Restructuring The Gatt System

William James Adams

Restructuring The Gatt System:

Restructuring the Gatt John H. Jackson, 1990 The multilateral trading system based on the General Agreement on Tariffs and Trade GATT is being eroded by a shift to bilateralism surging protectionism and flouting of its rules by the major trading countries The inclusion of the complex issues of services intellectual property and investment in the Uruguay Round has only increased the strain on the GATT s structure Reform and strengthening of the GATT system can no longer be delayed Jackson argues that part of the problem lies in the defective constitutional nature of the GATT itself He examines the institutional and constitutional changes the GATT would need in order to contain protectionist pressure and respond to the new issues in the evolving international economy Jackson outlines the provisions of a new charter that would strengthen the foundations of the system His proposed reform challenges policymakers and practitioners to think beyond the modest objectives of the Uruguay Round Unedited summary from book cover

Restructuring the GATT System John Howard Jackson, 1990 *Restructuring the GATT system* John Howard Jackson, 1990 *The Trade Policy Review Mechanism*

Mathias Kende, 2018-02-09 The WTO s Trade Policy Review Mechanism which reviews the trade policies and practices of each WTO member at regular intervals is generally considered to function well In this day and age complacency is unwise Examining trade policy reviews throughout the lifetime of the TPRM this book details its evolution from Article X of the General Agreement on Tariffs and Trade to the proposed modifications resulting from the mechanism s latest appraisal examining the budgetary capabilities and technical performance of all the main entities who participate in the reviews On the basis of these considerations the author concludes that in order to remain relevant especially in times of increased global protectionism the TPRM could and should do better and provides unique and timely suggestions for reform

China-Africa Dispute Settlement Won Kidane, 2011-11-02 The nature and magnitude of the growth in China Africa economic relations in recent years is unprecedented and extraordinary According to recent estimates the value of China s trade with African nations grew from a mere USD 10 million in the 1980s to USD 55 billion in 2006 and to more than USD 100 billion by the end of 2009 at which time nearly 1 600 Chinese companies were doing business in Africa with a direct stock investment of about USD 7 8 billion The accelerating impetus of China Africa trade has overtaken some crucially important features of an effective trade regime most notably a fully trustworthy dispute resolution system It is the current and potential future efficacy of such a system that is taken up in this book with great understanding and skill The author evaluates existing mechanisms of dispute resolution in all aspects of China Africa economic relations in light of the parties economic and cultural profiles and their evolving legal traditions and goes on to propose a comprehensive institutional model of dispute resolution that takes full account of the economic needs and legal cultures of both China and the various African countries Among the topics and issues that arise in the course of the book are the following suitability of the WTO s dispute resolution mechanism for China Africa trade relations domestic bilateral regional and multilateral law sources affecting China Africa

commerce the role of intra Africa bilateral investment treaties competing interests that underpin international investment law relevant legal economic and political challenges and cultural barriers permissible scope of regional trade regimes national treatment versus duty to compensate and harmonization initiatives model laws incoterms restatements The author includes in depth analysis of how China Africa economic relations fare in the varieties of dispute resolution methods available at the major arbitral European and American institutions ICSID AAA ICC LCIA PCA as well as under the rules of the China International Economic and Trade Arbitration Commission CIETAC and the important arbitral fora in Cairo Kuala Lumpur and Lagos Endorsing institutional arbitration as the most appropriate form of resolving trade investment and commercial disputes arising between China and African countries this ground breaking analysis outlines the obstacles and shortcomings of the available means of dispute settlement both in international and domestic contexts and offers deeply informed recommendations for improvement of the existing system Although the book will be welcomed by interested scholars and practitioners for its detailed discussion of how China Africa trade relations are situated within the global trade regime its most enduring value lies in its thorough evaluation of the available options and its proposals for structuring a legal framework within which future disputes will be effectively resolved

Cohn, 2017-05-15 Cohn's topic of global trade is of enormous and proliferating interest He provides a good background from 1945 to the present and on core contemporary themes such as civil society participation and the domesticisation of the trade agenda Whilst there is a wealth of literature on policy oriented aspects such as negotiating rounds there are few that provide the careful comprehensive historical overview that this work offers and none that do so with reference to international institutions such as the G7 Quad OECD and UNCTAD as well as the WTO in global trade governance This seminal work has been awarded the British Columbia Political Science Association Weller Prize for 2003 Cohn's political science background will appeal directly to a university audience and a broader public policy market It is also suitable for those interested in trade in the cognates of economics and law This work's theoretical framework embraces and synthesises the major approaches in the field of international relations and will be appropriate for the dominant schools of realists and liberal institutionalists alike It could therefore be apt for courses on international relations theory or international political economy taught in a theoretical mode This book reinforces and broadens the focus of all previous works in The G8 and Global Governance series
