Manufacturing Hope and Despair Ricardo D. Stanton-Salazar,2001 Relying on a wealth of ethnographic and statistical data this groundbreaking volume documents the many constraints and social forces that prevent Mexican origin adolescents from constructing the kinds of networks that provide access to important forms of social support Special attention is paid to those forms of support privileged youth normally receive and working class youth do not such as expert guidance regarding college opportunities The author also reveals how some working class ethnic minority youth become the exception weaving social webs that promote success in school as well as empowering forms of resiliency In both cases the role of social networks in shaping young people s chances is illuminated In this badly needed alternative to the individualism that pervades most debates about American education Stanton Salazar explores how Latino teenagers lives are embedded within social networks from home community and school This grand work shows how school programs can confound or can draw from the strengths of such networks to build better lives for all Bruce J Biddle Professor Emeritus of Psychology and Sociology University of Missouri Columbia A beautifully written and inspiring book that announces a new generation of Mexican Latino scholars This is a book which tells the tale about Mexican Latino adolescents but in reality it is a book about how working class adolescent life is socially constructed defined and elaborated in the United States An eloquent rendering indeed Carlos G V lez Ib ez Presidential Chair in Anthropology University of California Riverside Using creative theorizing and rigorous methodology *Manufacturing Hope and Despair* illuminates brilliantly the supposed mystery of persistent race class inequities in American society Walter R Allen Professor University of California Los Angeles *Achieving College Dreams* Rhona S.

Weinstein, Frank C. Worrell, 2016 *Achieving College Dreams* How a University Charter District Partnership Created an Early College High School tells the fascinating story of a long standing partnership between a university and charter district to create an early college high school for first generation college youth Reflecting community engaged scholarship and diverse voices this book uniquely extends the knowledge base about how to better prepare low income students of color for college eligibility and academic success

Saving America's High Schools Becky Smerdon, Kathryn M. Borman, 2009-11-13 Our educational system is in a continuous state of reform yet outcomes are nowhere near what we can accept Though the search for answers is perpetual many efforts over the past decade have homed in on one feature of high schools their size If we simply reduce school size the argument goes students will gain a safer environment that can address their individual needs It seems like common sense but such changes alone have not proven a magic bullet *Saving America's High Schools* offers quantitative research drawn from large scale reform studies along with recommendations for federal state and district reform

Learning and Understanding National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Committee on Programs for Advanced Study of Mathematics and Science in American High Schools, 2002-08-06 This book takes a fresh look at programs for advanced studies for high school students in the United States with a particular focus on the Advanced Placement and the International Baccalaureate programs and asks how advanced studies can be significantly improved in general It also examines two of the core issues surrounding these programs they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs this report provides teachers parents curriculum developers administrators college science and mathematics faculty and the educational research community with a detailed assessment that can be used to guide change within advanced study programs

Naturally Small Stephen A. Swidler, 2006-08-01 This book asks simply How do the teachers in small schools manage to teach The research reported here is concerned with how teachers and students organize themselves and do school that is small in scale

The State of the System Paul W. Bennett, 2020-09-23 Over the last fifty years Canada's public schools have been absorbed into a modern education system that functions much like Max Weber's infamous iron cage Crying out for democratic school level reform the system is now a centralized bureaucratic fortress that every year becomes softer on standards for students less accessible to parents further out of touch with communities and surprisingly unresponsive to classroom teachers Exploring the nature of the Canadian education order in all its dimensions *The State of the System* explains how public schools came to be so bureaucratic confronts the critical issues facing kindergarten to grade 12 public schools in all ten provinces and addresses the need for systemic reform Going beyond a diagnosis of the stresses strains and ills present in the system Paul Bennett proposes a bold plan to re engineer schools on a more human scale as the first step in truly reforming public

education In place of school consolidation and managerialism one size fits all uniformity limited school choice and the success for all curriculum Bennett advocates for a new set of priorities decentralize school governance deprogram education ministries and school districts listen to parents and teachers and revitalize local education democracy Tackling the thorny issues besetting contemporary school systems in Canada The State of the System issues a clarion call for more responsive engaged and accountable public schools
