought emerging from social science and surmounting the narrow confines of disciplinary boundaries *International Origins of Social and Political Theory* Tarak Barkawi, George Lawson, 2017-04-12 This special issue is animated by the necessary entanglement of theory and history the cortical relationship between theory and practice and the transboundary relations that help to constitute systems of thought and practice **Sweden and the 'Third Way'** Philip Whyman, 2018-02-06 This title was first published in 2003 The creation of a Third Way between unfettered capitalism and old style Keynesian corporatist forms of social democracy has become the driving force behind the policy programmes of many left of centre political parties in the industrialised nations of the world today Sweden and the Third Way critically evaluates this new social democracy by examining the profound shift in Swedish political economy from being the prototype old style social democracy towards the Third Way synthesis of neo liberalism and elements of traditional social democracy Philip Whyman evaluates internal and external challenges to Swedish macroeconomic policy including globalisation European integration post Fordist technological change and the relative empowerment of capital to discover the extent to which national economic autonomy is constrained Furthermore he considers the plausibility of revising the core elements of the traditional Swedish Model as an alternative to the prevailing macroeconomic platform
