Resources in Education ,2001-04 The Social Studies ,1937 School Life ,1921 The Visiting Teacher Movement Julius John Oppenheimer,1925 *Performativity, Politics and Education* Peter Roberts,2022-04-04 This book provides a distinctive perspective on some of the ways in which performativity as an expression of neoliberal and managerialist thinking works in specific policy contexts It pays particular attention to higher education and considers how the logic of performativity reconfigures our sense of what it means to engage in worthwhile research what it means to be well and ultimately what it means to be human Philosophy of education conceived not just as a

domain of scholarly activity but as a way of life rubs against the grain of performativity In a performance driven world efficiency measurability and predictability are all important A philosophical life in education is often unpredictable uncertain and inefficient it creates a kind of intellectual restlessness that can never be fully satisfied Performativity Politics and Education From Policy to Philosophy suggests that the current obsession with productivity performance and prosperity is misguided It argues that policies and practices underpinned by the principle of performativity are dehumanising and offers an alternative approach an orientation to education grounded in a philosophy of hope and underpinned by a commitment to collegiality constructive critique and ongoing dialogue **Lifelong Learning as Critical Action** André P.

Grace,2013-10-30 In this era of economic uncertainty there has been renewed interest in the benefits of adult and higher education for economic and professional gain Andr P Grace questions this perspective and advocates for a holistic view that also incorporates the social cultural and personal benefits of learning as a lifelong pursuit A detailed and thoughtful critique of the effects of neoliberalism and globalization on adult and higher education this book examines the quality of lifelong learning in historical and contemporary contexts with an emphasis on multivariate learner populations and education as a platform for social engagement ethics and justice Weaving together academic analysis and first person reflections the author addresses the diverse needs of learners from Canada and around the world in a variety of social and economic situations An essential text for anyone interested in the development of lifelong learning policy and practice Lifelong Learning as Critical Action is a call to action that challenges readers to engage with lifelong learning as a critical democratic and inclusive process **Virtue Ethics and Contemporary Aristotelianism** Andrius Bielskis,Eleni Leontsini,Kelvin Knight,2020-05-28

This compelling and distinctive volume advances Aristotelianism by bringing its traditional virtue ethics to bear upon characteristically modern issues such as the politics of economic power and egalitarian dispute This volume bridges the gap between Aristotle s philosophy and the multitude of contemporary Aristotelian theories that have been formulated in the twentieth and twenty first centuries Part I draws on Aristotle s texts and Thomas Aquinas Aristotelianism to examine the Aristotelian tradition of virtues with a chapter by Alasdair MacIntyre contextualising the different readings of Aristotle s philosophy Part II offers a critical engagement with MacIntyrean Aristotelianism while Part III demonstrates the ongoing influence of Aristotelianism in contemporary theoretical debates on governance and politics Extensive in its historical scope this is a valuable collection relating the tradition of virtue to modernity which will be of interest to all working in virtue ethics and contemporary Aristotelian politics **The Evangelist** ,1896 **The Musical Leader** ,1927 **The Morning Star and Free Baptist** ,1901 **Mathematical Knowledge: Its Growth Through Teaching** Alan J. Bishop,Stieg

Mellin-Olsen,Joop van Dormolen,J. van Dormolen,1991-10-31 The book focuses on the genesis of mathematical knowledge in the classroom As with the first project the concerns are with fundamental analysis of the problem field and various approaches are presented in the book which will stimulate new thinking about research and teacher development
