RESHAPING DEFENCE DIPLOMACY: NEW ROLES FOR MILITARY COOPERATION AND ASSISTANCE¹

Lucas Pereira Rezende²

Parte da série publicada pelo *International Institute for Strategic Studies* (IISS), a obra em questão é um *Adelphi Paper*³ assinado por Andrew Cottey, da *University College Cork*, e Anthony Forster, da *University of Bristol*. Ainda que pequeno em tamanho, é um livro essencial para a discussão das novas formas de cooperação militar em curso desde o colapso da União Soviética. Em especial, o livro direciona o conceito da diplomacia de defesa e sua mudança prática e conceitual após os anos 1990. Diferentemente do papel tradicional das forças armadas, a “Diplomacia de Defesa (...) envolve o uso cooperativo das forças armadas e suas estruturas relacionadas (primariamente ministérios de defesa) em tempos de paz como uma ferramenta de política externa e de segurança” (COTTEY & FORSTER, 2004, p. 5-6).

Segundo os autores, para além do contrabalanceamento, os novos usos da cooperação militar são feitos para: (1) o engajamento estratégico, usando a assistência militar com antigos ou potenciais inimigos; (2) espalhar a democracia; (3) desenvolver capacidades em operações de paz (PKO) e de imposição da paz. Esses três pontos são exatamente os três capítulos que o livro se divide.

O engajamento estratégico, tema do Capítulo 1, é um fenômeno típico da nova diplomacia de defesa por buscar a cooperação militar com oponentes antigos ou

The nexus between Public Diplomacy and Military Diplomacy in Foreign Affairs and Defense Policy Göran Swistek, 2013-07-18 Essay from the year 2012 in the subject Politics Topic Peace and Conflict Security grade 2 1 language English abstract Public Diplomacy by the idea was implemented approximately 100 years ago as a purely civilian part of diplomacy which aimed to inform foreign populations and citizens about the goals of countries foreign policy by the use of information and cultural programs In the meaning of the Clausewitz philosophy that the war is the continuation of politics by other means the military was always linked to the diplomacy but never part of it On the other hand Military Diplomacy for a long period was just the business for military attaches and their mission was to be the Nation s eye and ears abroad in the days before satellite photography and sophisticated electronic collection techniques Along with the changes in the international theatre regarding constellation of alliances goals of foreign policies and threat assumptions the content of Public Diplomacy has changed and its targeted programs expanded At the same time the understanding and definition of security changed its content since the collapse of the Iron Curtain and the breakdown of the Soviet Union Nowadays the term of a comprehensive approach marks the definition of security Security is now an interconnection between civilian and military means and approaches whilst the use military force remains a last resort Therefore programs and means from the areas of Military and Public Diplomacy received an increased attention and a more prominent status For this reason this essay will try to show the close relation of modern defense strategies policies and diplomacies The guiding research question for this essay therefore shall be Is there in modern Foreign Affairs and Defense Policy a relation between Military Diplomacy and Public Diplomacy and if so what characterizes this relation Along that line this essay will try to study the nexus between Public Diplomacy and Military Diplomacy with the assumption that International Relations and Defense Policy s are aiming on overlapping areas especially when it comes to diplomacy The hypothesis therefore can be encapsulates without naming it in official policy documents and without a focused strategy an area developed recently where Public Diplomacy and Military Diplomacy are going along together with a common

tool set Hereby the special case study of the German Armed Forces are should prove that they are already practicing Public Diplomacy within their military posture since decades **The SAGE Handbook of Diplomacy** Costas M.

This volume brings together different approaches to diplomacy both as an institution and a practice The authors examine diplomacy from their own backgrounds and through sociological traditions which shape the study of international relations IR in Francophone countries The volume s global character articulates the Francophone intellectual concerns with a variety of scholarships on diplomacy providing a first contact with this subfield of IR for students and practitioners Where is Nato Going? Martin Smith,2013-09-13 Since the end of the Cold War and especially since September 11 2001 the future of NATO has been the subject of intense debate This book brings together a group of international relations specialists in order to offer fresh perspectives on the Alliance s current and future purposes and roles Rather than revisiting long standing debates in areas such as NATO enlargement the contributors focus instead on relevant contemporary issues These include the prospects for NATO going global NATO s role in the US led war on terror and the challenges posed by the transatlantic capabilities gap and the emergence of a military dimension to the European Union The paradox facing NATO today is that whilst it is busier than it has ever been before it still does not appear to many observers to have found a viable core role or roles in the contemporary international security arena By exploring key issues and debates on NATO s current agenda this book helps us to better understand the prospects for its long term survival and viability This book was previously published as a special issue of the leading journal Contemporary Security Policy **Proceedings of the Southeast Asian**

International Security in the Asia-Pacific Alan Chong,2017-09-13 This volume argues that international security in the Asia Pacific lends itself to contradictory analyses of centrifugal and centripetal trends Transitional polycentrism is

intrinsically awkward as a description of the security of states and their populations it implies the loosening of state control and the emergence of newly asserted authority by mixed constellations of intergovernmental organizations and non state actors It implies a competition of agendas threats to the integrity of borders and human security threats such as natural disasters airliner crashes and displacement by man made pollution and food scarcity Conversely polycentrism could also imply a return to a more neo realist oriented international order where great powers ignore ASEAN and steer regional order according to their perceived interests and relative military superiority This book embraces these contradictory trends as a foundation of analysis and accepts that disorder can also be re described from the perspective of studied detachment as polycentric order

military dialogue regarding Central Asia and defence industrial cooperation and deepening their antiterrorist cooperation both bilaterally and through NATO Using more market incentives expanding reciprocity and equal treatment and limiting the adverse repercussions from disputes over Iran would facilitate progress Russia and the United States will not soon become close allies but they should be able to achieve better security ties given that on most issues their shared interests outweigh those that divide them
