Rest Is Silence:

The Rest Is Silence Robert N. Watson, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1994 **The Rest is Silence** Scott Fotheringham, 2012 In the backwoods of Nova Scotia a man slowly withdraws himself from the world He fills his days with planting a garden Building a cabin Carving out friendships Falling in love His nights are for storytelling A saga of youthful passions of idealism and hope of science and rebellion Outside the forests news reports trickle in A worldwide catastrophe is brewing People are frightened Governments are in turmoil The future is uncertain And as the story unfolds we learn the consequences of believing we were ever ready to open Pandora's Box Jacket Beyond the Epic Gene D Phillips, 2006-11-24 Two time Academy Award winner Sir David Lean 1908-1991 was one of the most prominent directors of the twentieth century responsible for the classics *The Bridge on the River Kwai* 1957 *Lawrence of Arabia* 1962 and *Doctor Zhivago* 1965 British born Lean asserted himself in Hollywood as a major filmmaker with his epic storytelling and panoramic visions of history but he started out as a talented film editor and director in Great Britain As a result he brought an art house mentality to blockbuster films Combining elements of biography and film criticism *Beyond the Epic: The Life and Films of David Lean* uses screenplays and production histories to assess Lean's body of work Author Gene D Phillips interviews actors who worked with Lean and directors who knew him and their comments reveal new details about the director's life and career Phillips also explores Lean's lesser studied films such as *The Passionate Friends* 1949 *Hobson's Choice* 1954 and *Summertime* 1955 The result is an in depth examination of the director in cultural historical and cinematic contexts Lean's approach to filmmaking was far different than that of many of his contemporaries He chose his films carefully and as a result directed only sixteen films in a period of more than forty years Those films however have become some of the landmarks of motion picture history Lean is best known for his epics but Phillips also focuses on Lean's successful adaptations of famous works of literature including retellings of plays such as *Brief Encounter* 1945 and novels such as *Great Expectations* 1946 *Oliver Twist* 1948 and *A Passage to India* 1984 From expansive studies of war and strife to some of literature's greatest high comedies and domestic dramas Lean imbued all of his films with his unique creative vision Few directors can match Lean's ability to combine narrative sweep and psychological detail and Phillips goes beyond Lean's epics to reveal this unifying characteristic in the director's body of work *Beyond the Epic* is a vital assessment of a great director's artistic process and his place in the film industry *The Quest for Voice* Lydia Goehr, 2002 Concentrating on the music politics and philosophy of Richard Wagner Lydia Goehr addresses some fundamental questions of German Romanticism Is all music musical Is music made less musical by the presence of words What is musical autonomy How do composers avoid censorship How are

composers affected by exile Can music articulate a politics for the future What is the relation between music and philosophy

Epiphanies in Literature and Cinema Bradley Lewis, 2024-07-09 Experiencing Epiphanies in Literature and Cinema uses health humanities and psychological humanities to explore literary and cinematic epiphanies James Joyce first adopted the term epiphany from its religious use to articulate moments of luminous intensity or sudden spiritual manifestation This study develops and extends Joyce's use of epiphany through a range of literary and cinematic examples from William Shakespeare to Ruth Ozeki and from Yasujir Ozu to Jim Jarmusch This wealth of epiphanies in the arts is important from a health humanities perspective in that they provide access to aesthetic and sustainable experiences of well being joy and human flowering They also provide antidotes to aesthetics of anti epiphany a showing forth of terror horror and panic Experiencing Epiphanies is accordingly both critical and affirmative diagnostic and therapeutic It uses critique to understand the increasing need for well being in contemporary times and it uses affirmation to develop underutilized resources in the arts for transforming configuring and refiguring our everyday lives Shakespeare in Parts Simon Palfrey, Tiffany

Stern, 2007-09-27 Shakespeare's drama originally circulated in the form of the individual actor's part containing only a single character's speeches and brief cues This unique collaboration of original theatre history with exciting literary criticism captures anew Shakespeare's development as a writer showing how scripting and acting work together to produce characters of unprecedented immediacy *Student's Guide to Shakespeare* William McKenzie, 2017-01-17 This book is a one

Bruce Johnson, 2023-04-14 *Earshot Perspectives on Sound* awakens an understanding of the decisive role that sound has played in history and culture. Although beginning with reference to antiquity the primary focus is the changing status of sound and hearing in Western culture over the last six hundred years covering the transition from the medieval period to the contemporary world. Since mythic times sound has been an essential element in the formation of belief systems, personal and community identities and the negotiations between them. The varied case studies included in the book cover major reference points in the changing politics of sound, particularly in relation to the status of the other major conduit of social transactions: vision. *Earshot* is not a work of cultural theory but is anchored in social practices and material culture and is therefore a valuable resource for conveying sound to both undergraduate students as well as the general reader. **After Oedipus** Julia Reinhard Lupton, Kenneth Reinhard, 1993 Exploring the dialogue between psychoanalytic and literary discourses the authors examine the models of plot, character and ways of reading which each of these discourses has developed in interpreting Shakespeare. Since Freud's writings on Oedipus and Hamlet Shakespearean tragedy has been paradigmatic for psychoanalytic theory and criticism. In this ambitious and highly imaginative book the authors trace the dialogue between psychoanalytic and literary discourses by examining the models of plot, character and ways of reading which each tradition has developed through its interpretation of Shakespeare. *A Shakespearean Reading of Pirandello's Henry IV* Manuel Macías Borrego, 2025-03-27 This book offers an innovative comparative analysis of Shakespeare's Hamlet and Pirandello's Enrico IV structured in four chapters that explore the intertextual relationship between these two masterpieces. Beginning with an introduction that lays the groundwork the text moves to a section titled Preliminary Considerations which defines the study's focus and establishes the critical methodology. The core of the book the central chapter entitled Comparative Study delves deeply into the shared and contrasting elements between the two tragedies presenting an original and cumulative interpretation that connects key concepts like original sin, farce, simulacrum and simulation. The theoretical approach carefully developed and organized into thematic blocks unfolds with analytical rigor to offer a Shakespearean reading of Enrico IV. This study is an essential reference for those seeking to understand the complex interrelations between these two great texts and their relevance in contemporary literature and criticism. Modernism and the Language of Philosophy Anat Matar, 2006-04-18 Modernism can be characterised by the acute attention it gives to language to its potential and its limitations. Philosophers, artists and literary critics working in the first third of the twentieth century emphasized language's creative potential but also stressed its inability to express meaning completely and accurately. In particular modernists shared the belief that the kind of truth *sub specie aeterni* that was sought by philosophers was either meaningless or was more appropriately expressed by the arts, especially by literature and poetry. *Modernism and the Language of Philosophy* addresses the challenge this belief presented to philosophy and argues that the modernist assumption rests upon a host of unacknowledged, repressed or denied dogmas or tacit images. Drawing in particular upon the work of Michael Dummett and

Jacques Derrida this book explores a new solution to this crisis in philosophical language and it is these two philosophers who drive the narrative of the book and offer perspectives through which both past and present day philosophers are examined

Objects and Intertexts in Toni Morrison's "Beloved" Maureen E. Ruprecht Fadem, 2020-11-17 Objects and Intertexts in Toni Morrison's *Beloved* The Case for Reparations is an inspired contribution to the scholarship on one of the most influential American novels and novelists The author positions this contemporary classic as a meditation on historical justice and re comprehends it as both a formal tragedy a generic translation of fiction and tragedy or a novel tragedy Kliger and a novel of objects Its many things literary conceptual linguistic are viewed as vessels carrying the hi story and the political concerns From this a third conclusion is drawn Fadem argues for a view of *Beloved* as a case for reparations That status is founded on two outstanding object lessons the character of *Beloved* as embodiment of the subject object relations defining the slave state and the grammatical object weather in the sentence The rest is on the novel's final page This intertextual reference places *Beloved* in a comparative link with *Hamlet* and *Oresteia* Fadem's research is meticulous in engaging the full spectrum of tragedy theory much critical theory and a full swathe of scholarship on the novel Few critics take up the matter of reparations still fewer the politics of genre craft and form This scholar posits Morrison's tragedy as constituting a searing critique of modernity as composed through meaningful intertextualities and as crafted by profoundly thingly objects Brown Altogether Fadem has divined a fascinating singular treatment of *Beloved* exploring the connections between form and craft together with critical historical and political implications The book argues finally that this novel's first concern is justice and its chief aim to serve as a clarion call for material and not merely symbolic reparations This book is freely available to read at <https://taylorandfrancis.com/socialjustice/c/language/literature/arts>

Distributed Language Stephen J. Cowley, 2011 The volume presents language as fully integrated with human existence On this view language is not essentially symbolic not represented inside minds or brains and most certainly not determined by micro social rules and norms Rather language is part of our ecology It emerges when bodies co ordinate vocal and visible gesture to integrate events with different histories Enacting feeling expression and wordings language permeates the collective individual and affective life of living beings It is a profoundly distributed multi centric activity that binds people together as they go about their lives *Distributed Language* pursues this perspective both theoretically and in relation to empirical work Empirically it reports studies on the anticipatory dynamics of reading its socio cognitive consequences Shakespearean theatre what images evoke in brain and word and solving insight problems Theoretically the volume challenges linguistic autonomy from overlapping theoretical positions First it is argued that language exploits a species specific form of semiotic cognition Second it is suggested that the central function of language lies in realizing values that derive from our ecosystemic existence Third this is ascribed to how cultural and biological symbols co regulate the dynamics that shape human activity Fourth it is argued that language far from being organism centred gives us an extended ecology in which our co ordination is saturated by

values and norms that are derived from our sociocultural environment The contributions to this volume expand on those originally published in *Pragmatics Cognition* 17 3 2009 Indian Perspectives on Martin Heidegger's Event: A Cross-Cultural Inquiry into Truth and Nescience Mikael Stamm, 2025-04-20 In a world where books write themselves where speech has no speaker where death illuminates the living where essences communicate indeterminacies where things fold upon themselves and meanings can be unthought where truth consumes everything in purifying fires and machines create worlds for the benefit of the eradicated other if seen the unfathomable event of truth has already taken place and everything must cease to be as it once was This book explores the concept of the event in Heidegger's *Contributions to Philosophy* alongside the notions of truth and nescience in Sankara's *Brahmas trahya* Through this lens it examines the question of articulation by mapping conceptual domains and investigating what occurs between them This negative field raises fundamental questions about the nature of the self the role of agency and the conspicuous absence of meaning in mantric sayings all of which point to a radical other truth Additional Indian philosophical traditions and practices are incorporated to shed light on significant ways of understanding words and sounds revealing an unexpected vision of reality The book also includes a comprehensive and insightful foreword by the esteemed Prof S Panneerselvam General Secretary of the Indian Philosophical Congress and the Chennai Philosophical Forum and former Professor Head of the Department of Philosophy University of Madras Chennai His foreword addresses key aspects of both Indian and Western philosophical traditions providing valuable context for the reader
