Rethinking Abortion Pb 1999:

Rethinking Democratic Innovation Frank Hendriks, 2023-08-25 Rethinking Democratic Innovation takes a fresh look at diverging visions of improving democratic governance and asks whether these existing tensions could be made productive. Could different visions of democratic revitalisation complement and correct each other in ways that are good for democracy? Is it conceivable that combined approaches address a larger part of the democratic challenge while isolated approaches centralizing deliberative or plebiscitary democracy are confined to more limited areas of concern? This book ultimately provides an affirmative answer outlining the scope for hybrid democratic innovations that thrive on exploiting not eliminating tensions between diverging visions of improved democracy. Supplementing democratic theory with a cultural perspective, this book contributes to a deeper understanding of plans and methods geared toward improving democratic governance. Revisiting Mary Douglas's seminal take on culture as pollution, reduction processes of democratic innovation are understood as instances of cultural cleaning in public governance. The book recognizes that democratic cleaning will never be finished but can be done in ways that are more productive. Reflecting on varieties of hybrid democratic innovation: deliberative referendums, participatory budgeting, new style and more, the author posits that more versatile, connective and embedded innovations stand a better chance of high performance on a broader spectrum than democratic innovations falling short of these qualities.

Social Sciences Index, 2000 **The Political Geographies of Pregnancy** Laura R. Woliver, 2010-10-01 A searing study of how modern reproductive politics shapes women's bodily agency, *Pregnancy* indisputably takes place within a woman's body. But as reproductive power finds its way into the hands of medical professionals, lobbyists and policymakers, the geographies of pregnancy are shifting and the boundaries need to be redrawn, argues Laura R. Woliver. *The Political Geographies of Pregnancy* is a vigorous analysis of the ways modern reproductive politics are shaped by long standing debates on abortion and adoption, surrogacy arrangements, new reproductive

technologies medical surveillance and the mapping of the human genome Across a politically charged backdrop of reproductive issues Woliver exposes strategies that claim to uphold the best interests of children families and women but in reality complicate women s struggles to have control over their own bodies Utilizing feminist standpoint theory and promoting a feminist ethic of care Woliver looks at abortion politics modern adoption laws that cater to male headed families regulations that allow the state to monitor pregnant women but not always provide care for them and the power structures behind the seemingly benign world of egg selling and surrogate parenting She also considers the potentially staggering political implications of mapping the human genome and the exclusion of women s perspectives in discussions about legislation and advancements in reproductive technologies *Cumulated Index Medicus* ,1999 Encyclopedia of Criminology J. Mitchell Miller,Richard A. Cultural Criminology Jeff Ferrell, 2017-07-05 Cultural criminology has now emerged as a distinct theoretical perspective and as a notable intellectual alternative to certain aspects of contemporary criminology Cultural criminology attempts to theorize the interplay of cultural processes media practices and crime the emotional and embodied dimensions of crime and victimization the particular characteristics of crime within late modern late capitalist culture and the role of criminology itself in constructing the reality of crime In this sense cultural criminology not only offers innovative theoretical models for making sense of crime criminality and crime control but presents as well a critical theory of criminology as a field of study This collection is designed to highlight each of these dimensions of cultural criminology its theoretical foundations its current theoretical trajectories and its broader theoretical critiques by presenting the best of cultural criminological work from the United States Europe Australia and elsewhere

Infancy and Earliest Childhood in the Roman World Maureen Carroll, 2018-03-01 Despite the developing emphasis in current scholarship on children in Roman culture there has been relatively little research to date on the role and significance of the youngest children within the family and in society This volume singles out this youngest age group the under one year olds in the first comprehensive study of infancy and earliest childhood to encompass the Roman Empire as a whole integrating social and cultural history with archaeological evidence funerary remains material culture and the iconography of infancy it explores how the very particular historical circumstances into which Roman children were born affected their lives as well as prevailing attitudes towards them Examination of these varied strands of evidence drawn from throughout the Roman world from the fourth century BC to the third century AD allows the rhetoric about earliest childhood in Roman texts to be more broadly contextualized and reveals the socio cultural developments that took place in parent child relationships over this period Presenting a fresh perspective on archaeological and historical debates the volume refutes the notion that high infant mortality conditioned Roman parents not to engage in the early life of their children or to view them or their deaths with indifference and concludes that even within the first weeks

and months of life Roman children were invested with social and gendered identities and were perceived as having both personhood and value within society
