Resolving Childhood Trauma Catherine Cameron,2000-02-17 Based on a 12 year study with 60 survivors of child sexual abuse Catherine Cameron sets out to understand their early trauma and its impact over subsequent years and to monitor their progress toward recovery The difficult but rewarding process of their recovery unfolded over time along with increasing societal awareness of the problem In 1998 a final survey provided the epilogue for their story Cameron grounds their personal stories by citing parallels to the larger field of national and international trauma The result is a compelling and deeply human story of trauma and triumph

Childhood Sexual Experiences Sally Hunter,Paul Woodmansey,2018-04-19 The issue of Childhood Sexual Experiences CSEs is highly controversial and has generated considerable disagreement and conflict Such experiences are often framed as child sexual abuse CSA within a discourse of child maltreatment Sexual activity between adults and young children is indeed abuse and fully merits the moral stance taken by therapists health professionals and society However Childhood Sexual Experiences presents evidence that viewing all CSEs through the same prism of abuse victimhood and commonly held perceptions of gender socialisation may not always allow those affected to tell the whole story Not all those who experienced sexual activity as children view themselves as victims believe that their experiences had a profoundly or irrevocably negative impact on their lives or view their experiences as abusive Others do not want their identities to be linked to specific events in childhood Applying a positive psychology approach Childhood Sexual Experiences recounts and explores the stories of those who have shown an ability to come to terms with or overcome the difficulties that they have faced exploring the insights these narratives of resilience present to therapists and health and social care professionals I would encourage you to read this book with an open mind and to look for the strength and determination to be found in these narratives remembering that those who are resilient may teach us how better to help those who are less fortunate Sally V

talking about God's grace by unearthing liberating resources buried in the Christian tradition. Christian ideas about salvation have historically contributed to sexual violence in our communities by reinforcing the idea that suffering is salvific. But a God worth worshiping does not want human beings to suffer. Drawing on the sixteenth century Spanish mystic Teresa of Avila as well as contemporary political and feminist theologians, philosophers and legal scholars, author and Associate Professor of theology Julia Feder offers an account of Christian salvation as mystical political. Feder begins by describing the breadth of traumatic wounding and the shape of traumatic recovery as articulated by psychologists. Since the fullness of post-traumatic healing requires reserves deeper than those which can be articulated by the secular field of psychology alone, the book then introduces the Spanish Carmelite Saint Teresa of Avila and her theological insights which are most helpful for constructing a post-traumatic theology of healing. Arguing that God stands against violence and suffering, the book also examines the notion of senseless suffering, a technical term that comes from Edward Schillebeeckx, a Catholic twentieth century Flemish priest and theologian. The suffering of sexual violence serves no higher purpose or greater human value and pushes against all ways of making sense of the world as good and orderly. In the following chapters, Feder turns to two Christian virtues that animate post-traumatic recovery: courage and hope, and explores how Christian hope can provide a language to empower courageous activity undertaken toward healing. Incarnating Grace opens a new dialogue about salvation and violence that does not allow evil to have the last word.

The Truth About Depression Charles Whitfield, 2003-03-31. Almost 40 percent of the U.S. population suffers from some form of depression or mental illness, yet the causes of mental illness remain largely a mystery. The prevailing theory sees the cause as a trans-generational genetic defect of brain chemistry which is best treated with medication. New breakthroughs made by health professionals dislodge this theory and show that frequently previous traumas are what lead to mental illness. In this bold new book, renowned physician and psychotherapist Charles Whitfield takes a new look at the common problems of depression, anxiety, addictions, eating disorders, schizophrenia, and other mental illness. *The Truth About Depression* shows the strong and at times causal relationship between childhood trauma and future depression and other mental illness; he explores the risks, side effects, and high cost of treating these disorders with anti-depressant drugs and provides an alternative treatment and recovery program for people with depression and a history of childhood trauma. Dr. Whitfield's book offers hope and help for those who have been held hostage by depression and provides clinicians with new solutions and alternatives to high-risk medications.

God and the Victim Jennifer Erin Beste, 2007-09-28. Christian tradition holds that an individual's ability to respond to God's grace to love both God and neighbor is not wholly vulnerable to earthly contingencies such as victimization. Today, however, trauma theory insists that situations of overwhelming violence can permanently damage a person's capacity for responsive agency. For Christians, this theory raises the very troubling possibility that humans can inflict ultimate harm on each other such that some individuals' eternal destiny can be determined not by themselves but by those who do great harm. Jennifer Beste addresses the challenges that contemporary trauma theory and

feminist theory pose to deeply held theological convictions about human freedom and divine grace Do our longstanding widespread beliefs regarding ones access to Gods grace remain credible in light of recent social scientific research on the effects of interpersonal injury With an eye toward the concrete experiences of trauma survivors Beste carefully considers the possibility that one can be victimized in such a way that his or her receptiveness to Gods grace is severely diminished or even destroyed Drawing on insights present in feminist and trauma theory Beste articulates a revised Rahnerian theology of freedom and grace responsive to trauma survivors in need of healing Her thinking is characterized by two interconnected claims that human freedom to respond to Gods grace can in fact be destroyed by severe interpersonal harm and that Gods love can be mediated at least in part through loving interpersonal relations Offering crucial insights that lead to a more adequate understanding of the relation between Gods grace and human freedom Bestes important theory reconfigures our visions of God and humanity and alters our perceptions of what it means to truly love ones neighbor
