The Other Canon of Economics, Volume 1 Erik Reinert, 2024-02-13 Other Canon Economics Essays in the Theory and History of Uneven Economic Development brings together key essays on development economics from one of the most prolific and important development economists and historians of economic policy today Erik S Reinert argues through essays ranging from 1994 to 2020 that neo classical economics damages developing countries the theory of comparative advantage leaves out a number of factors which make economic activities qualitatively different as carriers of economic growth Based on a long intellectual tradition started by the Italian economists Giovanni Botero 1589 and Antonio

Serra 1613 and later used in virtually all presently industrialised countries Reinert shows that the country which exports increasing returns goods e g high end manufacture has advantages over the country which exports diminishing returns goods e g commodities This has important implications for today s development strategies that Reinert argues should be seen as industrial strategies **Workers, Capital, and the State in British Columbia** Rennie Warburton, David

Coburn, 2011-11-01 This collection of essays offers a comprehensive examination of the working class experience in British Columbia and contains essential background knowledge for an understanding of contemporary relations between government labour and employees It treats workers relationship to the province s resource base the economic role of the state the structure of capitalism the labour market and the influence of ethnicity and race on class relations Using different analytical categories and based on primary research the individual studies provide new assessments of the development of capitalist relations of production the way new economic developments changed old and traditional cultures the connection between the demand for labour and the immigration policy the impact of technology on work relations and the various responses of labour to the policies of the state and capital groupings Articles focusing on episodes from the 1870s to the present deal with major staple industries such as the early fur trade fishing mining and forestry and with the struggle of labourers against their employers in communities such as New Westminster and Fraser Mills and in specific sectors such as telecommunications and education Many of the analyses show that ethnicity acts both as a focus of integration and resistance against external forces in the larger society and as a point of division and antagonism internal to the working class The activities of the working class and its relationships to other parts of society are of primary importance in explaining social and economic change in the province and in the country **Workers Capital and the State in British Columbia** will be of interest to students of class labour and community relations *Policy in Action* John Wanna, John Butcher, Benoit Freyens, 2010 A valuable guide to the debates and choices to be made in the delivery of public services The authors have achieved a rare combination of a thorough and thoughtful review of the literature and strongly expressed views Essential reading for both students and practitioners trying to make sense of the service delivery state Norman Flynn Director Centre for Financial and Management Studies University of London **Restraining the Economy** Robert C. Allen, Gideon Rosenbluth, 1986

Labour Market Evolution George Grantham, Mary MacKinnon, 2002-02-07 How have modern labour markets developed Both labour economists and economic historians agree that it is necessary to look at labour markets in their historical context Labour Market Evolution does just this The contributors examine the operation and development of labour markets in Western Europe and North America since 1500 They address the key questions in this complicated process using new quantitative evidence First how closely connected were geographically distant labour markets Second how flexible were markets in the past did wages change in response to demand shocks Did workers move across space and occupations in response to cyclical or seasonal conditions Third were relationships between employees and employers short term or long

term Why did relationships change and what were the implications for the flexibility and integration of markets In examining these factors this volume draws on modern labour economic theory and up to date quantitative techniques to show how current traditions and systems have evolved *Bulletin of the Public Affairs Information Service* Public Affairs Information Service,1987 Jobs with Inequality John Peters,2022-06-29 Income inequality has skyrocketed in Canada over the past few decades The rich have become richer while the average household income has deteriorated and job quality has plummeted Common explanations for these trends point to globalization technology or other forces largely beyond our control But as *Jobs with Inequality* shows there is nothing inevitable about inequality Rather runaway inequality is the result of politics and policies what governments have done to aid the rich and boost finance and what they have not done to uphold the interests of workers Drawing on new tax and income data John Peters tells the story of how inequality is unfolding in Canada today by examining post democracy financialization and labour market deregulation Timely and novel *Jobs with Inequality* explains how and why business and government have rewritten the rules of the economy to the advantage of the few and considers why progressive efforts to reverse these trends have so regularly run aground *A Guide to Canadian Economic History* Kenneth J. Rea,1991 **Restraining the Economy** Robert C. Allen,Gideon Rosenbluth,1986 Continuities and Discontinuities Andrew F. Johnson,Stephen McBride,Patrick J. Smith,1994-12-15 *Continuities and Discontinuities* assesses the making of Canadian social and labour market policy in the context of two factors globalization and neoconservatism Specialists from a variety of fields and disciplines examine the relation between Canada s changing political economy and its social welfare and labour market policy These essays analysing continuities and discontinuities in policy emerged from research that initially was presented at the 5th Conference on Social Welfare Policy held at Bishop s University in 1991 and that since then has been revised to reflect the situation of the mid 1990s Part I introduces the three broad areas explored in the volume Part II addresses new trends in Canadian political economy and their relation to public policy Part III analyses social welfare policy Of the essays included several investigate the democratizing of the Canadian welfare state and controversies in the conception and definition of poverty Others address the AIDS crisis health policy and social policy issues that primarily affect women children and native peoples In Part IV recent Canadian labour market policies are investigated and appraised and alternatives suggested or evaluated One essay argues that employment security and high wages could generate high productivity and international competitiveness another examines the impact of the growth in part time employment on the welfare state a third probes the relation of organized labour to a guaranteed annual income others investigate the impact of neoconservatism on labour market policy making in various provinces and regions Globalization and neoconservatism continue to shape change and require constant evaluation These thought provoking and informative essays are an important contribution to the ongoing debate on social welfare and labour market policy in Canada **Regional Economic Analysis** F. J. Anderson,1988 *State, Society, and the Development of Canadian Federalism* Richard

Simeon, Ian Robinson, Royal Commission on the Economic Union and Development Prospects for Canada, 1990 Published by the University of Toronto Press in cooperation with the Royal Commission on the Economic Union and Development Prospects for Canada and the Canadian Government Publishing Centre Supply and Services Canada **Provincial Politics in Canada** Rand Dyck, Perry Rand Dyck, 1991 **Wage Restraint and the Control of Inflation** Beth Bilson, 2016-04-20
