on process inspired approaches from disciplines such as anthropology geography and science and technology studies it develops a framework for understanding practices not as things that change but as ongoing processes that organise everyday life Each chapter engages with a specific debate in practice theory including how to conceptualise the site of the social the status of the practitioner how practices connect and extend across space and time the role of memory in practice the place of power and appropriate methods for capturing the dynamics of social practice In doing so the book introduces a conceptual vocabulary for describing connection extension and emergence in a way that attends to the affective space of the social Practice Theory and Process Philosophy is essential reading for scholars and students across the social sciences and humanities who are interested in practice theory process philosophy and social theory [The History of Genocide in Cinema](#) Jonathan Friedman, William Hewitt, 2016-10-27 The organization Genocide Watch estimates that 100 million civilians around the globe have lost their lives as a result of genocide in only the past sixty years Over the same period the visual arts in the form of documentary footage has aided international efforts to document genocide and prosecute those responsible but this book argues that fictional representation occupies an equally important and problematic place in the process of shaping minds on the subject Edited by two of the leading experts in the field The History of Genocide in Cinema analyzes fictional and semi fictional portrayals of genocide focusing on amongst others the repression of indigenous populations in Australia the genocide of Native Americans in the 19th century the Herero genocide Armenia the Holodomor Stalin's policy of starvation in Ukraine the Nazi Holocaust Nanking and Darfur Comprehensive and unique in its focus on fiction films as opposed to documentaries The History of Genocide in Cinema is an essential resource for students and researchers in the fields of cultural history holocaust studies and the history of film *Whitman Possessed* Mark Maslan, 2003-04-01 Whitman has long been more than a celebrated American author He has become a kind of hero whose poetry vindicates beliefs not only about poetry but also about sexuality and power In *Whitman Possessed Poetry Sexuality and Popular Authority* Mark Maslan presents a challenging theory of Whitman's poetics of possession and his understandings of individual and national identity By reading his works in relation to nineteenth century theories of sexual desire poetic inspiration and political representation Maslan argues that the disintegration of individuality in Whitman's texts is not meant to undermine cultural hierarchies but to make poetic and political authority newly viable In particular Maslan explores the social impact of nineteenth century sexual hygiene literature on Whitman's works He argues that Whitman developed his ideas about poetry sexuality and authority by responding to a prominent argument that desire subjected male bodies to a penetrating and feminizing force By identifying poetic inspiration with this erotic dynamic Whitman imbued his poetic voice with a kind of transformative power Whitman aligned his poetry with an impartial authority hard to find elsewhere and inclined his work as a poet to speak for the voiceless for the masses and for an entire nation **The Semiotics of Che Guevara** Maria-Carolina Cambre, 2014-11-20 Alberto Korda's famous photograph of Che Guevara titled the Guerrillero Heroico has been reproduced

modified and remixed countless times since it was taken on March 5 1960 in Havana Cuba This book looks again at this well known mass produced image to explore how an image can take on cultural force in diverse parts of the globe and legitimate varying positions and mass action in unexpected global political contexts Analytically the book develops a comparative analysis of how images become attached to a range of meanings that are absolutely inseparable from their contexts of use Addressing the need for a fluid and responsive approach to the study of visual meaning making this book relies on multiple methodologies such as semiotics research creation multimodal discourse analysis ethnography and phenomenology and shows how each method has something to offer toward the understanding of the social and cultural work of images in our globally oriented cultures

Is Language a Music? David Lidov, 2005 If music is a universal language is language a universal music

**The Character of Criticism** Geoffrey Galt Harpham, 2013-10-28 Why are some critical texts more compelling memorable or engaging than others Can criticism be judged as a discourse of description explanation and analysis alone or do our evaluations reflect other kinds of investments in it In this book Geoffrey Galt Harpham argues that the most powerful and effective criticism demands to be read as an expression of a distinctive sensibility a way of being in the world it demands in other words to be read as a discourse of character Through a series of detailed and intimate intellectual portraits of leading critics Elaine Scarry Martha Nussbaum Slavoj Žižek and Edward Said Harpham unfolds the complex and indirect ways in which human character is expressed in criticism A final chapter on Criticism in a State of Terror assesses the contemporary situation The Character of Criticism represents not just a snapshot of contemporary criticism but a fresh approach to criticism itself that clarifies the stakes involved for writers and readers of criticism alike It does so not by making difficult thinking easy but by making it stranger more idiosyncratic exotic and singular

**Politics in Popular Movies** John S. Nelson, 2015-10-23 Popular movies can be surprisingly smart about politics from the portentous politics of state or war to the grassroots everyday politics of family romance business church and school Politics in Popular Movies analyses the politics in many well known films across four popular genres horror war thriller and science fiction The book's aims are to appreciate specific movies and their shared forms to understand their political engagements and to provoke some insightful conversations The means are loosely related film takes that venture ambitious playful and engaging arguments on political styles encouraged by recent films Politics in Popular Movies shows how conspiracy films expose oppressive systems it explores how various thrillers prefigured American experiences of 9/11 and shaped aspects of the War on Terror how some horror films embrace new media while others use ultra violence to spur political action it argues that a popular genre is emerging to examine non linear politics of globalisation terrorism and more Finally it analyses the ways in which sci fi movies reflect populist politics from the Occupy and Tea Party movements rethink the political foundations of current societies and even remake our cultural images of the future

*Destabilizing Milton* P. Herman, 2016-04-30 Destabilizing Milton challenges the widely accepted view of Milton as a poet of absolute unquestioning certainty In Paradise Lost Milton confronts

the failure of the Revolution by creating a poem that refuses to grant the reader any interpretive stability or certainty Doubts can no longer be contained and concepts once marked by a fundamental immobility now seem unstable at best Paradise Regained and Samson Agonistes equally reflect Milton's deep ambivalences after the collapse of the Republic Far from confirming his earlier ideals in his later poetry Milton subjects his culture's most cherished beliefs such as the goodness of God to withering scrutiny while refusing the comfort of orthodox answers **Twilight Histories** Camilla

Cassidy, 2022-10-24 Twilight Histories explores the relationship between nostalgia and the Victorian historical novel arguing that both responded to the turbulence brought by accelerating modernisation Nostalgia began as a pathological homesickness its first victims seventeenth century soldiers serving abroad Only gradually did it become the sentimental memory we understand it as today In a striking parallel to nostalgia's origin the historical novel emerged in the tumultuous early years of the nineteenth century at a time when the Napoleonic Wars once again set troops on the move creating a new wave of homesick soldiers In the historical novels of Gaskell Thackeray Dickens Eliot and Hardy nostalgia offered a language in which to describe the experience of living through changing times as a homesickness for history Twilight Histories has been included in Oxford Bibliographies Historical Novel category where it has been reviewed as a n illuminating study of mid Victorian novels of the recent past the period of the French Revolution and Napoleonic Wars Double Agents Claire A

Lees, Gillian R. Overing, 2009-02-01 First published in 2001 Double Agents was the first book length study of women in Anglo Saxon written culture that took on the insights provided by contemporary critical and feminist theory and it quickly established itself as a standard Now available again it complicates the exclusion of women from the historical record of Anglo Saxon England by tackling the deeper questions behind how the feminine is modeled used and made metaphoric in Anglo Saxon texts even when the women themselves are absent Novel Relations Alicia Mireles Christoff, 2022-05-17 The first

comprehensive look at how Victorian fiction and British psychoanalysis shaped each other Novel Relations engages twentieth century post Freudian British psychoanalysis in an unprecedented way as literary theory Placing the writing of figures like D W Winnicott W R Bion Michael and Enid Balint Joan Riviere Paula Heimann and Betty Joseph in conversation with canonical Victorian fiction Alicia Christoff reveals just how much object relations can teach us about how and why we read These thinkers illustrate the ever shifting impact our relations with others have on the psyche and help us see how literary figures characters narrators authors and other readers shape and structure us too For Christoff novels are charged relational fields Closely reading novels by George Eliot and Thomas Hardy Christoff shows that traditional understandings of Victorian fiction change when we fully recognize the object relations of reading It is not by chance that British psychoanalysis illuminates underappreciated aspects of Victorian fiction so vibrantly Victorian novels shaped modern psychoanalytic theories of psyche and relationality including the eclipsing of empire and race in the construction of subject Relational reading opens up both Victorian fiction and psychoanalysis to wider political and postcolonial dimensions while prompting a closer engagement with

work in such areas as critical race theory and gender and sexuality studies The first book to examine at length the connections between British psychoanalysis and Victorian fiction *Novel Relations* describes the impact of literary form on readers and on twentieth and twenty first century theories of the subject Duppy Conqueror Robert Beckford,2022-03-15 This book contours Robert Beckford's recontextualization of African American Black and Womanist theologies of liberation Making the black British experience a point of departure Beckford's theological method appropriates two distinct approaches to pursue a contextual theology or a Black theology dub first a correlation of linguistic concepts from Black cultural history and urban life Rahtid Dread and Dub with the theological categories of God Jesus and the Spirit second a media theopraxis or inscribing of Black theology onto commercial television documentary filmmaking and studio produced contemporary gospel music In the *My Theology* series the world's leading Christian thinkers explain some of the principal tenets of their theological beliefs in concise pocket sized books *Gender and Sexuality* Cath Sharrock,2019-08-07 No detailed description available for *Gender and Sexuality* *The Uncaring, Intricate World* Pamela Reynolds,2019-08-16 In the 1950s the colonial British government in Northern and Southern Rhodesia present day Zambia and Zimbabwe began construction on a large hydroelectric dam that created Lake Kariba and dislocated nearly 60 000 indigenous residents Three decades later Pamela Reynolds began fieldwork with the Tonga people to study the lasting effects of the dispossession of their land on their lives In *The Uncaring Intricate World* Reynolds shares her field diary in which she records her efforts to study children and their labor and by doing so exposes the character of everyday life More than a memoir her diary captures the range of pleasures difficulties frustrations contradictions and grappling with ethical questions that all anthropologists experience in the field *The Uncaring Intricate World* concludes with afterwords by Jane I Guyer and Julie Livingston who critically reflect on its context its meaning for today and relevance to conducting anthropological work *Teaching Multicultural Students* Alex Moore,2003-10-04 Offers suggestions for making classroom and teaching practice more effective for bilingual and bidialectical pupils Case studies are used which give voice to student and practising teacher perspectives which are often unheard This book will help teachers develop practice that combats actual exclusion and the symbolic exclusion that some multicultural students experience **German Idealism Today** Markus Gabriel,Anders Moe Rasmussen,2017-09-25 This collection of essays provides an exemplary overview of the diversity and relevance of current scholarship on German Idealism The importance of German Idealism for contemporary philosophy has received growing attention and acknowledgment throughout competing fields of contemporary philosophy Part of the growing interest rests on the claim that the works of Kant Fichte Schelling Hegel remain of considerable interest for cultural studies sociology theology aesthetics and other areas of interest In the domain of philosophy the renaissance of innovative readings of German Idealism has taken scholarly debates beyond merely antiquarian perspectives This renaissance has been a major factor of current efforts to bridge the gap between so called analytic and so called continental philosophy The volume provides a selection of well chosen examples of
