*Caring for Caregivers to Be* Jonathan Ripp, Larissa R. Thomas, 2023 Medicine as a profession has been considered a challenging career choice throughout the ages And across time it has often been considered more than just a profession For many it is a calling a way of life and for those that do feel called to the work they may derive greater meaning from it This level of commitment to career is in effect a contract with society in the interest of caring for the patient Perhaps describing medicine as a calling is an appropriate characterization since the rewards of being a physician may be greater than the investment Traditionally the return on this commitment has included prestige and position in society financial remuneration and significant meaning derived from one's career Some have argued that while the societal position of the physician has declined and relative compensation has been stagnant amongst steady and significant rises in the cost of education the potential to experience meaning from the work has remained high Nonetheless there is significant current concern that the changing landscape of medicine has tipped the balance for the physician away from being able to experience the more meaningful aspects of work such as patient interaction towards an increasing burden of more meaning less demands e g clerical work documentation billing etc Furthermore there has developed an understanding that the well being of the health

professional workforce is a necessary component of an optimally functioning health care system      **1985-1986 Directory of Residency Training Programs** ,1985      **Objective Structured Clinical Examinations** Sondra Zabar,Elizabeth Kachur,Kathleen Hanley,Colleen Gillespie,Adina Kalet,2025-07-25 Objective Structured Clinical Examinations OSCEs or other Standardized Patient Participant SP exercises are an important methodology for teaching and assessment in health professions education across disciplines and the continuum of training The first edition of Objective Structured Clinical Examinations offered a systematic approach for educators to get involved in the process of creating OSCEs and similar SP exercises The second edition uses the same successful format to make the OSCE process easy and reproducible and adds novel material and innovative best practices for OSCEs in every context The first edition of this book was based on the editors 20 years of experience producing OSCEs without a clinical skills center in empty classrooms or walk in clinics on weekends working with well trained SPs and using carefully designed clinical scenarios In the 10 years since they have engaged in multidisciplinary and inter professional collaborations and expanded their approach to designing and implementing successful performance based assessment both inside and outside of high tech simulation centers The original chapters 1 Introduction 2 10 step approach 3 Remediation and 4 Unannounced Standardized Patients have been updated and charts tables and best practices throughout these chapters are elaborated and expanded on This second edition also features an updated Foreword by Ronald Harden and Preface by Mack Lipkin Adina Kalet and Sandy Zabar along with eight new chapters in collaboration with other educators and researchers covering topics such as analyzing OSCE notes for clinical reasoning OSCE data reporting and visualization scholarship and a research registry examples of performance based assessment in practice virtual OSCEs and telemedicine skills OSCEs for transitions OSCEs for teaching and SP programs This expanded edition will be useful to both novice and advanced educators and offers an important contribution to the health professions education literature      **Air Force Pamphlet** ,1955      **Neuropalliative Care** ,2023-01-03 Neuropalliative Care Part Two Volume 191 covers a type of care that is given when there is no cure for the neurological disorder and the patient is in distress It provides a scholarly background of neuropalliative care from historic underpinnings to its practice in various geographical regions along with best practices for specific neurological disorders It covers the work of multi or interdisciplinary teams whose care is intended to make the patient as comfortable as possible and includes partners and families in treatment plans Summarizes research in neuropalliative care Identifies current practices in different geographic regions Provides best practices for specific neurological disorders and patient populations Includes advanced care planning      **Headache Disorders in Pandemic Conditions** Aynur Özge,Derya Uludüz,Hayrunnisa Bolay,Ömer Karadaş,2023-04-13 This book provides a physician s pathfinder for COVID specific headache disorders as well as general headache practice in a pandemic era Practical solutions to headache management at every level are highlighted along with the changing nature of previous headache disorders under lockdown conditions **Headache Disorders in Pandemic Conditions**
