to be unsatisfactory for several reasons including a cumbersome registration system a preoccupation with formalistic distinctions and the lack of clear and rationally determined priority rules Gerard McCormack examines the current state of English law highlighting its weaknesses He uses Article 9 of the American Uniform Commercial Code as a reference point this Article has successfully serviced the world s largest economy for over 40 years and is increasingly used as the basis for legislation by Commonwealth jurisdictions including Canada and New Zealand The Law Commission has suggested the enactment of similar legislation in England In addition McCormack considers if there really is a case for the priority of secured credit as well as if there are other international models to draw upon Contains the text of Article 9      **Retention of Title Clauses** Sally Wheeler,1989      ,      *The Quistclose Trust* William Swadling,2004-02-25 The so called Quistclose trust probably represents the single most important application of equitable principles in commercial life Lord Millett in the foreword to this book The decision of the House of Lords in *Twinsectra v Yardley* has refocused attention on the Quistclose trust Although accepted by insolvency lawyers as a convenient tool for corporate rescue the precise basis of the trust has always been in doubt The purpose of these essays is to explore the foundations of the trust and subject them to a searching analysis Contributors Robert Stevens Oxford Rolls Razor Ltd William Swadling Oxford Orthodoxy James Penner LSE Lord Millett s Analysis Lionel Smith McGill Understanding the Power Robert Chambers Alberta Restrictions on the Use of Money Peter Birks Oxford Retrieving Tied Money Ewan McKendrick Oxford Commerce Robert Stevens Oxford Insolvency George Gretton Edinburgh Scotland      **Sale of Goods** Ewan McKendrick,2020-10-25 Sale of goods transactions are central to commercial life This book provides an essential up to date and clear account of the law as it stands today giving you the confidence to offer the best possible resolution for your clients Written by a team of specialists drawn from both the academic world and professional practice Sale of Goods provides a clear and accurate account of the law relating to the sale of goods It provides complete analysis of the Sales of Goods Act 1979 together with amendments made to the Act in 1994 and 1995 ensuring that your understanding is current and complete      Security Interests in Mobile Equipment Iwan Davies,2017-11-30 This title was first published in 2002 This collection of essays marks the formal launch of the Centre for Instalment Credit Law at the University of Wales Swansea Divided into three sections it examines the concept of security within domestic law considers the choice of law rules and ponders development of uniform law      International Trade Law Indira Carr,Peter Stone,2017-11-22 International Trade Law offers a clear overview of the complexities of an international sale transaction through informed analysis of case law legislation and international conventions and rules Fully updated with changes to the law and new directions in legal debate this new edition considers Standard trade terms including INCOTERMS 2010 the Convention on International Sales of Goods 1980 and the UNIDROIT Principles for International Commercial Contracts E Commerce issues including electronic bills of lading Insurance and payment mechanisms such as letters of credit and the UCP 600 International transportation of cargo including the Rotterdam Rules Dispute resolution

### **Proprietary Interests in Commercial Transactions**

Sarah Worthington,1996 One of the most pressing problems now facing commercial lawyers is to explain the principles which determine when a remedy is proprietary and when it is not This book provides a broad overview of the subject It examines representative business transactions which commonly give rise to legal or equitable interests in personal property Its aim is to distil the fundamental principles understanding the relevant legal analyses The result is to provide a more theoretically rigorous analytical framework for proprietary interests in personal property The practical advantages of this are potentially twofold new commercial transactions can be more effectively structured in addition disputes between contracting parties can be more reliably resolved Two features of the analysis are significant The first is the elastic nature of proprietary interests in personal property Although proprietary interests can be broadly classified as ownership or security interests these are relative concepts which may be affected significantly by impinging contractual arrangements The second feature is the necessary and intimate integration of law and equity Equitable proprietary interests are remarkably prevalent this prevalence is directly related to the apparent ease with which equity is able to convert particular personal obligations into proprietary interests

The Organizational Contract Stefan Grundmann,Fabrizio Cafaggi,2016-02-17 This book introduces and develops the paradigm of the organisational contract in European contract law Suggesting that a more radical distinction should be made between contracts which regulate single or spot exchanges and contracts that organize complex economic activities without creating a new legal entity the book argues that this distinction goes beyond that between spot and relational contracts because it focuses on the organizational dimension of contracting and its governance features Divided into six parts the volume brings together a group of internationally renowned experts to examine the structure of long term contractual cooperation networks of contracts knowledge exchange in long term contractual cooperation remedies and specific governance rules in long term relationships and the move towards legislation The book will be of value to academics and researchers in the areas of private law economic theory and sociology of law and organizational theory It will also be a useful resource for practitioners working in international contract law and international business transaction law
