

The book cover features a complex, layered illustration. In the foreground, a dark, muscular figure is depicted in a dynamic, almost dancing pose. Behind this figure, there are various symbolic elements: a large, stylized eye or face, a circular motif resembling a target or a sun, and abstract geometric shapes. The background is a mix of earthy tones and textures, suggesting a landscape or a textured surface. The overall style is reminiscent of mid-20th-century modernist or surrealist art.

Gender, Genre and Religion Morny Joy, Eva K.

Neumaier-Dargyay, 2006-01-01 Many feminists today are challenging the outmoded aspects of both the conventions and the study of religion in radical ways Canadian feminists are no exception Gender Genre and Religion is the outcome of a research network of leading women scholars organized to survey the contribution of Canadian women working in the field of religious studies and further to plot the path forward This collection of their essays covers most of the major religious traditions and offers exciting suggestions as to how religious traditions will change as women take on more central roles Feminist theories have been used by all contributors as a springboard to show that the assumptions of unified monolithic religions and their respective canons is a fabrication created by a scholarship based on male privilege Using gender and genre as analytical tools the essays reflect a diversity of approaches and open up new ways of reading sacred texts Superb essays by Pamela Dickey Young Winnie Tamm Morny Joy and Marsha Hewitt among others honour the first generation of feminist theologians and situate the current generation showing how they have learned from and gone beyond their predecessors The sensitive and original essays in Gender Genre and Religion will be of interest to feminist scholars and to anyone teaching women and religion courses

Religion, Gender, and the Public Sphere Niamh Reilly, Stacey Sriver, 2013-11-26 The re emergence of religion as a significant cultural social and political force is not gender neutral Tensions between claims for women's equality and the rights of sexual minorities on one side and the claims of religions on the other side are well documented across all major religions and regions It is also well recognized in feminist scholarship that gender identities and ethno religious identities work together in complex ways that are often exploited by dominant groups Hence a more comprehensive understanding of the changing role and influence of religion in the public sphere more widely requires complex multidisciplinary and comparative gender analyses Most recent discussion on these matters however especially in Europe has focused primarily on the perceived subordinate status of Muslim women These debates are a reminder of the deep interrelation of questions of gender identity human rights and religious freedom

more generally The relatively narrow albeit important purview of such discussions so far however underscores the need to extend the horizon of enquiry vis vis religion gender and the public sphere beyond the binary of Islam versus the West Religion Gender and the Public Sphere moves gender from the periphery to the centre of contemporary debates about the role of religion in public and political life It offers a timely multidisciplinary collection of gender focused essays that address an array of challenges arising from the changing role and influence of religious organisations identities actors and values in the public sphere in contemporary multicultural and democratic societies Psychology and Religion Andrew R.

to all those interested in the role of religion in spatial analysis **Soul and Psyche** Wayne G. Rollins,1999 The first introduction to the history and method of biblical psychological interpretation **Phenomenological Inquiry in Psychology** Ron Valle,2013-11-11 This fine new book the third in a series brings psychologists up to date on the advances of phenomenological research methods in illuminating the nature of human awareness and experiences In the more congenial and welcoming intellectual climate of the 1990s the phenomenological methods have moved to the forefront of discourse on research methods that support and advocate an expanding view of science In Valle and King 1978 phenomenological methods were presented as alternatives to behavioral methods In Valle and Halling 1989 phenomenological methods were advanced to perspectives in psychology This new volume is even less cautious indeed bolder in relation to conventional methods and epistemologies By now people knowledgeable about psychology and most psychologists have digested the criticisms directed against methods that operationalize quantify and often minimize human behavior In bringing us up to date on the growing power of the phenomenological methods this volume brings welcome coherence and integrity to an increasingly harried science attempting to reenchant itself with meaning and depth an endeavor artfully exemplified by phenomenological inquiries of the last several decades **Sensing Sacred** Jennifer Baldwin,2016-08-30 Sensing Sacred is an edited volume that explores the critical intersection of religion and body through the religious lens of practical theology with an emphasis on sensation as the embodied means in which human beings know themselves others and the divine in the world The manuscript argues that all human interaction and practice including religious praxis engages body through at least one of the human senses touch smell hearing taste sight kinestics proprioception Unfortunately body and more specifically and ironically sensation is eclipsed in contemporary academic scholarship that is inherently bent toward the realm of theory and ideas This is unfortunate because it neglects bodies physical or communal as the repository and generator of culturally conditioned ideas and theory It is ironic because all knowledge transmission minimally requires several senses including sight touch and hearing Sensing Sacred is organized into two parts The first section devotes a chapter to each human sense as an avenue of accessing religious experience while the second section explores religious practices as they specifically focus on one or more senses The overarching aim of the volume is to explicitly highlight each sense and utilize the theoretical lenses of practical theology to bring to vivid life the connections between essential sensation and religious thinking and practice **Introducing Thealogy** Melissa Raphael,1998-12-31 There are a number of participant accounts of the revival of Goddess religion among feminists in Europe America and Australasia But students and others interested in issues in the relation of religion theology and gender need an accessible and concise critical overview of this contemporary religious phenomenon and its discourses Introducing Thealogy which offers a contextual analysis of the thealogy ontology historiography and ethics of various types of Goddess feminism is designed to meet that need *Maxine Hong Kingston's Broken Book of Life* Maureen Sabine,2004-02-29 The numerous studies of Maxine Hong Kingston's touchstone work The

Woman Warrior fail to take into account the stories in China Men which were largely written together with those in The Woman Warrior but later published separately Although Hong Kingston s decision to separate the male and female narratives enabled readers to see the strength of the resulting feminist point of view in The Woman Warrior the author has steadily maintained that to understand the book fully it was necessary to read its male companion text Maureen Sabine s ambitious study of The Woman Warrior and China Men aims to bring these divided texts back together with a close reading that looks for the textual traces of the father in The Woman Warrior and shows how the daughter narrator tracks down his history in China Men She considers theories of intertextuality that open up the possibility of a dynamic interplay between the two books and suggests that the Hong family women and men may be struggling for dialogue with each other even when they appear textually silent or apart
