Mystical Society Philip Wexler, 2018-03-05 In Mystical Society Philip Wexler a well known critical theorist with a background in social psychology and a special interest in spirituality examines the revitalization of spirituality manifesting itself in society and in education Describing what he calls cultural changes toward the sacred he documents a cultural shift brought about by technological and societal changes toward a new mysticism Wexler explores the meaning for this new spirituality for our daily lives for social theory and for education From the pervasiveness of a spiritual vernacular to the integration of spiritual practices into our highly individualized and technologized lives Wexler lays out the evidence for a growing movement and then draws parallels to periods of mystical revitalization from the past In the course of this discussion he draws on the work of Marx Weber and Durkheim as well as from contemporary social theory

The Meaning of Israel Åsmund Borgen Gjerde, 2025-08-01 Why did social democrats in the 1940s and 1950s idealise Zionism and Israel And why did the New Left of the 1960s denounce Israel as an apartheid state and a bridgehead of imperialism The Meaning of Israel Anti Zionism and Philo Zionism in the Postwar Left a case study of Norway offers new and intriguing answers to both questions Previous national case studies of left ideas about Israel have tended to explain with reference to national peculiarities of the country in question e g guilt over the Holocaust in the case of Germany This book by contrast considers its findings about Norway in the context of what we know from other national case studies and uses this approach to suggest explanations that may be valid across national boundaries The Meaning of Israel argues that left ideas about Zionism and Israel have been inextricably intertwined with ideas about civilisation Post war social democrats used ideas about Zionism and Israel to assuage their anxiety about the future of civilisation and to reaffirm the viability of this very concept The anti Zionism of the New Left on the other hand

grew out of a broader rejection of ideas of civilisation The book will appeal to academics and general readers interested in the history of the Left Israel and anti semitism **A Sociology of Modernity** Peter Wagner,2002-11-01 First Published in 2004 Confusion reigns in sociological accounts of the current condition of modernity The story lines from the end of the subject to a new individualism from the dissolution of society to the re emergence of civil society from the end of modernity to an other modernity to neo modernization This book offers a sociology of modernity in terms of a historical account of social transformations over the past two centuries focusing on Western Europe but also looking at the USA and at Soviet socialism as distinct variants of modernity A fundamental ambivalence of modernity is captured by the double notion of liberty and discipline in its three major dimensions the relations between individual liberty and political community between agency and structure and between locally situated human lives and widely extended social institutions Two major historical transformations of modernity are distinguished the first one beginning in the late nineteenth century and leading to a social formation that can be called organized modernity and the second being the one that dissolves organized modernity It is this current transformation which revives some key concerns of the modern project ideas of liberty plurality and individual autonomy But it imperils others especially the creation of social identities as ties between human beings that allow meaningful and socially viable development of individual autonomy and the possibility of politics as communicative interaction and collaborative deliberation about what human beings have in common **Nature: From nature to natures : contestation and reconstruction** David Inglis,John Bone,Rhoda Wilkie,2005 Many influential stances within the social sciences regard nature in one of two ways either as none of their concern which is with the social and cultural aspects of human existence or as wholly a social and cultural fabrication But there is also another strand of social scientific thinking that seeks to understand the interplay between social and cultural factors on one side and natural factors on the other These volumes contain the main contributions that have been made within each of these streams of thought The selections illustrate to the reader the complexity of the various positions within these streams and the strengths and limitations of each perspective A new introduction places these articles in their historical and intellectual context and the volumes are completed with an extensive index and chronological table of contents **Relational Sociology** Pierpaolo Donati,2010-07-12 Much of our concept of society has been defined by sociology's dual focuses individuals and groups In this eagerly awaited book Donati shifts focus to the relationships between people and explains this new relational sociology in detail **No Angel in the Classroom** Berenice M. Fisher,2001 No Angel in the Classroom Teaching through Feminist Discourse presents a theoretically complex yet down to earth and personal account of feminist teaching in higher education Starting with a nuanced interpretation of consciousness raising longtime feminist educator Berenice Malka Fisher develops her philosophy of feminist teaching as a form of political discourse Through reflection on a series of candid classroom stories she analyzes knotty problems faced by academics and activists What counts as knowledge in discussion of feminist issues

Can teachers exercise authority without being authoritarian What is the role of caring in political deliberation Should safety be considered when students and teachers address volatile topics How can feminist and other teachers committed to social justice give serious attention to the intersections of gender race and sexual orientation This groundbreaking book is intended for the beginning and veteran teachers and others concerned with the contribution of education to extending social justice Fisher's work offers a pedagogical vision that inspires both passion and critical thinking *Social Theory: Power and identity in the global era* Roberta Garner, 2010-01-01 First edition published by Broadview Press 2004 Foundations and Futures in the Sociology of Religion Luke Doggett, Alp Arat, 2017-12-14 Since the sociology of religion became recognised as a distinct sub discipline over the last century the dominance of approaches taking their inspiration from the sociological classics has increasingly been challenged Empirical findings have brought the notion of secularisation into question and theorists have sought to deconstruct how we think of religion This collection appraises the continuing influence of the foundational approaches and places these in relation to newly emerging directions in the field The book is divided into four sections each section containing one foundational chapter written by an established academic followed by two futures chapters contributed by emerging scholars in the sub discipline These chapters complement one another by placing the overview of future directions in the context of a survey of the development of the sociology of religion over the last century Topics discussed in these chapters include lived religion sexuality ritual religion and the media Combining erudite examinations of the British Sociological Association Sociology of Religion Study Group's work so far with explorations of the future directions its research might take this book is vital reading for any scholar whose work combines religious studies and sociology Romanian Literature as World Literature Mircea Martin, Christian Moraru, Andrei Terian, 2017-12-28 Approaching Romanian literature as world literature this book is a critical theoretical manifesto that places its object at the crossroads of empires regions and influences and draws conclusions whose relevance extends beyond the Romanian Romance and East European cultural systems This intersectional revisiting of Romanian literature is organized into three parts Opening with a fresh look at the literary ideology of Romania's national poet Mihai Eminescu part I dwells primarily on literary cultural history as process and discipline Here the focus is on cross cultural mimesis the role of strategic imitation in the production of a distinct literature in modern Romania and the shortcomings marking traditional literary historiography's handling of these issues Part II examines the ethno linguistic and territorial complexity of Romanian literatures or Romanian literature in the plural Part III takes up the trans systemic rise of Romanian Jewish Romanian and Romanian European avant garde and modernism Socialist Realism exile and migr literature and translation **Symbolic Movement** Philip Wexler, 2008-01-01 This is a book about sociology of education past present and future In the first section the author chronicles and specifies the changes in the field in a reflexive sociology of education tracing the path out of liberalism through radicalism and postmodernism to an emergent new age stance in understanding education in society Section two

looks in more detail how these movements have actually worked in education and society The third section places the historical macrosocial analysis of education and society on the smaller more everyday screen of school life Based on the author's studies in high school the question of identity and education is the fulcrum for a series of concrete studies or school portraits which connect public social change and more personal everyday life and identity with the social process of schooling The final section probes the new age theme Questions of spirituality rationality magic mysticism and sublimation are related to changes both in education and in sociology of education What does it mean to do educational research in a resacralized mystical society And does a new theory of sociology of education emerge on a Weberian rather than Durkheimian functionalist or Marxist radical view of the directions and reversals that begin in modernity and become more evident in our times

I Am Not a Man, I Am Dynamite! John Moore, Spencer Sunshine, 2004 As the primary liberatory project anarchism the project which aims at the abolition of all forms of power control and coercion remains entitled to appropriate the work of one of the greatest iconoclasts of all time And although Nietzsche was rather harsh on his anarchist contemporaries or more precisely on a type of contemporary anarchist he nevertheless in some respects shared with them a vision of total transformation The notion of a transvaluation of all values clearly remains not merely compatible with but an integral component of the anarchist project and the idea of philosophy with a hammer underlies the anarchist commitment to radical social transformation John Moore in *Attentat Art* This collection of essays is intended to examine various dimensions of the interactions between anarchism and Nietzsche The aim of this volume is twofold first to provide instances of the historical appropriation of Nietzsche by anarchists and second to provide instances of appropriations and readings of Nietzsche by contemporary anarchist thinkers and commentators The volume is thus divided into two sections the historical and the contemporary or in other words the periods of modernity and postmodernity The historical section comprises four essays which consider historical appropriations of Nietzsche from a variety of ideological perspectives from the early twentieth century Daniel Colson provides an overview of Nietzsche and the libertarian tradition and focusses on the appropriation of Nietzsche by French anarcho syndicalists Leigh Starcross reconstructs the ideas of Emma Goldman on Nietzsche and thus investigates an important intersection between anarchism individualism and feminism Allan Antliff considers the synthesis between anarchism Eastern traditions and Nietzschean thought effected by Ananda Coomaraswamy providing an important post colonialist perspective to the topic Finally the modernity section includes the neglected but historically significant 1902 essay by the British anarchist Guy Aldred who provides an early and brief but very sophisticated anarchist reading of Nietzsche The book's second section explores the relevance of Nietzsche to contemporary anarchism At the core of this section are five essays by Andrew Koch Franco Riccio Salvo Vaccaro Saul Newman and Max Cafard which from different perspectives deal with post structuralist and post modern readings of Nietzsche and consider their appropriateness or otherwise for anarchists These specific engagements with contemporary interpretations of Nietzsche are

complemented by two essays focusing on specific aspects of Nietzsche's work from anarchist perspectives John Moore provides an anarchist post situationist interpretation of Nietzsche's aesthetics and Peter Lamborn Wilson considers the Islamic dimensions of Nietzsche's philosophy New Approaches to Organizational Communication Branislav Kovacic, 1994-07-01 New Approaches to Organizational Communication brings together three major conceptual developments First it sheds new light on standards used to evaluate processes and practices of organizational communication Second individual chapters delineate new vital mechanisms of organizational communications Third the book outlines the practical consequences of these new mechanisms of organizational communication A Multi-Paradigmatic Approach to Understanding History Kavous Ardalan, 2022-12-08 This book explores the field of history through a multi paradigmatic approach For this purpose it begins with a discussion of four most diverse worldviews or paradigms namely functionalist interpretive radical humanist and radical structuralist before moving on to consider four aspects of the field of history historiography grand narrative progress and time from the viewpoints of the four most diverse worldviews or paradigms Next the book looks at three historical events the French Revolution the American Civil War and the Iranian Revolution from the viewpoints of the four most diverse worldviews or paradigms It concludes by recommending paradigm diversity as an understanding of different paradigms leads to a more comprehensive and a more balanced understanding of the multifaceted nature of the subject matter
