*Radical Christian Writings* Andrew Bradstock, Christopher Rowland, 2008-04-15 This volume which fills a gap in the current literature will be essential reading for third year undergraduates and above in Biblical studies Faith-based Radicalism Christiane Timmerman, 2007 Terror attacks against Western symbols of power suicide terrorism in Chechnya or bombing of abortion clinics in the United States these are a few of the violent religious outbursts that the media never seem to stop broadcasting While these outbursts are mostly linked to Islamic extremism it should however be acknowledged that every religion has its own violent side Despite all the events the media are too prompt to show us it would be dishonest and insensible not to accept that every religion has also a potential for religious peace building and communal renewal How can it be explained then that religions sometimes react violently against the society surrounding them by trying to overthrow it while at some other times they willingly help and try to build a better world for everyone The University Centre Saint Ignatius Antwerp organised an interdisciplinary summer seminar in September 2005 and gathered senior scholars all experts in their own fields and junior scholars who will be the experts of tomorrow from all over the world to discuss these burning issues The seminar focused on miscellaneous topics all pointing towards the question of religion and society like literalism and the Holy texts the ambivalence of faith based radicalism the psychology of religion and terrorism nationalism and religion and religious social movements Publisher A Theology of Community Organizing Chris Shannahan, 2013-11-12 The rising importance of community organizing in the US and more recently in Britain has coincided with the developing significance of social movements and identity politics debates about citizenship social capital civil society and religion in the public sphere At a time when participation in formal political process and membership of faith groups have both declined dramatically community organizing has provided a new opportunity for small community groups marginalized urban communities and people of faith to engage in effective political action through the developments of inter faith and cross cultural coalitions of groups In spite of its renewed popularity little critical attention has been paid to community organizing This book places community organizing within debates about the role of religion in the public sphere and the rise of public theology in recent years The book explores the history methodology and achievements of community organizing engaging in a series of conversations with key community organizers in the US and Britain This volume breaks new ground by beginning to articulate a cross cultural and inter faith Theology for Community Organizing that arises from fresh readings of Liberation Theology **Theological Reflection: Methods, 2nd Edition** Elaine Graham, Heather Walton, Frances Ward, 2019-02-27 Theological Reflections Methods offers a comprehensive collection of models of theological reflection By bringing this diverse collection together in one place the editors create a unique reference work that allows a clear and visible contrast and comparison as each model is treated formally and in a standard format Throughout each chapter the distinguishing features of the model are examined the geneology and origins are discussed worked examples of the model applied to contemporary

 movements and more Provides both Islamic and Jewish responses to political theology Written for academics and students of  
 political theology Wiley Blackwell Companion to Political Theology 2nd Edition is an enlightening read that offers a wide  
 range of authoritative essays from some of the most notable scholars in the field     *Reading Texts, Seeking Wisdom* David F.  
 Ford, Graham Stanton, 2004 Eighteen leading scripture scholars and theologians engage with key issues and texts to do with  
 scripture and theology They look at how the Bible and theology have come together in the past in Judaism the early Church  
 the Middle Ages early modernity and the 20th century How is current biblical scholarship to be related to past insights and  
 modern methods Contributors debate how wisdom is to be related to faith and to reason     *Voices from the Borderland*  
 Chris Shannahan, 2016-04-01 Urban theology affirms the importance of context notably the place of the city in theological  
 reflection However it has often been confined to particular contexts or theological camps and thus failed to engage with the  
 fluidity of contemporary urban societies *Voices from the Borderland* presents an overview of urban theology arguing that the  
 twenty first century demands a dialogical model of theology that enacts progressive change The volume draws on studies of  
 the multicultural and multi faith British urban experience and situates these within the wider international context The works  
 of influential theologians in the field are examined and the dialogue between theology globalisation post colonialism  
 postmodernism and post religious urban culture critically explored The volume is unique in bringing together urban  
 liberation theology urban black theology reformist urban theology globalisation urban theology and post religious urban  
 theology     [A Theology of International Development](#) Thia Cooper, 2020-02-05 Religion and development have been  
 intertwined since development s beginnings yet faith based aid and development agencies consistently fail to consider how  
 their theology and practice intersect This book offers a Christian theology of development with practical solutions to bridge  
 the gap and return to truly faith based policies and practices Development aims to raise the living standard of the world s  
 poor mainly through small scale projects that increase economic growth A theology of liberation provided a critique to  
 development practice but a specific theology of development is still lacking and many faith based aid agencies have failed to  
 adapt their practice In applying theological thinking to development the author argues that aid agencies need to address the  
 entrenchment of unequal power relations and embrace a holistic notion of development defined by the needs of those most  
 marginalized instead of by a focus on economic growth Development organisations need to consider the distinction between  
 charity and justice and to empower people in the Global South paying particular attention to the intersections of race class  
 sexuality religion and the environment Overall this book is a powerful call to upend development practice as it currently  
 exists and to return faith based organizations to following Christian practices It will be an important read for religion and  
 development researchers practitioners and students     *Encyclopedia of New Religious Movements* Peter Clarke, 2004-03-01

Post-Colonial Theology Robert S. Heaney, 2019-05-08 Hate is unveiled on our streets Politics is polarized and the cohesion of communities is under stress and threat Religious and theological leaders appear compromised or paralyzed Robert S Heaney grew up in a Northern Ireland where enmity paraded itself and policed the boundaries between segregated identities and aspirations Such conflict with deep historic roots is inextricably linked to religion and colonization The theologizing of colonialism and the ongoing implications of colonialism cannot be ignored by those who wish to understand the most intractable of human conflicts Religious adherents and scholars are increasingly seeking to understand colonialism and decolonization in theological terms The field of post colonial studies across a range of contexts and in a complex network of inter disciplinary analyses has emerged as a major scholarly movement seeking to provide resources for such a task Theologians have increasingly seen the field as a resource and have made their own contributions to its development However depending as it does on a series of theoretical and technical commitments post colonialism remains inaccessible to the uninitiated Beginning with his own particular context of formation in this book Heaney provides an accessible introduction to post colonial theology
