for interventions and social policies based on accumulated research knowledge

Resilience in Action Michael Ungar, Linda Liebenberg, 2008-01-01 Mental health specialists and researchers contend that the development of resilience in youth is facilitated at several levels Relational cultural individual and governmental factors all have a strong influence over the mental well being of young people Resilience in Action looks at youth interventions with a view to fostering resilience in those living in adverse situations and conditions In order to provide a practical approach to the issue the essays in this volume explore the components of successful interventions encouraging the transmission of effective practices from one community to another across borders It is organized into four sections each dealing with a different aspect of work with at risk youth The first section focuses on individual health and the ways in which intervention and therapy strengthen personal resources The second section explores the dynamics of interventions in relation to specific contexts and localized relationships emphasizing holistic approaches to youth work A review of the cultural relevance of resilience follows in section three and the fourth considers ways of increasing the accessibility to resources that encourage healthy development Featuring contributors from a variety of academic and cultural backgrounds Resilience in Action offers diverse answers to many of the persistent questions mental health professionals ask regarding how to enhance resilience

Linking Health and Education for African American Students' Success Nadine M. Finigan-Carr, 2017-03-16 The linkages between a student's health and a student's ability to learn have been well established Children who are sick stay home and children at home cannot learn if they are not in school leading to increased dropout rates among other educational outcomes However an understanding of this concept is just the beginning of understanding how education and public health are inextricably linked In light of this Linking Health and Education for African American Students Success examines health disparities and education inequities simultaneously and moves beyond a basic understanding of health and education in K 12 school programs The structural inequalities which lead to reduced academic attainment mirror the social determinants of health Education is one of the most powerful determinants of health and disparities in educational achievement as a result of structural inequalities closely track disparities in health These disparities lead to both sub standard healthcare and reduced academic attainment among children from underserved minorities in the United States especially African Americans This book discusses how this may result in children with poorer mental health outcomes higher school dropout rates increased risks of arrests and incarceration higher rates of chronic diseases and mortality and overall diminished opportunities for success while providing suggestions as to how to address these issues This results in an insightful read for researchers academics and practitioners in the fields of healthcare and education
