Relevance and Irrelevance Jan Strassheim, Hisashi Nasu, 2018-09-24 *Relevance* drives our actions and channels our attention it shapes how we make sense of the world and communicate with each other *Irrelevance* spreads a twilight which blurs the line between information we do not want to access and information we cannot access In disciplines as diverse as philosophy sociology the information sciences and linguistics relevance has been proposed as a key concept This book is the first to bring together the

often unrelated traditions Researchers from different fields discuss relevance and relate it to the challenges of irrelevance which have so far been neglected despite their significance for our chances of making well informed decisions and understanding others The contributions focus on theoretical and conceptual questions on specific factors and fields and on practical and political implications of relevance and irrelevance as forces which are even stronger when they remain in the background **Innovations in Electrical and Electronics Engineering** Akhtar Kalam,Saad Mekhilef,Sheldon S.

Williamson,2025-01-30 This book features selected high quality papers presented at the 2024 International Conference on Electrical and Electronics Engineering ICEEE 2024 Jointly organized by ADSRS Education and Research and Swinburne University of Technology Melbourne Australia during September 11 12 2024 at Advanced Technologies Centre Swinburne University of Technology 427 451 Burwood Rd Hawthorn VIC 3122 The book covers electrical engineering topics power and energy including renewable energy power electronics and applications control and automation and instrumentation and book two covers the areas of robotics artificial intelligence and IoT electronics devices circuits and systems wireless and optical communication RF and microwaves VLSI signal processing and others The book brings both single and multidisciplinary research on these topics to provide the most up to date information in one place The book offers an asset for researchers from both academia and industries involved in advanced studies **Complex Problem Solving** Dorien J. DeTombe,1999

Bowker's Law Books and Serials in Print ,1995 **Problem-Solving Technologies** Sadjad Soltanzadeh,2022-01-31 From hammers to robots this book embarks on a comprehensive metaphysical exploration of how we should understand and study technological objects and systems It reconstructs the metaphysics of technology and offers a unique perspective on the identification and functional classification of objects Arguing that universal and static approaches are ill suited to capture relational properties like usefulness the book introduces a novel approach called activity realism which recognises the dynamic identities that objects acquire by playing roles in different activities How can the role and impact of technologies on human activities be incorporated into the metaphysical study of technologies How do technologies affect the reality of scientifically postulated entities How can we functionally distinguish between different types of technologies Problem Solving Technologies A User Friendly Philosophy engages with such fundamental questions In this thought provoking book the study of objects and their categorisations is paired with an examination of the activities in which they play a role The result is a practically useful philosophy that helps to navigate the conceptual complexities of modern technology **Information**

Systems Action Research Ned Kock,2007-02-05 Information Systems Action Research is organized into three parts 1 The first part focuses on the methodological issues that arise when action research methods are conducted 2 The second part provides examples of action research in practice 3 The third part will summarize the philosophical foundations of action research and its application as a methodology in Information Systems research and research programs The book will include chapters from Europe Australasia and the Americas representing different traditions and perspectives in action research These chapters

will come from prominent scholars in the areas who are widely recognized as authors of seminal ideas in action research
