[A Renaissance Architecture of Power](#), 2016-04-08 The growth of princely states in early Renaissance Italy brought a thorough renewal to the old seats of power One of the most conspicuous outcomes of this process was the building or rebuilding of new court palaces erected as prestigious residences in accord with the new classical principles of Renaissance architecture The novelties however went far beyond architectural forms they involved the reorganisation of courtly interiors and their functions new uses for the buildings and the relationship between the palaces and their surroundings The whole urban setting was affected by these processes and therefore the social residential and political customs of its inhabitants This is the focus of *A Renaissance Architecture of Power* which aims to analyse from a comparative perspective the evolution of Italian court palaces in the Renaissance in their entirety Contributors are Silvia Beltramo Flavia Cantatore Bianca de Divitiis Emanuela Ferretti Marco Folini Giulio Girondi Andrea Longhi Marco Rosario Nobile Aurora Scotti Elena Svalduz and Stefano Zaggia

[Housing in Italy through the Telescope and the Microphone International Perspectives and Experiences from Housing Project Stakeholders](#) OECD, Triennale de Milan, 2023-10-17 This book sheds light on access to housing in Italy from two different complementary vantage points It puts the Italian housing market in international perspective using OECD statistics

and analysis to compare housing policies and outcomes in Italy to other OECD countries **Annales de l'architecture en Flandre** ,2006 *Marginalized Groups, Inequalities and the Post-War Welfare State* Monika Baár,Paul van Trigt,2019-10-22

Examining the ways in which societies treat their most vulnerable members has long been regarded as revealing of the bedrock beliefs and values that guide the social order However academic research about the post war welfare state is often focused on mainstream arrangements or on one social group With its focus on different marginalized groups migrants and people with disabilities this volume offers novel perspectives on the national and international dimensions of the post war welfare state in Western Europe and North America **The Architecture and Planning of Classical Moscow** Albert J. Schmidt,1989 Dr Schmidt describes the building planning schemes in Moscow from approx the accession of Catherine the Great in the early 1760s to the mid reign of Nicholas I about 1840 The author maintains that despite the enormous destruction of historic Moscow caused by the reordering of Gorkii the old Tverskaia St the Kalinin Prospect the Arbat under Stalin Khrushchev there still exists a significant remnant of the classical city which rose from the ashes of the great fire in 1812 The architects of the classical city Catherine s builders Vasilii Bazhenov Matvei Kazakov those who rebuilt Moscow after 1812 Osip Bove Domenico Giliardi Afanasii Grigor ev are featured together with their individual architectural creations as well as their broader city planning accomplishments In many respects an atlas of the boulevards thoroughfares of central Moscow this book both recreates the Moscow of another era adds to the understanding of the contours character of the modern Soviet metropolis Illus *Social Aspects of Housing and Urban Development* Sven Thiberg,1969 **Caribbean Modernist Architecture** Gustavo Luis Moré,2010 In February and March 2008 the International Program and the Department of Architecture and Design at The Museum of Modern Art organised the Museum s first symposium on the modernist architecture of the Caribbean and bordering Latin American countries in collaboration with the Caribbean School of Architecture at the University of Technology Kingston Jamaica The goal was to encourage scholarly curatorial and broader educational awareness Topics covered included regional and international legacies preservation environmental sustainability and urban planning as they relate to modernist architectural history and contemporary practice The presenters were leading architects and architectural historians from the region and attendees included their colleagues as well as local and international university students policy makers civic leaders and developers from Jamaica the surrounding Caribbean islands and the United States This illustrated volume co published by MoMA and Archivos de Arquitectura Antillana AAA an architectural journal based in the Dominican Republic presents the papers from this critical symposium in both English and Spanish making them accessible to a broader public Romano Guardini Romano Guardini,2023-03-01 This book is not just a history To be sure it offers an historical account of the life of Romano Guardini 1885 1968 as recounted by Guardini himself However it is not simply about the past Precisely because it deals with the life of a faithful and thoughtful person the book is also about the present and projects itself into the future For as Guardini always insisted leading a thoughtful and faithful life

means being oriented toward the good life that is toward the vision of a just and loving community This orientation does not just happen by itself nor can it be imposed or dictated from above but has to be nurtured steadily by hearts open to the voice of the Spirit and the call of truth Seen in this way Romano Guardini occupies a crucial place in the world in his world in ours and in the world to come As he emphasizes beautifully at the end of his memoir *Narratives of My Life* Autobiographical Notes he never considered himself as an isolated individual nor as the spokesman of a dominant ideology or doctrine Rather his work was always energised by and in dialogue with a broader context a context which one of his mentors Max Scheler aptly called the life world
