## **Researching Entrepreneurship:**

Researching Entrepreneurship Per Davidsson, 2006-04-18 Entrepreneurship is a phenomenon of tremendous societal importance. It is also an elusive phenomenon and researching entrepreneurship is therefore fun, fascinating and frustrating at times. In *Researching Entrepreneurship* Per Davidsson, one of the most highly recognized entrepreneurship scholars, shares in a personal and readable way his rich experience and ideas on how entrepreneurship can or should be researched. After a comprehensive treatment of entrepreneurship as a societal phenomenon and scholarly domain, the core chapters of the book discuss design, sampling, operationalization, and analysis issues on several levels of analysis: individual, venture, firm, industry, region, and nation. The book is targeted at doctoral students and other relative newcomers to the field of entrepreneurship research. However, taking a fresh, reflective perspective and looking beyond research conventions, it should provide potential for inspiration and food for thought, also for experienced entrepreneurship researchers.

*Researching Entrepreneurship* Per Davidsson, 2016-03-05 In this book, one of the most highly recognized entrepreneurship scholars shares in a personal and readable way his rich experience and ideas on how entrepreneurship can be researched. Entrepreneurship is a phenomenon of tremendous societal importance. It is also an elusive phenomenon which makes researching it fun, fascinating and frustrating at times. In this fully updated edition, numerous real examples accompany the treatment of problems and solutions concerning design, sampling, operationalization, and analysis. *Researching Entrepreneurship* is targeted primarily at research students and academics who are relatively new to research or to entrepreneurship research. This said, basic knowledge of research methods is assumed, and when foundational issues are discussed, they are typically approached from a non-standard angle and/or with an eye to illuminate entrepreneurship-specific problems and solutions. This makes large parts of the contents potentially valuable for entrepreneurship scholars at any level of research proficiency. The book is also of interest to sophisticated non-academic users with a professional interest in collecting and analyzing data from emerging and young ventures and to those who make use of published entrepreneurship research. For example, analysts in marketing research or consultancy firms, business associations, statistical agencies, and other government offices may find this book to be a valuable tool. Moreover, while the examples are derived from entrepreneurship research, the book provides a unique, experienced empirical researcher rather than textbook method expert treatment of issues that are of equal relevance across the social sciences. This goes for topics like the role of theory, research design, validity assessment, statistical inference, and replication. Entrepreneurship research has developed rapidly in the decade that has passed since the first edition. Therefore, all chapters have been comprehensively updated, and many have been extended, sometimes to twice the original length. Two of the original chapters have been excluded to make room for entirely new chapters on the Dependent Variable and The Entrepreneurship Nexus. While retaining a unique personal tone, the author uses examples and references that build on contributions from a large number of top entrepreneurship researchers.

Handbook of Research On Entrepreneurship Alain Fayolle, 2014-05-30

This indispensable Handbook offers a fresh look at entrepreneurship research addressing what we already know and what we still need to know in the field Over the course of 17 chapters a collaboration of 24 highly regarded researchers expe

*Research Handbook on Entrepreneurship and Leadership* Richard T. Harrison, Claire M. Leitch, 2019 This Research Handbook argues that the study of entrepreneurs as leaders is a gap in both the leadership and the entrepreneurship literatures With conceptual and empirical chapters from a wide range of cultures and entrepreneurship and leadership ecosystems the Research Handbook for the first time produces a systematic overview of the entrepreneurial leadership field providing a state of the art perspective and highlighting unanswered questions and opportunities for further research It consolidates existing theory development stimulates new conceptual thinking and includes path breaking empirical explorations

Handbook of Research Methods and Applications in Entrepreneurship and Small Business, Second Edition Malin Brännback, Alan Carsrud, Diana Hechavarria, Jill Kickul, 2025-01-09 This Handbook examines the diverse methodologies and philosophies employed in research on entrepreneurship small enterprises and family businesses Exploring fundamental questions involved in data collection this new edition emphasises the increased importance of understanding the nuances of methods and applications in today's research landscape

*Entrepreneurship Education and Research in the Middle East and North Africa (MENA)* Nezameddin Faghieh, Mohammad Reza Zali, 2018-08-01 This contributed volume explores and reveals the new developments dynamics and recommendations for entrepreneurship education in the Middle East and North Africa MENA region Presenting papers by respected experts in the field it shares essential insights on the status quo of entrepreneurial education and training programs the characteristics and motivations of early stage entrepreneurs and the regional framework conditions in MENA The book closes with a bibliometric perspective on the trends in the entrepreneurship research and education being developed in MENA

**Handbook of Qualitative Research Methods in Entrepreneurship** Helle Neergaard, John P. Ulhøi, 2007 the Handbook of Qualitative Research Methods in Entrepreneurship is an important contribution to the field and should be referenced in any paper using qualitative methodologies to investigate the entrepreneurial phenomenon Craig S Galbraith *Journal of Enterprising Communities* There is no hiding behind the ramparts of dry scholarship here The credibility of the theory being spoken of is not the stuff of constructed proofs but alignments of critical insight and utility This is where qualitative work can make a difference to the field and where this book makes its mark Robin Holt *International Journal of Entrepreneurial Behaviour and Research* The Handbook of Qualitative Research Methods in Entrepreneurship is an unusually solid and multifaceted book on what qualitative methods have done are doing and will do in entrepreneurship research Every serious entrepreneurship scholar should read it It points at the future Björn Bjerke University of Kalmar Sweden I would warmly recommend this unique collection of qualitative methods of entrepreneurship research to both mature and beginning researchers as a menu to choose from for their planned empirical studies For those who try to get away from only quantitative studies in both business practice and academic research this

book is their chance to find a rich inspiration in reflecting on entrepreneurship as a lived experience using grounded theory and ethnographic discourse and narrative approaches It might convince editors of top journals of entrepreneurship research to welcome qualitative research submissions as an indispensable complement to quantitative only submissions This domain is not physics In bringing together such a variety of experts from so many nationalities in this Handbook our Danish colleagues are making entrepreneurship research a realistic global venture Jan Ulijn Eindhoven University of Technology The Netherlands Helle Neergaard and John Parm Ulh i have compiled a remarkable collection of work that both represents the range of methods and demonstrates the depth of insight that can be achieved through qualitative approaches This book is not simply a handbook of qualitative research methods though it well achieves this aim it is also an important contribution towards the field of entrepreneurship research From the Foreword by Sara Carter This expansive and practical Handbook introduces the methods currently used to increase the understanding of the usefulness and versatility of a systematic approach to qualitative research in entrepreneurship It fills a crucial gap in the literature on entrepreneurship theory and just as importantly illustrates how these principles and techniques can be appropriately and fruitfully employed The Handbook is underpinned by the belief that qualitative research has the potential to charter hitherto unexplored waters in the field of entrepreneurship and thus contribute significantly to its further advancement The contributors seek to assist entrepreneurship researchers in making more informed choices and designing more rigorous and sophisticated studies They achieve this by providing concrete examples of research experiences and tangible how to advice By clarifying what these research methods entail how they are currently being used and how they can be evaluated this Handbook constitutes a comprehensive and highly accessible methodological toolbox Dealing with both well accepted qualitative approaches and lesser known rarer and more novel approaches to the study of entrepreneurship this Handbook will be invaluable to those studying researching and teaching entrepreneurship

Big Questions and Great Answers in Entrepreneurship Research  
Alain Fayolle, Sandrine Le Pontois, R. D.M. Pelly, 2024-10-03 Big Questions and Great Answers in Entrepreneurship Research underscores the progress that has been made and the challenges that remain within the field of entrepreneurship research by considering the field's rapid expansion over the last thirty years

Handbook of Research on Entrepreneurship Policy  
David B. Audretsch, Isabel Grilo, A. Roy Thurik, 2007 This book is a well written and handy source for readers Additionally it provides an overview of current issues relevant to the development of entrepreneurial policy which is based on interesting case studies across a number of nations Dessy Irawati International Journal of Entrepreneurial Behaviour and Research What is new in the world is the need to understand business dynamics the entry exit and growth of firms in the economy This dynamic firm structure as opposed to the static firm structure that dominated past thinking has spurred an outpouring of research The heart of the issue is that while many have identified the importance of business dynamics entry and exit we have only recently taken a closer look at the ecological system in which some companies must die for others to thrive

Entrepreneurs are the predators of this system Public policy in an entrepreneurial economy dynamic must limit the forces that prevent firm exit and foster the forces that promote firm entry This book makes an important contribution to the debate Zoltan J Acs George Mason University US and Max Planck Institute of Economics Germany This unique Handbook provides a solid foundation for essential study in the nascent field of entrepreneurship policy research This foundation is initially developed via the exploration of two significant propositions underpinning the nature of entrepreneurship policy research The first is that entrepreneurship has emerged as a bona fide focus of public policy particularly with respect to economic growth and employment creation The second is that neither scholars nor policy makers are presently equipped to understand the public policy role for entrepreneurship The contributors experienced scholars specialist researchers and dynamic policy makers thus grapple with novel questions of considerable policy relevance that few have previously posed The Handbook therefore provides some of the first crucial systematic analyses of important issues and key questions to be raised in order to move entrepreneurship policy forward are also presented Written by academics and practitioners drawing examples from both North America and Europe this stimulating new Handbook is a prerequisite for students scholars and practitioners in the incipient world of entrepreneurship policy

**ECRM 2017 16th European Conference on Research Methods in Business and Management** Dr Anthony Buckley, 2017

**The Future of Entrepreneurship in Africa** Anthony Abiodun Eniola, Chux Gervase Iwu, Abdullah Promise Opute, 2022-12-30 For many years entrepreneurship has been considered as one of the most important solutions to the three pronged challenges poverty unemployment and inequality of most African countries A recent development that has undoubtedly compounded the challenges that African entrepreneurs face and further impede the economic growth impact is Covid 19 This pandemic has exerted severe damage to economies and businesses globally For the African setting the implications of Covid 19 on businesses and individuals would be enormous as African societies are rarely equipped to absorb unexpected shocks of this magnitude as the social and welfare schemes are far below requirements This book illuminates entrepreneurship in the African setting focusing on the prospects challenges and the post Covid 19 pandemic future It aims to offer a rich repository of information on strategies and techniques for sustaining entrepreneurial activities that can enrich African nations and will be of relevance to academics researchers advanced students entrepreneurs governments and government agencies who are interested in understanding issues relating to entrepreneurship development within the African continent

*Challenges and Controversies in Management Research* Bill Lee, Catherine Cassell, 2011-01-25 Management research has expanded considerably over recent decades The impetus for such growth comes from a wide range of forces both inside and outside of the academic community stimulate and regulate its development while the audience for which management research might be considered to be useful and the extent of that usefulness are highly contested This book seeks to explore the forces that drive the development of management research shape its current state and influence its future potential

**Handbook of Qualitative Research Methods for Family**

**Business** Alfredo De Massis, Nadine Kammerlander, 2020-03-28 This timely Handbook provides a comprehensive guide to the methodological challenges of qualitative research in family business Written by an international multidisciplinary team of experts in the field the Handbook provides practical guidance based on the experiences of senior researchers and features reflective discussion on how to craft insightful rigorous studies

**Women Entrepreneurs in the Circular Economy** Lisbeth Clausen, 2025-06-25 Lisbeth Clausen presents ten compelling stories of women founders across seven different countries from Japan to Colombia Their experiences reveal the diverse ways these women navigate barriers in cultural attitudes access to resources and work life balance

**Handbook of Research on Entrepreneurial Learning** Diamanto Politis, Lise Aaboen, Jonas Gabrielsson, 2025-03-12 This timely Handbook provides a comprehensive overview of the latest research empirical advances and insights in the field of entrepreneurial learning It identifies critical gaps and avenues for future scholarly inquiry and presents a comprehensive well informed overview of the field to guide academic discourse and real world entrepreneurial development initiatives

**Handbook of Research on New Venture Creation** Kevin Hindle, Kim Klyver, 2011-01-01 This comprehensive Handbook provides an essential analysis of new venture creation research the eminent contributors critically discuss and explore the current literature as well as suggest improvements to the field They reveal a strong sense of both the state of the art what has and has not been done in new venture creation research and the state of the could be future directions the field should take to improve knowledge the Handbook comprises nineteen chapters divided into four main sections setting the agenda theoretical perspectives data and measurements and new venture creation through contextual lenses This path breaking Handbook has allowed experienced new venture researchers to tell the world not only where the field has been but also where it should be going Their responses have provided an insightful and stimulating resource that will be of great practical value to researchers working in this vital and rapidly expanding subject Students and practitioners interested in understanding leading edge thinking in the field of new venture creation will also find this Handbook invaluable

**Researching Entrepreneurship and Education** Harry Matlay, 2009 Purpose This article is the first in a series of conceptual and empirical contributions that individually and cumulatively seek to analyse develop and link two important fields of research entrepreneurship and entrepreneurship education Design methodology approach The paper undertakes a critical literature review and a methodical evaluation of current knowledge on topics related directly and indirectly to entrepreneurship and entrepreneurship education Findings A critical evaluation of the literature on entrepreneurship and entrepreneurship education has highlighted a number of definitional conceptual and contextual weaknesses inherent in these two interrelated fields of research Importantly both fields of knowledge share similar definitional weaknesses and methodological inadequacies The paper proposes an encompassing working definition of entrepreneurship including intrapreneurship and a basic typology of relevant entrepreneurial and intrapreneurial activities This converging approach combines the two units of analysis i e the entrepreneur and or the intrapreneur as well as the

entrepreneurial and or intrapreneurial firm In terms of a basic typology the paper recommends Westhead and Wright s suggestion that entrepreneurs can be categorised into three broad groups novice serial and portfolio This converging approach to entrepreneurship would bridge the most obvious aspects of empirical discord and provide better comparative and more generalisable research Research limitations implications The evaluation and interpretation of emergent results represent the author s own perceptions experiences and biases and should therefore be viewed with caution Thus this article is subject to the usual bias and singular perspective which is generally attributable to viewpoint articles Originality value The paper proposes an encompassing working definition of entrepreneurship and a basic typology of relevant entrepreneurial and intrapreneurial activities Publication abstract *Researching Business and Management* Harvey Maylor,Kate

Blackmon,Martina Huemann,2017-09-16 This core textbook combines a highly engaging approach with academic rigour to guide students through understanding and using research methods Now in its second edition this text has been fully updated and revised throughout With a focus that is fresh and applied *Researching Business and Management* goes beyond the theory to demonstrate how to actually do research The unique 4 Ds model shows students how to define design do and describe their research and in this way offers them a definitive guide to the research process as a system and a lifecycle that they can relate to their own work Its user friendly style enlivens the text and makes even some of the most complex issues accessible Written by a dynamic author team of leading experts in the field this is an ideal textbook for undergraduate postgraduate and MBA students studying research methods and essential reading for any business student doing a research project New to this Edition Even more cases and examples to highlight real life examples of student research that helps bring the process to life Increased coverage of the internet and online research Expanded material on quantitative analysis to provide a truly balanced overview of the discipline New dedicated chapter on research ethics and avoiding plagiarism Accompanying online resources for this title can be found at [bloomsburyonlineresources.com/researching-business-and-management-2e](http://bloomsburyonlineresources.com/researching-business-and-management-2e) These resources are designed to support teaching and learning when using this textbook and are available at no extra cost

**Creating Communities of Practice** Oswald Jones,PingPing Meckel,David Taylor,2021-02-01 This book introduces concepts of business incubation and suggests a learning process This process begins with prior knowledge at the opportunity identification phase progresses through the acquisition of new skills and knowledge necessary to develop an opportunity and concludes with a transformation phase where new knowledge is acted upon The book draws on extensive qualitative data and documentary evidence from a range of stakeholders associated with a University Business Incubator known as Innospace The process of opportunity development within the business incubator is explored by combining experiential and social learning theories as heuristic tools Presented implications for policy makers and incubator managers are that attention and scarce resources should be focused on providing relevant information and encouraging an atmosphere of learning and mutual support Recruitment practices should be revised to include a more holistic appreciation of potential incubatees contribution

to the Business Incubation learning community as well as an assessment of their business plans For policy makers the book suggests that successful business incubators do not necessarily require a large financial investment in state of the art premises and technology Appropriate management training together with carefully selected incubatees can create an effective learning community where opportunities are developed and transformed into enterprises and individuals into entrepreneurs

*Handbook of Entrepreneurship Research* Zoltan J. Acs, David B. Audretsch, 2010-08-03 Interest in and attention to entrepreneurship has exploded in recent years Nevertheless much of the research and scholarship in entrepreneurship has remained elusive to academics policymakers and other researchers in large part because the field is informed by a broad spectrum of disciplines including management finance economics policy sociology and psychology often pursued in isolation from each other Since its original publication in 2003 the Handbook of Entrepreneurship Research has served as the definitive resource in the field bringing together contributions from leading scholars in these disciplines to present a holistic multi dimensional approach This new edition fully revised and updated and including several new chapters covers all of the primary topics in entrepreneurship including entrepreneurial behavior risk and opportunity recognition equity financing business culture and strategy innovation and the impact of entrepreneurship on economic growth and development Featuring an integrative introduction extensive literature reviews and reference lists the Handbook will continue to serve as a roadmap to the rapidly evolving and dynamic field of entrepreneurship
