DeGregorio, 2010-05-25 Media accounts of Congress emphasize conflict and the failure of Congress to enact legislation Rarely do we see accounts of the successful efforts of members of Congress and outside advocacy groups to pass legislation dealing with important and controversial issues In *Networks of Champions* Christine A DeGregorio identifies who in the U S House of Representatives took the lead in shepherding six major bills dealing with welfare reform drug control international trade farm policy nuclear weapons testing and assistance to the Contras through Congress and how these champions of legislation worked with outside advocacy groups DeGregorio finds that the champions of this legislation were drawn from a diverse group that included individuals both within and outside the formal hierarchy of leadership The champions who were not necessarily the prominent holders of important positions are characterized by having knowledge of the subject matter experience in the House a facility for bargaining and compromise the right committee assignments and a commitment to hard work DeGregorio traces how these groups become influential and how the groups affect the policy making process She finds a reciprocal process in which advocacy groups use champions to express their views while champions use the resources of advocacy groups to gain influence in the House Based on extensive interviews with key congressional staff members and the leaders of advocacy groups DeGregorio provides critical new insights into the legislative process This book will be of interest to those who study the legislative process and the role of interest groups in making American policy a substantial contribution to our understanding of advocacy in Congress Barbara Sinclair University of California Los Angeles Christine A DeGregorio is Associate Professor Department of Government School of Public Affairs American University **Lesson**

Godfrey, 2013-09-13 For more than half a century broadcast recordings have reflected an important aspect of our culture and history An increasing number of archivists and private collectors have restored and exchanged radio and television materials However despite the awareness of these primary resource materials there is still some reluctance to utilize this aural and visual history resource A part of this reluctance is due to the fact that little is known about the existence of many collections throughout the nation This volume provides a comprehensive directory of electronic media archives in the United States and Canada It describes each collection focusing on its speciality providing the serious researcher with ready access information to these electronic media program resources Focusing on both private and institutional collections it is organized by state and city with indexes to provide the scholar with subject and location of specific topics of interest *Sports on Television* Alvin H. Marill, 2008-12-30 Television has always augmented its dramatic and variety programming with sports After covering wrestling and boxing matches for several years ABC added the hugely popular Roller Derby between 1949 and 1951 and later college and pro football Today there is a multitude of pay and cable networks devoted exclusively to baseball football golf hockey tennis ice skating and auto racing Rather than focusing on live sports broadcasts however this book chronicles the history of sports themed comedies and dramas to see how our national fictions have affected our authentic sports experiences and vice versa Sports dominate the television landscape today and still the demand for more is so great that pay and cable networks continue to find funding and success even when devoted exclusively to a single sport But this is really nothing new television has always augmented its dramatic and variety programming with sports Live sports have had a tremendous impact on what we see on television and on how we see it Rather than focusing on live sports broadcasts however this book takes a critical look at sports themed comedies and dramas to see how our authentic sports affect our national fictions as well From the character studies that supplement Olympic coverage to nightly highlight reels to reality programming on ESPN sports both echo and help shape the myths that pervade our culture Sports on Television covers the changing relationship between live sports broadcasts and television dramas as well as the important technological developments and cultural shifts that have changed the way we view the reality of sports In 1949 after covering wrestling and boxing matches for several years ABC added the hugely popular Roller Derby and later moved on to college and pro football where humble beginnings have since developed into a national obsession In the early sixties Jimmy Stewart played a disgraced baseball player in Flashing Spikes which was also one of the rare ventures into television for veteran director John Ford On HBO the Yankees have been the subject of both 61 about Roger Maris's quest to top Babe Ruth's home run record and The Bronx Is Burning about the 1977 Yankees team And there have been sports themed TV sitcoms as well such as Sports Night Aaron Sorkin's critically lauded but commercially unsuccessful project which preceded his work on The West Wing Meanwhile American Gladiators a strange blend of canned programming and authentic

athletic endeavor that in effect puts television audiences in an arena with what amounts to professional athletes is quickly becoming one of the most popular shows on primetime Here Marill gives due time to all of these unique projects Why Be a Champion? ,2010 *Sightlines* ,1981 *Turf, Field, and Farm* ,1901 **No Fixed Address** John I. Brooks,2008-05-29 The Great Depression was a devastating historical event that affected everyone around the world No one was spared as people of wealth plunged into the depths of real poverty experienced homelessness and hunger in the hard times and unrelieved combat that lasted for years Author John I Brooks shares his memories as a child growing up during the Depression where many experienced No Fixed Address No Fixed Address is a memoir of the Depression World War II and the events that mark the beginning of the nations postwar transformation The author takes the reader on a journey through those times in Chicago Southern California and New York City His fascinating true account focuses on the struggles and joys of ordinary families in an extraordinary time But always in the background are the massive changes taking place in the life and culture of Americans as their old world vanished and a new one was born These seismic shifts continue to influence our lives today
