The standard text and reference on neurological and neurosurgical intensive care is now in its Fourth Edition thoroughly revised to incorporate the latest therapeutic advances and insights from the most recent clinical trials. A team of distinguished neuro intensivists offers practical state of the art guidelines for managing the wide range of problems arising in postoperative neurosurgical care and care of patients with acute neurological diseases. This edition focuses sharply on the details of therapeutics. The authors from leading neuro intensive care units have written the book collectively giving it more cohesiveness and more of an authoritative consensus voice than previous multiauthored editions.

Endorsed by the Australian College of Critical Care Nurses. ACCCN is the peak professional organisation representing critical care nurses in Australia. Written by leading critical care nursing clinicians Leanne Aitken, Andrea Marshall and Wendy Chaboyer, the 4th edition of Critical Care Nursing continues to encourage and challenge critical care nurses and students to develop world class practice and ensure the delivery of the highest quality care. The text addresses all aspects of critical care nursing and is divided into three sections: scope of practice, core components and specialty practice, providing the most recent research data, procedures and guidelines from expert local and international critical care nursing academics and clinicians. Alongside its strong focus on critical care nursing practice within Australia and New Zealand, the 4th edition brings a stronger emphasis on international practice and expertise to ensure students and clinicians have access to the most contemporary practice insights from around the world. Increased emphasis on practice tips to help nurses care for patients within critical care. Updated case studies, research vignettes and learning activities to support further learning. Highlights the role of the critical care nurse within a multidisciplinary environment and how they work together. Increased global considerations relevant to international context of critical care nursing alongside its key focus within the ANZ context. Aligned to update NMBA RN Standards for Practice and NSQHS Standards.
