how applied science was shaped by educational and research institutions sociotechnical imaginaries and political ideologies and explores the extent to which non scientific lay opinion mediated by politicians and newspapers could become a driver in the classification of science

Disjunctive Prime Ministerial Leadership in British Politics Christopher Byrne, Nick Randall, Kevin Theakston, 2020-06-25 This book illustrates the cyclical pattern in the kinds of dilemmas that confront political leaders and in particular disjunctive political leaders affiliated with vulnerable political regimes The volume covers three major episodes in disjunction the interwar crisis between 1923 and 1940 afflicting Stanley Baldwin Ramsay MacDonald and Neville Chamberlain the collapse of Keynesian welfarism between 1970 and 1979 dealt with by Edward Heath Harold Wilson and James Callaghan and the ongoing crisis of neoliberalism beginning in 2008 affecting Gordon Brown David Cameron and Theresa May Based on this series of case studies of disjunctive prime ministers the authors conclude that effective disjunctive leadership is premised on judicious use of the prime ministerial toolkit in terms of deciding whether when and where to act effective diagnostic and choice framing and the ability to manage both crises and regimes

The End of British Politics? Michael Moran, 2017-02-08 This book explores the crisis of the British state Though it has been particularly apparent since the outcome of both the 2014 Scottish independence and 2016 Brexit referendums it stems from deep historical roots The book traces the origins of the state to the original Act of Union of 1707 and demonstrates how different notions of British destiny Protestant imperial social democratic have held the state together at different times The present crisis it is argued is due to the exhaustion of these senses of destiny Moran shows how the United Kingdom is now held together as a militarised state prone to disastrous adventures like the invasion of Iraq and concludes by examining some alternative futures for the state This book will appeal to students scholars and the general reader interested in British politics

Modern Britain Roderick Floud,Paul Johnson,2003 Publisher Description **British civic society at the end of empire** Anna Bocking-Welch,2018-09-25 This book is about the impact of decolonisation on British civic society in the 1960s It shows how participants in middle class associational life developed optimistic visions for a post imperial global role Through the pursuit of international friendship through educational efforts to know and understand the world and through the provision of assistance to those in need the British public imagined themselves as important actors on a global stage As this book shows the imperial past remained an important repository of skill experience and expertise in the 1960s one that was called upon by a wide range of associations to justify their developing practices of international engagement This book will be useful to scholars of modern British history particularly those with interests in empire internationalism and civil society The book is also designed to be accessible to undergraduates studying these areas **Race, nation and empire** Catherine Hall,Keith McClelland,2024-06-04 The essays in this collection show how histories written in the past in different political times dealt with considered or avoided and disavowed Britain s imperial role and issues of difference Ranging from enlightenment historians to the present these essays consider both individual historians including such key figures as E A Freeman G M Trevelyan and Keith Hancock and also broader themes such as the relationship between liberalism race and historiography and how we might re think British history in the light of trans national trans imperial and cross cultural analysis Britishness and what British history is have become major cultural and political issues in our time But as these essays demonstrate there is no single national story race empire and difference have pulsed through the writing of British history The contributors include some of the most distinguished historians writing today C A Bayly Antoinette Burton Saul Dubow Geoff Eley Theodore Koditschek Marilyn Lake John M MacKenzie Karen O Brien Sonya O Rose Bill Schwarz Kathleen Wilson *An Affluent Society?* Lawrence Black,Hugh Pemberton,2017-07-28 During an election speech in 1957 the Prime Minister Harold Macmillan famously remarked that most of our people have never had it so good Although taken out of context this phrase soon came to epitomize the sense of increased affluence and social progress that was prevalent in Britain during the 1950s and 1960s Yet despite the recognition that Britain had moved away from an era of rationing and scarcity to a new age of choice and plenty there was simultaneously a parallel feeling that the nation was in decline and being economically outstripped by its international competitors Whilst the study of Britain s postwar history is a well trodden path and the paradox of absolute growth versus relative decline much debated it is here approached in a fresh and rewarding way Rather than highlighting economic and industrial decline this volume emphasizes the tremendous impact of rising affluence and consumerism on British society It explores various expressions of affluence new consumer goods shifting social and cultural values changes in popular expectations of policy shifting popular political behaviour changing attitudes of politicians towards the electorate and the representation of affluence in popular culture and advertising By focusing on the widespread cultural consequences of increasing levels of consumerism emphasizing growth over decline and recognizing the rising

standards of living enjoyed by most Britons a new and intriguing window is opened on the complexities of this golden age. Contrasting growing consumer expectations and demands against the anxieties of politicians and economists this book offers all students of the period a new perspective from which to view post imperial Britain and to question many conventional historical assumptions.

After Brexit and Other Essays Andrew Gamble, 2021-04-28 Being more like America again and less like Europe is the heart of the UK model of capitalism but there are many respects in which Britain remains unlike America despite its strong appeal to the British political class. In *After Brexit* Andrew Gamble sets out the economic models and external relationships that Britain has pursued since the Second World War and examines the choices it now faces as it adjusts to life outside of the European Union. This volume brings together this essay with some of Andrew Gamble's most important and influential writings on British politics and political economy from the last forty years. They reflect on many of the issues that animate British politics from the relative decline of the economy and the reshaping of the welfare state to the transformation of the Conservative and Labour parties and the changing constitutional order with the devolution of power to Wales, Scotland and Northern Ireland. The volume is introduced by the author and includes his notes on each of the essays as well as an epilogue which considers their original context and what has changed since. Taken together the essays in this volume are testament to the acuity of one of Britain's foremost political thinkers and provide rich insight into debates and ideas that continue to influence British politics and Britain's place in the world. A companion volume of Andrew Gamble's essays *The Western Ideology and Other Essays* focusing on political ideas and ideologies is also available from Bristol University Press.

Human Geography of the UK David Graham, Irene Hardill, Eleonore Kofman, 2013-01-11 This new key textbook for introductory courses in human geography provides first and second year undergraduates with a comprehensive thematic approach to the changing human geography of the UK at the end of the twentieth and beginning of the twenty first century. The British Government and the City of London in the Twentieth Century Ranald Michie, Philip Williamson, 2004-10-21 The relationship between the British government and the City of London has become central to debates on modern British economic, political and social life. For some the City's financial and commercial interests have exercised a dominant influence over government economic policy, creating a preoccupation with international markets and the strength of sterling which impaired domestic industrial and social well being. Others have argued that government seriously constricted financial markets, jeopardising Britain's most successful economic sector. This collection of essays was the first book to address these issues over the entire twentieth century. It brings together leading financial and political historians to assess the government-City relationship from several directions.

and by examination of key episodes As such it will be indispensable not just for the study of modern British politics and finance but also for assessment of the worldwide problem of tensions between national governments and international financial centres
