Responses to One Hundred and One Questions on God and Evolution John F. Haught, 2001 A succinct overview of questions that still divide scientific materialists and religious believers *Worldviews* Richard DeWitt, 2018-04-16 Winner of the 2018 Choice Award for Outstanding Academic Title PRAISE FOR PREVIOUS EDITIONS This is a brilliantly clear introduction and indeed reframing of the history and philosophy of science in terms of worldviews and their elements In addition the book is incredibly well informed from both a scientific and philosophical angle Highly recommended Scientific and Medical Network Unlike many other introductions to philosophy of science DeWitt's book is at once historically informative and philosophically thorough and rigorous Chapter notes suggested readings and references enhance its value Choice Written in clear and comprehensible prose and supplemented by effective diagrams and examples *Worldviews* is an ideal text for anyone new to the history and philosophy of science As the reader will come to find out DeWitt is a gifted writer with the unique ability to break down complex and technical concepts into digestible parts making *Worldviews* a welcoming and not overwhelming book for the introductory reader *History and Philosophy of the Life Sciences* vol 28 2 Now in its third edition *Worldviews* An Introduction to the History and Philosophy of Science strengthens its reputation as the most accessible and teachable introduction to the history and philosophy of science on the market Geared toward engaging undergraduates and those approaching the history and philosophy of science for the first time this intellectually provocative volume takes advantage of its author's extensive teaching experience parsing complex ideas using straightforward and sensible examples drawn from the physical sciences Building on the foundations which earned the book its critical acclaim author Richard DeWitt considers fundamental issues in the philosophy of science through the historical worldviews that influenced them charting the evolution of Western science through the rise and fall of dominant systems of thought Chapters have been updated to include discussion of recent findings in quantum theory general relativity and evolutionary theory and two new chapters exclusive to the third edition enrich its engagement with radical developments in contemporary science At a time in modern history when the nature of truth fact and reality seem increasingly controversial the third edition of *Worldviews* presents complex concepts with clarity and verve and prepares inquisitive minds to engage critically with some of the most exciting questions in the philosophy of science **Heart to Heart--The Journey Outward** Robert P. Vande Kappelle, 2023-01-20 Whether religiously theists atheists agnostics or simply seekers each of us is on a journey of faith spiraling through stages seasons or phases of spirituality On this journey we discover that spirituality is more caught than taught and that faith enriched more by subtraction than by addition is more about unlearning than learning At the center of Jesus life and message stands the exhortation to receive and share divine love The two volumes of *Heart to Heart* excerpted from Dr Vande Kappelle's published writings examine the meaning and implications of the biblical Great Commandment to love God and others as oneself Whereas the first volume examines the spiritual journey inward this companion volume

examines the journey outward Ultimately there is only one spiritual journey the journey Godward and there is only one commandment Divine love is the key to everything Unloved people misbehave fail to love or fail to change Loved people aren't concerned with rules regulations or beliefs Rather because they are loved they take proper care of themselves and in so doing care for nature and others as extensions of themselves Heart to Heart is written for those who affirm the value of lifelong spiritual growth realize the limits of logic and embrace the paradoxes in life If you are willing to commit less than ten minutes a day over a seven month period you will undertake a spiritual journey of epic proportions guaranteed to transform you morally and spiritually In addition you will come to embrace Christianity as the transformative movement envisioned by Jesus for humanity a way of life grounded in compassion justice service humility and love of others **A Jealous God**

Pamela R. Winnick, 2005-10-30 A look at the personal and professional motivations behind the scientific community's dogmatic rejection of religion and how this impacts the culture The age old war between religion and science has taken a new twist Once the dedicated scientist martyr fought heroically against rigid religionists But now the tables have turned and it is established science crusading against religion pushing atheistic agendas in the classroom in textbooks and in the media This book shows how science has now become a religion of its own an often fanatical one at that furiously preaching atheism punishing dissenters dictating how and what we should think and subtly inserting its worldviews in everything from education to entertainment And with stunning clarity it proves that with billions of dollars up for grabs in the race for stem cell research intellectual integrity has been replaced with good old fashioned greed With sharp insight and completely original reporting this book defiantly shows the extent to which science is beating down religion and how this systematic tyranny is unmistakably weakening culture and society **Radical Discipleship**

Robert P. Vande Kappelle, 2022-08-11 Discipleship is a universal experience all human beings share In our lifetime each of us has had a mentor tutor teacher or role model someone we admired respected and followed As the central character in the Bible the world's best selling book Jesus is known and revered the world over What would it be like to be mentored by such an individual Of course we can follow the accounts of the historical Jesus and his disciples in the gospels but what would it mean to be discipled by a contemporary twenty first century Jesus While people across the world claim to follow Jesus what would it mean to live in the modern world guided by a modern Jesus on religious issues such as faith God and scripture and on social issues such as poverty healthcare social justice political reform and caring for the environment A good place to begin is with compassion for Christianity and compassion are largely linked To be apprenticed to Jesus is to follow one whose profound love for the hungry sick and dying inspired more compassion than any single person movement or force in history Addressing discipleship as a priority in our lives Radical Discipleship illustrates its subject with stories and accounts of ordinary Christians living out their discipleship in authentic and inspiring ways Useful for individual or group study this volume serves as a resource for people seeking tools necessary to fulfill Jesus' vision for a more vibrant and equitable world one in which every human being can

thrive The Voice of Public Theology Ted Peters,2022-11-07 Public theologians are already thundering like prophets at climate change and racial injustice But the gale force winds of natural science blow through society as well The public theologian should be on storm watch Iron Sharpens Iron Robert P. Vande Kappelle,2013-07-26 Iron Sharpens Iron is grounded in the conviction that humans have the capacity to transcend conventional spirituality to a genuine and wholesome faith that is dynamic rather than static future oriented rather than past oriented and owned rather than passively acquired Classroom tested this discussion guide is an ideal way for thoughtful Christians in individual and group settings to interact with timely topics Like its companion text Beyond Belief Science Faith and the Value of Unknowing 2012 this guide is written for those who affirm the value of lifelong spiritual growth Topics covered include the authority of scripture the uniqueness of Christ faith and reason religion and science biological evolution and morality cosmological evolution and the nature of God and the doctrines of salvation resurrection and the afterlife This guide encourages a high degree of interaction The discussion questions are engaging and appeal to various levels of intellectual and spiritual awareness Sessions follow a fourfold pattern a Getting Started provides an overview of each session b Gaining Momentum provides questions for discussion or further reflection c Going Deeper encourages participants to acquire further perspective and d The Essentials summarizes key points from each chapter of Beyond Belief **On the Origin of Consciousness** Scott D. G.

Ventureyra,2018-11-29 Have you ever thought about how self consciousness self awareness originated in the universe Understanding consciousness is one of the toughest nuts to crack In recent years scientists and philosophers have attempted to provide an answer to this mystery The reason for this is simply because it cannot be confined to solely a materialistic interpretation of the world Some scientific materialists have suggested that consciousness is merely an illusion in order to insulate their worldviews Yet consciousness is the most fundamental thing we know even more so than the external world since we require it to perceive or think about anything Without it reasoning would be impossible Dr Scott Ventureyra in this ground breaking book explores the idea of the Christian God and Creation in order to tackle this most difficult question He demonstrates that theology has something significant to offer in reflection of how consciousness originated in the universe He also makes a modest claim that the Christian conception of God and Creation provide a plausible account for the origin of self consciousness He integrates philosophy theology and science in an innovative way to embark on this exploration

Adventures in Spirituality Robert P. Vande Kappelle,2020-02-17 Contrary to popular culture the goal of life is not happiness but meaning Those who seek happiness by trying to avoid or finesse conflict suffering doubt and change will find life increasingly superficial Feeling good is a flawed measure of life but living meaningfully is transformative for then one is living a developmental rather than a regressive agenda The ego does whatever it can to make itself comfortable whereas spirituality is about wholeness Adventures in Spirituality represents the culmination of Dr Vande Kappelle s forty year teaching career incorporating in one volume his views on topics as varied as theology Christology biblical interpretation

spirituality ethics world religions religion and science faith and reason and church history Reared in Costa Rica the son of missionary parents Dr Vande Kappelle describes his journey from belief to faith as a transition from precritical to postcritical understanding from evangelical Christianity to what he calls alternative orthodoxy Narrating the shift from first to second half of life experience he introduces readers to core principles that shaped his values thinking and way of life Useful for individual or group study Adventures in Spirituality encourages readers to take risks with their lives and faith affirming that this is how one grows spiritually *Religion and Science: An Introduction* Brendan Sweetman, 2009-12-24

Outgrowing Cultic Christianity Robert P. Vande Kappelle, 2021-04-27 We live in a time of religious warfare not just between different religions but also between those with differing versions of the same faith This religious distrust and political conflict may be the worst in American history since the Civil War Speaking as a progressive conservative biblical scholar Robert Vande Kappelle uses a four stage model of faith development to rethink core Christian doctrines Starting with current events and a discussion on the role of religion this book examines how inadequate faith development makes people of faith susceptible to misinformation conspiracy thinking and even to cultic mindsets People of faith do not choose to believe a lie they all want to believe what is true Hence it is surprising that in the realm of religion so many people are willing to rely upon untested and even highly disputed beliefs beliefs most received as children Unfortunately many of these teachings are based upon ancient hopes and fears rather than upon factual historical information Taken literally dualistic teachings concerning heaven and hell sin and salvation good and evil and apocalyptic beliefs such as the end times and the imminent return of Christ to earth are questionable not only because they are beyond historical and scientific verification but also because they can be misused by authoritarian leaders to control and mislead devout individuals Thankfully there is a way to outgrow cultic Christianity The path to spiritual maturity comes by restoring the role of religion a form of spirituality discovered not by addition but by a process of subtraction Outgrowing Cultic Christianity is useful for individual or group study Each chapter concludes with questions suitable for discussion or reflection *Come, Lord Jesus!* Stephen Motyer, 2016-04-21 The second coming of Jesus Christ is the core of the biblical worldview the climax of the biblical message the cornerstone of biblical theology and the centrepiece of authentic biblical faith for the twenty first century At the heart of this bold opening statement by Stephen Motyer is the conviction that Jesus Christ is the centre of the Scriptures even though he only appears at the end For the New Testament writers Jesus Christ revolutionized their understanding of the Scriptures and gave them a new centre around which to interpret the work of God in the world and the climax of that work is the second coming of that same Jesus Christ Jesus himself used the language of the Scriptures to promise his coming again the coming of the Son of Man Hence we need the whole of Scripture to understand what the second coming means for us today The fact that the Bible ends with the prayer Come Lord Jesus Revelation 22 20 is deeply appropriate The second coming is the end of the biblical message its omega point its grand finale the denouement when all the players in the drama of earth history both human and angelic are

gathered in the drawing room to hear the Master unpack the plot and give the verdict Motyer's comprehensive stimulating study is divided into two parts Part One The biblical frame examines three Old Testament passages and lays the foundation for Part Two New Testament hopes and visions which explores a series of key texts He focuses on the second coming rather than on millennialism or the end times in order to provide the fundamental biblical theology that must underlie our whole sense of God's future for his world

Earth, Wind, and Fire Barbara Ellen Bowe, 2004 Today's world demands an integrated attitude and vision toward all of life an approach embraced and enhanced by the contributors to *Earth Wind and Fire* In this scholarly and passionate work members of the Feminist Hermeneutics Task Force of the Catholic Biblical Association orchestrate an approach to understanding a feminist model of creation that is faithful to biblical tradition and celebrates the rich diversity of all creation Inviting conversation between Bible and theology feminist scholars and theologians the contributing writers explore themes such as the significance of embodiment the integrity of creation the interconnectedness of humanity with other creatures the evolutionary nature of creation and integral connections between creation and salvation ecojustice and human liberation Both detailed and holistic *Earth Wind and Fire* is a compelling insightful and reader friendly approach to the creative artistry of God Chapters and contributors are Creation Evolution Revelation and Redemption Connections and Intersections by Carol J Dempsey O P The Priestly Creation Narrative Goodness and Interdependence by Alice L Laffey Everyone Called By My Name Second Isaiah's Use of the Creation Theme by Joan E Cook SC Wild Raging Creativity Job in the Whirlwind by Kathleen M Connor Soundings in the New Testament Understandings of Creation by Barbara E Bowe RSCJ Sabbath the Crown of Creation by Barbara E Reid OP Creation Restored God's Basileia the Social Economy and the Human Good by Tatha Wiley The Samaritan Woman and Martha as Partners with Jesus in Ministry Recreation in John 4 and 11 by Judith Schubert RSM All Creation Groans in Labor Paul's Theology of Creation in Romans 8 18 23 by Sheila E McGinn Of New Songs and An Open Window by Mary Ann Donovan SC Being a New Creation 2 Corinthians 5 17 is Being the Body of Christ Paul and Feminist Scholars in Dialogue by Mary Margaret Pazdan OP Creation in the Image of God and Wisdom Christology by Mary Catherine Hilkert OP Also includes a Prologue and Epilogue by Carol J Dempsey OP and Mary Margaret Pazdan OP a Bibliography and Indexes

Trinitarian Christology Michael LaVelle Cook, 2010 A trinitarian and ecumenical approach to the current emphasis on and renewal of Spirit Christology

The Emergent Christ Ilia Delio, 2011 Ilia Delio makes fascinating sense of the universe beginning with the story of cosmic evolution coursing through the meaning of God in evolution and the emergence of Christ and concluding with new ways of seeing Christ in all things As Teilhard de Chardin did in *The Divine Milieu* Ilia Delio reveals the sacrament of God at work in the world She also explores the spiritual evolution within each of us and suggests that it will change the cosmos as well as the church She shows that we are at a stage in evolution where our choices will determine what happens next Love she writes always seeks the best for the beloved but God is a beggar of love who waits at the soul's door without daring to force it

open The question of Christ emerging as the personal center of the universe is not a question of yes or no but a question of how that love will evolve She makes one thing perfectly clear it is happening and the evidence is astounding The Emergent Christ is an antidote to the new atheism that says there is no place in evolution for God let alone a God of love It is also a spiritual tonic for Christians interested in understanding their place and purpose in this evolving universe Reclaiming Catholicism Thomas H. Groome, Michael J. Daley, 2010 It is surely true that reclaimed spiritual wisdom from the pre Vatican II era can enrich the faith lives of Catholics today The American Catholic community prior to the Second Vatican Council can be numbered among the most vital expressions of Catholicism in the history of the church The contributors are a who's who of the top theologians and spiritual writers today other essays cover devotional practices such as prayer to the saints devotion to Mary the Rosary the Eucharistic Fast and the Angelus as well as profiles of figures such as Thomas Merton Theodore Hesburgh Teilhard de Chardin and Dorothy Day

The Great Conversation Belden C. Lane, 2019-05-01 We are surrounded by a world that talks but we don't listen We are part of a community engaged in a vast conversation but we deny our role in it In the face of climate change species loss and vast environmental destruction the ability to stand in the flow of the great conversation of all creatures and the earth can feel utterly lost to the human race But Belden C Lane suggests that it can and must be recovered not only for the sake of endangered species and the well being of at risk communities but for the survival of the world itself The Great Conversation is Lane's multi-faceted treatise on a spiritually centered environmentalism At the core is a belief in the power of the natural world to act as teacher In a series of personal anecdotes Lane pairs his own experiences in the wild with the writings of saints and sages from a wide range of religious traditions A night in a Missourian cave brings to mind the Spiritual Exercises of Ignatius of Loyola the canyons of southern Utah elicit a response from the Chinese philosopher Laozi 500 000 migrating sandhill cranes rest in Nebraska and evoke the Sufi poet Farid ud Din Attar With each chapter the humility of spiritual masters through the ages melds with the author's encounters with natural teachers to offer guidance for entering once more into a conversation with the world

Philosophical Thinking and the Religious Context Brendan Sweetman, 2013-10-24 This new collection covers a wide range of cutting edge and timely questions in contemporary philosophy of religion from a rich variety of backgrounds and perspectives The essays in the volume deal with a range of fascinating topics in the philosophy of religion such as views of God's nature in process philosophy and theology process views compared with traditional views such as that found in St Thomas Aquinas teleology and purpose in human life and in the universe religion and evolution the problem of evil both in human experience and in the natural world and ethical questions concerning the human road to God and the question of human rights in pluralist democratic states The essays in the first section Approaches to God examine the rationality of the approach to the nature of God defended in process philosophy particularly in the work of two pioneering thinkers Charles Hartshorne and A N Whitehead The second section of the book Science Evolution and God turns to the engagement of Christian views regarding

the nature of God and creation with modern developments in science and philosophy The last section Philosophy of Religion and Ethics takes up broader more foundational questions Santiago Sia concludes the volume with a sustained reflection on the nature of philosophy and philosophizing a discussion to which he brings many insights and experiences from his own academic career

Living Graciously on Planet Earth Robert P. Vande Kappelle, 2016-05-18 Humans are happiest when they live virtuously Building on the premise that the purpose of life is happiness conducive to the equitable flourishing of all humanity Living Graciously on Planet Earth argues that the appropriate way to regard our abilities and moral opportunities is as gifts for the common good to be used for the glory of God guided by the biblical principles of stewardship and community Utilizing a biblical approach and a Trinitarian perspective while maintaining an appreciative eye to the contributions of the world's living religions Dr Vande Kappelle argues for a hierarchy of values necessary for gracious living in the twenty first century Ancient wisdom claims there are seven primary virtues four natural prudence justice fortitude and temperance and three supernatural faith hope and love As the natural virtues help us grow morally the supernatural virtues are designed for transformation Using insights from the Enneagram as well as from diverse scholars such as Karen Armstrong Marcus Borg James Fowler Matthew Fox C S Lewis Robin W Lovin and Huston Smith Living Graciously examines the seven virtues in biblical social and cosmic context This book's uplifting message delivers the perfect antidote to the current social malaise characterized by arrogance suspicion negligence and consumption In addition this book addresses difficult questions such as Do we live in a moral universe Is there a benevolent deity watching over us Is there a purpose to life on earth and Is there a summum bonum a greatest good The answers in this insightful presentation will challenge your thinking and energize your living Useful for individual or group use each chapter contains aids to learning including a a thesis statement indicating the central idea of the chapter b a list of key biblical passages c a chapter summary and d questions for discussion and reflection

Amending the Christian Story Ron Rude, 2021-10-11 Why has Christianity been around for a mere 2 000 years when Earth life has abounded for 3 8 billion years and even humans for nearly 300 000 years What was God doing all this time And what if humans are not the center of God's universe In Amending the Christian Story Ron Rude asserts that current versions of the Christian faith are inadequate and more than this are fueling humanity's assault on Earth's biosphere Through the window of nature's natural sciences especially astronomy geology evolutionary biology paleoanthropology Rude provides a fuller and more expansive view of God's story of life and God's story of Jesus Can humans continue the lived out assumption that we are separate from superior to the reason for and the rulers of everything With new perspectives into ancient stories and current narratives Rude compels us to urgently shift Christianity's claim and conduct in order to unite with God's more sustainable and just world
