Political Theory and Feminist Social Criticism Brooke A. Ackerly, 1984 *Political Theory and Feminist Social Criticism* Brooke A. Ackerly, 2000-07-31 Drawing on theoretical insights from Third World women's activism Political Theory and Feminist Social Criticism develops democratic theory as a critical theory relevant to dealing with real world inequalities Brooke Ackerly examines the methods by which real world feminist activists have criticized society and argues that their activities show how feminist theory can move beyond its theoretical impasse toward articulating social criticism with critical teeth Her book will be of interest to political and social theorists and to students and scholars of women's studies feminism and human rights

Intelligent Compassion Catia Cecilia Confortini, 2012-09-27 The Women's International League for Peace and Freedom WILPF has a unique role in post war peace activism It is the longest surviving international women's peace organization and one of the oldest peace organizations in the West Founded in 1915 when a group of women from neutral and belligerent nations in World War I met at The Hague to formulate proposals for ending the war WILPF sent delegations of women to several countries to plead for peace and their final resolutions are often credited with influencing Woodrow Wilson's 14 Points Today the organization counts several thousand members in 36 countries on five continents Since 1948 it has enjoyed consultative status with the UN and it was instrumental in bringing about recent United Nations Security Council Resolutions on Women Peace and Security Beginning in 1945 WILPF began identifying the limitations of its ideological foundations in relation to the international liberal order Catia Cecilia Confortini argues that this period ushered in a turn in the organization's policies and activism one that culminated in the mid 70s and served as an important antecedent to feminist activism that continues today In Intelligent Compassion she traces the organization's changing strategies and ideas over a thirty year period focusing on three key areas of its work disarmament decolonization and the conflict in Israel Palestine By analyzing the shifting ideas and policies of the longest living international women's peace organization Intelligent Compassion finds answers to IR questions about the possibility of emancipatory agency in the theoretical methodology of women peace activists and the extent to which activists can transcend the prevailing practices rules and relations of their eras

Women in Political Theory Jane Duran, 2016-02-11 The first volume to explore comprehensively the intersection of feminism politics and philosophy *Women in Political Theory* sheds light on the contributions of women philosophers and theorists to contemporary political thought With close attention to the work of five central thinkers Sarah Grimk Anna Julia Cooper Jane Addams Rosa Luxemburg and Hannah Arendt this book not only offers sustained analyses of the thought of these leading figures but also examines their relationship with established political theorists of the past such as Locke Machiavelli and the ancients Demonstrating that each of the figures covered was indeed a political theorist of her time whilst highlighting the strength of her thought and the reasons for which it has not been accorded the attention that it merits *Women in Political Theory* offers a fascinating overview of the political thought of five theorists whose work is central to an understanding of modern thought As such it will be of interest to scholars and students of sociology philosophy political and social theory feminist thought and gender studies

Toward a Humanist Justice Debra Satz, Rob Reich, 2009-06-15 The late Susan Moller Okin was a leading political theorist whose scholarship integrated political philosophy and issues of gender the family and culture Okin argued that liberalism properly understood as a theory opposed to social hierarchies and supportive of individual freedom and equality provided the tools for criticizing the substantial and systematic inequalities between men and women Her thought was deeply informed by a feminist view that theories of justice must apply equally to women as men and she was deeply engaged in showing how many past and present political theories failed to do this She sought to rehabilitate political theories particularly that of liberal egalitarianism in such a way as to accommodate the equality of the sexes and with an eye toward improving the condition of women and families in a world of massive gender inequalities In her lifetime Okin was widely respected as a scholar whose engagement went well beyond the world of theory and her premature death in 2004 was considered by many a major blow to progressive political thought and women s interests around the world This volume stems from a conference on Okin and contains articles by some of the top feminist and political philosophers working today They are organized around a set of themes central to Okin s work namely liberal theory gender and the family feminist and cultural differences and global justice Included are major figures such as Joshua Cohen David Miller Cass Sunstein Alison Jaggar and Iris Marion Young among others Their aim is not to celebrate Okin s work but to constructively engage with it and further its goals

Just Responsibility Brooke A. Ackerly, 2018-02-01 Can we respond to injustices in the world in ways that do more than just address their consequences In this book Brooke A Ackerly

argues that what to do about injustice is not just an ethical or moral question but a political question about assuming responsibility for injustice Ultimately Just Responsibility offers a theory of global injustice and political responsibility that can guide action

The Political Responsibilities of Everyday Bystanders Stephen L. Esquith, 2011-02-28 In a world where every person is exposed daily through the mass media to images of violence and suffering as most dramatically exemplified in recent years by the ongoing tragedy in Darfur the question naturally arises What responsibilities do we as bystanders to such social injustice bear in holding accountable those who have created the conditions for this suffering And what is our own complicity in the continuance of such violence it involves settling accounts as well as recognizing our own complicity even as bystanders

The Oxford Handbook of International Political Theory Chris Brown, Robyn Eckersley, 2018 The essential volume for all those working on International Political Theory and related areas
