### **Romanesque Architecture and its Sculptural in Christian Spain, 1000-1120**

Janice Mann, 2009-04-08 The decades following the year 1000 marked a watershed in the history of the Iberian Peninsula when the balance of power shifted from Muslims to Christians During this crucial period of religious and political change Romanesque churches were constructed for the first time in Spain Romanesque Architecture and Its Sculptural Decoration in Christian Spain 1000-1120 examines how the financial patronage of newly empowered local rulers allowed Romanesque architecture and sculptural decoration to significantly redefine the cultural identities of those who lived in the frontier kingdoms of Christian Spain Proceeding chronologically Janice Mann studies the earliest Romanesque monuments constructed by Sancho el Mayor r 1004-1035 and his wife daughters and granddaughters as well as those that were built by Sancho Ramirez king of Aragon 1064-1094 Mann examines groups of buildings constructed by particular patrons against the backdrop of changing social conditions and attitudes that resulted from increased influence from beyond the Pyrenees the consolidation of royal power and intensified aggression against Muslims An in-depth study of the rise of an architectural style this is the first book to examine early Romanesque architecture and sculpture of the Iberian Peninsula as it relates to frontier culture

**Stained Glass in England During the Middle Ages** Richard Marks, 2006-01-16 First published in 1993 The first modern study of the medium this book considers stained glass in relation to architecture and other arts and by examining contemporary documents it throws valuable light on workshop organisation prices and patronage

**Legends in Limestone** Linda Seidel, 1999-10-15 Whereas twelfth century pilgrims flocked to the church of St Lazare in Autun to visit the relics of its patron saint present day pilgrims journey there to admire its superb sculpture said to have been created by the artist Gislebertus whose name is inscribed above one of the church doors These two cults of sculptor and of saint form points of departure and arrival for Linda Seidel's study Legends in Limestone reveals how Gislebertus sculptor was discovered and subsequently sanctified over the course of the last century Seidel makes a compelling case for the identification of the name

with an ancestor of the local ducal family invoked for his role in the acquisition of the precious relics With the aid of evidence drawn from the richly carved decoration of the building she demonstrates how medieval visitors would have read a different holy narrative in the church fabric one that constructed before their eyes an account of their patron saint's life Legends in Limestone an absorbing study of one of France's most revered medieval monuments provides fresh insights into modern and medieval interpretive practices *Handbook to Life in the Medieval World, 3-Volume Set* Madeleine Pelter Cosman, Linda Gale Jones, 2009 Presents a three volume set that examines the medieval civilizations of the Muslims Jews and Christians including history economics medicine technology art literature and clothing *The Marvellous and the Monstrous in the Sculpture of Twelfth-century Europe* Kirk Ambrose, 2013 Richly illustrated consideration of the meaning of the carvings of non human beings from centaurs to eagles found in ecclesiastical settings Representations of monsters and the monstrous are common in medieval art and architecture from the grotesques in the borders of illuminated manuscripts to the symbol of the green man widespread in churches and cathedrals These mysterious depictions are frequently interpreted as embodying or mitigating the fears symptomatic of a dark age This book however considers an alternative scenario in what ways did monsters in twelfth century sculpture help audiences envision perhaps even achieve various ambitions Using examples of Romanesque sculpture from across Europe with a focus on France and northern Portugal the author suggests that medieval representations of monsters could service ideals whether intellectual political religious and social even as they could simultaneously articulate fears he argues that their material presence energizes works of art in paradoxical even contradictory ways In this way Romanesque monsters resist containment within modern interpretive categories and offer testimony to the density and nuance of the medieval imagination KIRK AMBROSE is Associate Professor Chair Department of Art and Art History University of Colorado Boulder
