Nicholas H. Farnham, Adam Yarmolinsky, 1996-01-11 Liberal education has always had its share of theorists believers and detractors both inside and outside the academy The best of these have been responsible for the development of the concept and of its changing tradition Drawn from a symposium jointly sponsored by the Educational Leadership program and the American Council of Learned Societies this work looks at the requirements of liberal education for the next century and the strategies for getting there With contributions from Leon Botstein Ernest Boyer Howard Gardner Stanley Katz Bruce Kimball Peter Lyman Susan Resneck Pierce Adam Yarmolinsky and Frank Wong Rethinking Liberal Education proposes better ways of connecting the curriculum and organization of liberal arts colleges with today s challenging economic and social realities The authors push for greater flexibility in the organizational structure of academic departments and argue that faculty should play a greater role in the hard discussions that shape their institutions Through the implementation of interdisciplinary and collaborative approaches to learning along with better integration of the curriculum with the professional and vocational aspects of the institution this work proposes to restore vitality to the curriculum The concept of rethinking liberal education does not mean the same thing to every educator To one it may mean a strategic shift in requirements to another the reformulation of the underlying philosophy to meet changing times Any significant reform in education needs careful thought and discussion Rethinking Liberal Education makes a substantial contribution to such debates It will be of interest to scholars and students administrators and anyone concerned with the issues of modern education

Sullivan, Jonathan R. Dolle, 2011-06-15 Business is the largest undergraduate major in the United States and still growing This reality along with the immense power of the business sector and its significance for national and global well being makes quality education critical not only for the students themselves but also for the public good The Carnegie Foundation for the Advancement of Teaching's national study of undergraduate business education found that most undergraduate programs are too narrow failing to challenge students to question assumptions think creatively or understand the place of business in larger institutional contexts Rethinking Undergraduate Business Education examines these limitations and describes the efforts of a diverse set of institutions to address them by integrating the best elements of liberal arts learning with business curriculum to help students develop wise ethically grounded professional judgment **Of Education, Fishbowls, and Rabbit Holes** Jane Fried, 2023-07-03 This book questions some of our most ingrained assumptions not only about the nature of teaching and learning but about what constitutes education and about the cultural determinants of what is taught What if who you think you are profoundly affects what and how you learn Since Descartes teachers in the Western tradition have dismissed the role of self in learning What if our beliefs about self and learning are wrong and relevance of knowledge to self actually enhances learning as current research suggests Jane Fried deconstructs the Grand Western Narrative of teaching and learning describing it is a cultural fishbowl through which we see the world rarely aware of the fishbowl itself be it disciplinary constructs or the definition of liberal education She leads us on a journey to question the way things are to attend to the personal narratives of others from ethnic racial and faith groups different from ourselves to rediscover self authorship as the core task of learning in college and to empower ourselves and students to navigate the disorientation of the Alice in Wonderland rabbit holes of modern life This is a book for all educators concerned about the purpose of college and of the liberal arts in the 21st century and what it is we should reasonably expect students to learn Jane Fried both upends many received ideas and offers constructive insights based on science and evidence and does so in an engaging way that will stimulate reflection Education and Extremisms Farid Panjwani, Lynn Revell, Reza Gholami, Mike Diboll, 2017-08-09 Education and Extremisms addresses one of the most pressing questions facing societies today how is education to respond to the challenge of extremism It argues that the implementation of new teaching techniques curricular reforms or top down changes to education policy alone cannot solve the problem of extremism in educational establishments across the world Instead the authors of this thought provoking volume argue that there is a need

for those concerned with radicalisation to reconsider the relationship between instrumentalist ideologies shaping education and the multiple forms of extremism that exist Beginning with a detailed discussion of the complicated and contested nature of different forms of extremism including extremism of both a religious and secular nature the authors show that common assumptions in contemporary discourses on education and extremism are problematic Chapters in the book provide a careful selection of pertinent and topical case studies policy analysis and insightful critique of extremist discourses Taken together the chapters in the book make a powerful case for re engaging with liberal education in order to foster values of individual and social enrichment intellectual freedom criticality open mindedness flexibility and reflection as antidotes to extremist ideologies Recognising recent criticisms of liberalism and liberal education the authors argue for a new understanding of liberal education that is suitable for multicultural societies in a rapidly globalising world This book is essential reading for academics researchers and postgraduate students with an interest in religion citizenship education liberalism secularism counter terrorism social policy Muslim education youth studies and extremism It is also relevant to teacher educators teachers and policymakers
