The Politics of Persuasion Anthony R. DiMaggio, 2017-02-21 Tracking the effects of media content on the public is a difficult endeavor and media effects vary on a subject to subject basis To address this challenge The Politics of Persuasion employs a multifaceted mixed method approach to studying mass media and public attitudes Anthony R DiMaggio analyzes more than a dozen case studies covering US domestic economic policy and examines a wide range of theories of how bias operates in mass media with regard to coverage of these issues While some research claims that journalists are overly negative and biased against government officials some reveals that journalists favor citizens groups Still other studies contend there is a liberal bias in the media a progovernment bias or a bias in favor of advertisers and business interests Through his analysis DiMaggio is the first to systematically examine all of these competing interpretations He concludes that reporters tailor stories to corporate and government interests but argues that the ability to manufacture consent from the public in favor of these elite views is far from guaranteed According to DiMaggio citizens often make use of their own personal experiences and prior attitudes to challenge official narratives

Brazil Alfredo Saad-Filho, Lecio Morais, 2017-12-20 Brazil is the world's sixth largest economy has played a key role as one of the pink wave administrations in Latin America and was also responsible for wrecking the US sponsored proposal for a Free Trade Area of the Americas It is also one of the few large countries where social spending has risen and the distribution of income has improved in the last thirty years However as protests during the World Cup in 2014 have shown the country remains highly unequal unmet social needs are vast and its infrastructure is precarious Alfredo Saad Filho and Lecio Morais review the paradox that is modern day Brazil Focusing on the period from 1980 onwards they analyse the tensions between the two systemic transitions to have dominated the country the political transition from military rule to democracy and to neoliberalism The authors show how these transitions had contradictory logics and dynamics yet ultimately became mutually supportive as they unfolded and intertwined

Pursuing the Spiritual Roots of Protest Gordon Oyer, 2014-02-28 In the fall of 1964 Trappist monk Thomas Merton prepared to host an unprecedented gathering of peace activists About all we have is a great need for roots he observed but to know this is already something His remark anticipated their agenda a search for spiritual roots to nurture sound motives for protest This event's originality lay in the varied religious commitments present Convened in an era of well kept faith boundaries members of Catholic lay and clergy mainline Protestant historic peace church and Unitarian traditions participated Ages also varied ranging from twenty three to seventy nine Several among the fourteen who gathered are well known today among faith based peace advocates the Berrigan brothers Jim Forest Tom Cornell John Howard Yoder A J Muste and Merton himself During their three days together insights and wisdom from these traditions would intersect and nourish each other By the time they parted their effort had set down solid roots and modeled interreligious collaboration for peace work that would blossom in coming decades Here for the first

time the details of those vital discussions have been reconstructed and made accessible to again inspire and challenge followers of Christ to confront the powers and injustices of today

**Other Lands Have Dreams** Kathy Kelly, 2005 Written by a human rights activist this extraordinary narrative gives voice to the cries of people afflicted by military and economic warfare

**Reconstruction in a Globalizing World** David Prior, 2018-01-02 As one of the most complexly divisive periods in American history Reconstruction has been the subject of a rich scholarship Historians have studied the period's racial views political maneuverings divisions between labor and capital debates about woman suffrage and of course its struggle between freed slaves and their former masters Yet on each of these fronts scholarship has attended overwhelmingly to the eastern United States especially the South thereby neglecting important transnational linkages This volume the first of its kind will examine Reconstruction's global connections and contexts in ways that while honoring the field's accomplishments move it beyond its southern focus The volume will bring together prominent and emerging scholars to showcase the deepening interplay between scholarships on Reconstruction and on America's place in world history Through these essays Reconstruction in a Globalizing World will engage two dynamic fields of study to the benefit of them both By demonstrating that the South and the eastern United States were connected to other parts of the globe in complex and important ways the volume will challenge scholars of Reconstruction to look outwards Likewise examining these same connections will compel transnationally minded scholars to reconsider Reconstruction as a pivotal era in the shaping of the United States relations with the rest of the world
