Documentation, 1994 **Political Boundaries and Coexistence** Werner A. Gallusser, Matthias Bürgin, Walter Leimgruber, 1994 Discussing political boundaries from the point of view of Geography means not only to discuss border lines but also to consider describe and analyze the neighbouring areas and transborder activities This volume contains almost 50 contributions by authors from all over the world covering many aspects of coexistence conflicts e.g. notoriously problematical boundaries the dynamics of new borders in E and SE Europe incl. Ex USSR the various motivations of transborder cooperation topography cultural space economy transportation the effects of new telecommunication systems new research methods reflexions on centralistic coercions of nation states etc It is the editor's aim not to question present day boundaries but with an overtone of hope to give an impetus to peaceful coexistence on political borders *A Companion to Political Geography* John A. Gray, Geoffrey Sloan, 2014-01-14 Geopolitical conditions influence all strategic behaviour even when cooperation among different kinds of military power is expected as the norm action has to be planned and executed in specific physical environments The geographical world cannot be avoided and it happens to be organized into land sea air and space and possibly the electromagnetic spectrum including cyberspace Although the meaning of geography for strategy is a perpetual historical theme explicit theory on the subject is only one hundred years old Ideas about the implication of geographical especially spatial relationships for political power which is to say geopolitics flourished early in the twentieth century Divided into theory and practice sections this volume covers the big names such as Mackinder Mahan and Haushofer as well as looking

back at the vital influence of weather and geography on naval power in the long age of sail sixteenth to nineteenth centuries It also looks forward to the consequences of the revival of geopolitics in post Soviet Russia and the new space based field of astropolitics

Politics Virginie Mamadouh, 2017-05-15 Depending on the breadth or narrowness of the understanding of politics and the political politics in human geography is defined as either the operation of power in all social relations or the workings of power directed to or by the state This volume avoids the two extremes by acknowledging the transformation of approaches to the political in human geography over the past few decades but also by highlighting the continued importance of the more traditional state based conception of politics The selected articles are clustered around six themes new agendas in political geography state territoriality international relations and globalization internal territorial organisation and geographical scale social movements and electoral participation and identities and citizenship

Tourism and Borders Helmut Wachowiak, 2016-02-24 Although globalization has led to increased cross border traffic there has been little examination of how crossing political boundaries affects tourism and vice versa Bringing together case studies from Europe the USA and Southern Africa this volume discusses current issues and policies destination management and communication and planning in cross border areas Topics studied include borders as tourist attractions and destinations in their own right as barriers to travel and the growth of tourism boundaries as links of transit and the growth of supranationalism The book concludes that the role of borders has changed dramatically in recent years Many more borders that have traditionally hosted large scale tourism are becoming more difficult to cross primarily because of safety and immigration concerns On the other hand places that were once forbidden to foreigners are now opening up and new destinations are becoming more commonplace

The Geopolitics of Australia's Regional Relations D. Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people I owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda

Ethnic Frontiers and Peripheries Oren Yiftachel, 2019-03-12 The idea for editing this book originated during an international conference titled Regional Development The Challenge of the Frontier held in December 1993 at the Dead Sea and which was organized by the Negev Center for Regional Development at Ben Gurion University of the Negev In this conference we noticed that little has been said about the impact of Israel's complex mosaic of ethnic groups on the shaping of the country's social and spatial frontiers We have therefore endeavored to bring together a number of perspectives on the evolution of ethnic frontiers in Israel and the role they play in shaping the cultural landscape of this country Yet we later realized that frontier is too limited a term and that it may through various processes have turned into a mosaic of spatial social economic and political peripheries More specifically we attempted to present the process of frontier development as perceived by Israel's ethnic and national minorities We therefore invited contributions from various other Israeli experts on these issues geographers sociologists anthropologists and political scientists which have now become the main body of chapters in this book We trust that they are representative of the main dimensions of the subject
