**Resilience Begins with Beliefs: Building on Student Strengths for Success in School** Sara Truebridge, 2013-12-06 As adults working in schools, educators' beliefs translate into messages, actions and behaviors that can enhance or impede student success. This book affirms why beliefs are so important and why it is imperative to spend time focusing on reflecting upon and affecting educators' beliefs, especially about students' resilience. The author draws from her extensive experience in research, policy and practice to present a wealth of information, strategies and tools to help educators transfer current resilience theory and research into practice. Unfortunately, being an educator is not always publically supported, financially rewarded or highly valued. Responding to these circumstances, *Resilience Begins with Beliefs* is an effective resource to support the resilience of the teachers and administrators working in our schools as
