Ndubisi, Kanayo Nwadiakor, 2018-08-16 This notwithstanding over the years the African culture in all its manifestations became the bulls eye for attack especially during the Atlantic Slave Trade Colonialism Racism During these periods Europe dealt coup de grace to the African personality to his is ness by destroying the African cultural values They disrespected African peculiarities languages enriched with traditions of centuries parables many of them the quintessence of family and national histories modes of thought influenced more or less by local circumstances local poetry which reveals the profundity of African literary wizardry A lot of these were altered against the background that the African in all his susceptibilities is an inferior race and that it is needful to give him a foreign model beacon to emulate and follow In our time of globalization bringing about a new sweep of changes on the African cultural values a more careful historically grounded interpretation of the cultural changes occurring on the continent is therefore needed and for it to be useful it should enable us to transcend the narrow and narrowing parameters that currently dominate the discourse on the processes and structures of change occurring in contemporary Africa This piece is a great accomplishment by African scholars to do a grounded hermeneutics of the structures of changes taking place in Africa The different chapters are the fruits of the 2018 International Conference of the Association for the Promotion of African Studies APAS The authors like artists combine originality with insightful imagination They have carefully treated the historical conceptual basic and substantive issues in cultural change in Africa Their coherent systematic and encyclopedic approaches have the capacity to expand the intellectual and professional horizon of its readers
