An Argument on Rhetorical Style Marie Lund, 2017-04-16 This book interprets rhetorical style within a theoretical frame and it aims to give a more unifying account than has been given in most publications on style The aim is to establish the concept of rhetorical style that will not only achieve a greater conceptual consensus but also help make it both powerful and useful in line with other concepts in the practical and critical disciplines of rhetoric The examination of rhetorical style is aimed at conceptual development based on theoretical reflection and rhetorical analysis The goal is to achieve a clearer understanding of some of the ways in which rhetorical style supplies the conceptual frameworks for reflecting perceiving arguing and gaining influence in practical life

Diplomatic Style and Foreign Policy Jeffrey Robertson, 2016-05-20 The book explores diplomatic style and its use as a means to provide analytical insight into a state's foreign policy with a specific focus on South Korea Diplomatic style attracts scant attention from scholars It is dismissed as irrelevant in the context of diplomacy's universalism misconstrued as a component of foreign policy alluded to perfunctorily amidst broader considerations of foreign policy or wholly absented from discussions in which it should comprise an important component In contrast to these views practitioners maintain a faith like confidence in diplomatic style They assume it plays an important role in providing analytical insight giving them advantage over scholars in the analysis of foreign policy This book explores diplomatic style and its use as a means to provide analytical insight into foreign policy using South Korea as a case study It determines that style remains important to diplomatic practitioners and provides analytical insight into a state's foreign policy by highlighting phenomena of policy relevance which narrows the range of information an analyst must cover The book demonstrates how South Korea's diplomatic style which has a tendency towards emotionalism and is affected by status generational change cosmopolitanism and estrangement from international society can be a guide to understanding South Korea's contemporary foreign policy This book will be of much interest to students of diplomacy studies foreign policy Asian politics and International Relations in general

Political Aesthetics Crispin Sartwell, 2011-03-15 I suggest that although at any given place and moment the aesthetic expressions of a political system just are that political system the concepts are separable Typically aesthetic aspects of political systems shift in their meaning over time or even are inverted or redeployed with an entirely transformed effect You cannot understand politics without understanding the aesthetics of politics but you cannot understand aesthetics as politics The point is precisely to show the concrete nodes at which two distinct discourses coincide or connive come apart or coalesce from Political Aesthetics Juxtaposing and connecting the art of states and the art of art historians with vernacular or popular arts such as reggae and hip hop Crispin Sartwell examines the reach and claims of political aesthetics Most analysts focus on politics as discursive systems privileging text and reducing other forms of expression to the merely illustrative He suggests that we

need to take much more seriously the aesthetic environment of political thought and action Sartwell argues that graphic style music and architecture are more than the propaganda arm of political systems they are its constituents A noted cultural critic Sartwell brings together the disciplines of political science and political philosophy philosophy of art and art history in a new way clarifying basic notions of aesthetics beauty sublimity and representation and applying them in a political context A general argument about the fundamental importance of political aesthetics is interspersed with a group of stimulating case studies as disparate as Leni Riefenstahl's films and Black Nationalist aesthetics the Dead Kennedys and Jeffersonian architecture

Governing Codes Karrin Vasby Anderson, Kristina Horn Sheeler, 2005-08-23 Familiar narratives and simplistic stereotypes frame the representation of women in U S politics Pervasive containment rhetorics such as the distinction between women as mothers and caregivers and men as rational thinkers create unique hurdles for any woman seeking public office While these governing codes generally act to constrain female political power they can also be harnessed as a resource depending on the particular circumstances e g party affiliation geographic location and personal style One of these governing codes the metaphor is an especially powerful tool in politics today particularly for women By examining the political careers of four of the most prominent and influential women in contemporary U S
