**Resolving Traumatic Memories** David J. Grove, B. I. Panzer, 1991      Resolving Traumatic Memories David J. Grove, B. I. Panzer, 1989      Metaphors, Trauma and Symptoms Amy Qiu, 2024-07-22 This book investigates how victims of a large scale traumatic event converge and diverge in metaphor use in describing their traumatic experiences By combining qualitative and quantitative methods the book identifies patterns that are shared by this group of trauma victims By juxtaposing linguistic data with psychometric data it also explores how metaphor use can vary with the speakers psychopathological symptoms While metaphorical language has been a rare focus in clinical contexts this book establishes metaphor use as a previously overlooked yet rewarding avenue for studying mental health communication      Clean Coaching Angela Dunbar, 2016-10-14 Most coaches today see their role as mainly non directive helping to uncover their coachee s own wisdom However coaches may unwittingly and unconsciously constrain what their coachees talk and think about getting in the way of unique self generated solutions Clean Coaching provides a different simple yet highly effective approach to one to one facilitation It is a style strategy and set of techniques that help coachees gain insight and make changes through discovering more about their own insider perspective of themselves and the world around them Through the use of specifically phrased structured coaching questions the coach s own biased perspectives are stripped from their language ensuring the coachee s unique personal experience is honoured In Clean Coaching Angela Dunbar explains how this approach works in practical terms with descriptions of how to structure a Clean Coaching session and the steps to take within such a session The book gives detailed descriptions of the kinds of questions to ask and provides a wealth of analogues examples and case studies to bring the descriptions alive offering a clear blueprint for action In addition the book explains where Clean Coaching has come from describing the development of Clean Language and other Clean approaches by the psychologist and psychotherapist David Grove It also tracks how Clean approaches have been adopted and adapted by other practitioners Dunbar draws on current research in the fields of developmental neurological cognitive and social psychology to demonstrate why Clean Coaching works so successfully Exploring Clean Coaching in detail and informed by both research and practice this book will be a valuable resource for coaches at all levels including executive coaches and those in training as well as managers and executives acting in a coaching capacity      **Mourning the Person One Could Have Become** Witold Simon, 2011-12-16 This book introduces the concept of the Person One Could Have Become and shows the importance of mourning for individuals with traumatic experiences The Person One Could Have Become is conceptualized as personality and physical characteristics that could have emerged if an individual at the right time had received or opted for an appropriate quantity and quality of stimuli and experiences which in turn would have enabled the person to make more mature and independent choices Consequences of potentially traumatic events bear non linear meta folding and multicontextual meaning unique to each being in the world Many people with a history of trauma tend to mystify their

existence in order to survive This book contains an overview of the ramifications of abuse and neglect on personality as well as the consequences of pregnancy loss and the specific loss of possibility and its co occurrence with abuse and neglect It looks at examples from daily life and two cases of traumatized individuals who differ in their background and experience of trauma as well as in their struggles during psychotherapy This book is not intended as a treatment manual nor does it advocate for any particular therapeutic approach It is rather an encouragement of a way of living Indeed a reasonable mourning of the Person One Could Have Become may set the individual free also such with the history of trauma for the road beyond the traditional psychotherapy outcome the road toward authenticity
