

Railroad Revitalization and Regulatory Reform Act (4R Act) - 1976

- Articulated as national rail policy that railroads need to earn adequate revenues, have greater freedom to raise and lower rates in response to market demands and that competition rather than regulation should be relied upon to promote adequate and efficient rail service and attract investment.
- Encouraged independent railroad pricing and less reliance on collective ratemaking.
- Permitted rate incentives for capital investment (i.e., an early form of contract rate).
- Limited ICC rate regulation to traffic on which the railroad has market dominance.
