BHIKHU PAREKH AND THOMAS PANTHAM (Eds.): *Political Discourse: Explorations in India and Western Thought*. Sage, New Delhi, 1987. 314 p. Rs.195/-

THE volume under review has been edited by Professors Bhikhu Parekh and Thomas Pantham. The volume comprising twenty essays examines from different vantage points, the limitations of the positivist conception of politics and in that context offers alternative approaches to political inquiry. In general, the purpose of these essays is to reverse the "scientistic" bias in the contemporary political enquiry, and thereby restore the discursive or ideological mode of Indian and Western political thought. However, it must be clarified at the outset that these essays do take differing views regarding the nature of politics.

The volume begins with an introduction by the two editors. In some way, it provides the analytical format of the book.

In part I, Terrence Ball, Hwa Yol Jung, Kenneth Minogue, Ronald J. Terchek, Kai Nielsen, Rajeev Bhargava and Upendra Baxi demonstrate quite convincingly that politically enforced norms or principles of social life are embedded in the tradition of social knowledge. It provides a pre-articulate frames of concepts of political rationality, justice, truth, rights, democracy and moral beliefs. The authors suggest in their various contributions the need for exploring a post-positivist critical theories of "politics of rational dialogue." Ball contends that language not only reflects the World but is also partly constitutive of it. Jung calls for revising the technology of communication over political life; Minogue underlines the significance of the loquocentric states.
