Strategies for the Global Economic System for 2030 Elena G. Popkova, Artem I. Krivtsov, Aleksei V. Bogoviz, 2021-07-19 Against the background of continuing crises in the world's economy the question of what future awaits it in the third decade of the 21st century has become urgent According to the paradigm model of long waves the next global economic crisis is expected to transpire somewhere around 2030 This book defines the basic conditions for the development of the modern global economy analyzing future scenarios for its long term development and providing applied recommendations for the practical implementation of the optimal scenario The book first explores the conceptual vision of the future and the priorities for the strategic development of the global economic system until 2030 It then formulates the requirements for entrepreneurship to achieve the priorities of the strategic development of the global economic system

including long term industry solutions for entrepreneurship and markets Third it outlines the guidelines for state regulation of the global economic system in the interest of achieving the priorities of its strategic development in the period up to 2030

Modern Economic Regulation Christopher Decker,2023-06-08 Economic regulation affects us all shaping how we access essential services such as water energy and transport as well as how we communicate with one another in the digital world Modern Economic Regulation describes the core insights of economic theory on which regulatory policies are based and connects this with evidence of how regulation is applied It focuses on fundamental questions such as why are certain industries regulated What principles can inform regulation How is regulation implemented Which regulatory policies have been more or less effective in practice All chapters in this second edition are fully updated to reflect the latest research and evidence while five new chapters cover behavioural economics and the regulation of rail aviation payment systems and digital platforms Each chapter contains discussion questions and topical case studies and online materials include over 60 applied exercises that explore real life regulatory problems from around the world Explaining Railway Reform in China

Linda Tjia Yin-nor,2015-10-14 Having been state owned for decades the railway reform in China confused many people particularly in terms of its ownership and property rights arrangements Western literature always prescribes that the best model for railway reform is privatization China s leadership has also enunciated the state s determination to re arrange property rights and rejuvenate corporate governance But is China s railway reform really a story of convergence and will the Chinese government follow the western model of railway reform Addressing these questions this book provides a positive explanation of the reform in China s railway sector between 1978 and the dissolution of the Ministry of Railways It bridges the socialist reform and transport policy literature and studies the empirical changes of the property rights arrangements in China s railway system Refuting the convergence theory it concludes that the cyclical reform policies of decentralization and re centralization were actually an exploratory and interactive mechanism of assets discovery and assets recovery This in depth study is based on 21 face to face interviews with railway cadres as well as field trips to collect first hand information in Guangzhou Beijing Shanghai Tianjin and Wuhan As one of the only empirical studies on the reform of the railway sector in China this book will be of interest to students and scholars of China studies Transport studies and Political Economy

Changing Trains Didier van de Velde,2018-12-17 Published in 1999 The book presents and compares the new relationships between transport authorities and railway companies in a number of countries Great Britain Sweden Japan Germany Switzerland and France It also presents a number of case studies focusing on the role of contracts competition and tendering and presenting the achievements of the new regimes so far This book is aimed at all transport professionals authorities and academics interested in the increasing use of competition in the passenger railway sector Chinese Railways in the Era of High Speed Zhenhua Chen,Kingsley E. Haynes,2015-09-07 This book reflects on experiences in other countries and makes recommendations for improving the capability and capacity of institutions and organizations in order to

achieve sustainable development of the Chinese high speed railway HSR system **UK economic regulators** Great Britain: Parliament: House of Lords: Select Committee on Regulators,2007-11-13 UK economic Regulators 1st report of session 2006 07 Vol 2 Evidence **Statutory Rules and Orders Other Than Those of a Local, Personal, Or Temporary Character** Great Britain,1935 Contemporary Issues in Mining N. Finch,2012-09-24 Provides case studies commentary and analysis on the mining sector from international experts in business across the four key focus areas of strategic operational financial and disclosure perspectives on mining Invaluable to executives managers and advisers involved in the mining sector including public and private mining companies **The Railway Age Monthly and Railway Service Magazine** ,1881

Socioeconomic Impacts of High-Speed Rail Systems Francesca Pagliara,2025-04-30 This book offers new insights into the wider socioeconomic impacts of high speed rail HSR Over the past few decades significant investments have been made in these systems around the world The use of public funds for the construction of HSR offers a range of benefits such as time savings increased comfort and reduced traffic congestion as well as broader economic benefits including the advancement of less developed regions These proceedings feature papers presented at the 4th International Workshop on the Socio economic Impacts of High Speed Rail The focus is on impacts on the land use system competition vs integration with alternative transport modes investment and evaluation The book provides an overview of the current state of practice from both theoretical and empirical perspectives As such it is of interest to academics in transport economics and related fields as well as professionals in the transport industry *Parliamentary Debates* New Zealand. Parliament,1931 *Report of the Commissioner for Scheduled Castes and Scheduled Tribes for the Year ...* India. Commissioner for Scheduled Castes and Scheduled Tribes,1953 International Encyclopedia of Transportation ,2021-05-13 In an increasingly globalised world despite reductions in costs and time transportation has become even more important as a facilitator of economic and human interaction this is reflected in technical advances in transportation systems increasing interest in how transportation interacts with society and the need to provide novel approaches to understanding its impacts This has become particularly acute with the impact that Covid 19 has had on transportation across the world at local national and international levels Encyclopedia of Transportation Seven Volume Set containing almost 600 articles brings a cross cutting and integrated approach to all aspects of transportation from a variety of interdisciplinary fields including engineering operations research economics geography and sociology in order to understand the changes taking place Emphasising the interaction between these different aspects of research it offers new solutions to modern day problems related to transportation Each of its nine sections is based around familiar themes but brings together the views of experts from different disciplinary perspectives Each section is edited by a subject expert who has commissioned articles from a range of authors representing different disciplines different parts of the world and different social perspectives The nine sections are structured around the following themes Transport Modes Freight Transport and Logistics Transport Safety and Security Transport Economics Traffic

Management Transport Modelling and Data Management Transport Policy and Planning Transport Psychology Sustainability and Health Issues in Transportation Some articles provide a technical introduction to a topic whilst others provide a bridge between topics or a more future oriented view of new research areas or challenges The end result is a reference work that offers researchers and practitioners new approaches new ways of thinking and novel solutions to problems All encompassing and expertly authored this outstanding reference work will be essential reading for all students and researchers interested in transportation and its global impact in what is a very uncertain world Provides a forward looking and integrated approach to transportation Updated with future technological impacts such as self driving vehicles cyber physical systems and big data analytics Includes comprehensive coverage Presents a worldwide approach including sets of comparative studies and applications
