Radiation Research in the Va Involving Human Subjects ,2015-08-05 Excerpt from Radiation Research in the Va Involving Human Subjects Hearing Before the Committee on Veterans Affairs House of Representatives One Hundred Third Congress Second Session February 8 1994 The committee met pursuant to call at 9 a m in room 334 Cannon House Office Building Hon G V Sonny Montgomery chairman of the committee presiding Present Representatives Montgomery Evans Penny Rowland Long Edwards of Texas Waters Bishop Kreidler Stump Smith of New Jersey Spence Everett Bachus and Linder Opening Statement of Chairman Montgomery The Chairman The committee will be in order This morning we will hear testimony about medical research Secretary Brown we welcome you as well as Dr Susan Mather whom we have seen all over the country and also Mary Lou Keener who is the General Counsel We would like to know the progress VA has made in uncovering and securing records about the use of radiation in human subjects which took place in the VA hospitals beginning in the 1940 s We also have VA physicians who actually performed some of the medical research which has been the subject of so much medical attention in the last 2 months In addition we have convened a panel of experts who were not involved in research and who are very knowledgeable about the risk of radiation to humans or about the ethics of using humans in medical research Now to my colleagues the purpose of our hearing is to learn what happened and to make this information available to the public There have been amazing advances in human knowledge generated by thousands of well known American scientists during the 20th century Several of those scientists will testify before us today and tell us about their pioneering work involving radiation and we would like to thank

the scientists and our guest witnesses for being here this morning and thank you for taking the time to come a long way to be with us Although many of us are familiar with the topic of radiation health effects because of the committee s work on compensation for atomic veterans the testimony today concerns a different type of exposure through medical research and as I said we are here to listen and to learn About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
