Rethinking Rehabilitation Why Cant We Reform Our Criminals:

Rethinking Rehabilitation David Farabee, 2005 Most Americans readily support rehabilitation for convicted offenders after all on the face of it many of these people have been dealt a bad hand or at least have made poor choices and surely would mend their ways if only they had access to enlightened forms of treatment vocational training or other programs Yet an objective assessment of the research literature reveals that the majority of these rehabilitative programs have little or no lasting impact on recidivism In this monograph David Farabee critically reviews the most common forms of offender rehabilitation and outlines their underlying assumptions about the causes of crime such as drug use poor education or limited vocational skills He contends that fundamental principles of deterrence such as closer monitoring of parolees swift application of sanctions and indeterminate community supervision the completion of which would be tied to the offender's performance are in the long run far more humane than the progressive approaches that are becoming more popular today

delinquency **Expanding Work Programs for Poor Men** Lawrence M. Mead, 2011-05-16 Expanding Work Programs for Poor Men makes the case that poor fathers like poor mothers need both help and hassle That is poor men need more help from the government but they must also be expected and required to help themselves Drawing on welfare reform as a successful precedent Lawrence M Mead explores the psychology of male nonwork and evaluates the successes and failures of existing government programs for poor men including child support and conditions of parole These programs have succeeded in increasing work levels among poor men by requiring that they provide income to support their families or maintain a job to avoid returning to prison Although both programs rely on legal enforcement they are most effective when enforcement is coupled with incentives Mead suggests that child support and parole conditions offer a useful model for future men s work programs which should be mandatory and enforced but combined with rewards for steady work such as higher wage subsidies for low income workers **Global Perspectives on Re-entry** Ikponwosa Ekunwe, Richard Statler Jones, 2011

Global Perspectives on Re Entry explores the challenges facing ex prisoners as they attempt to return to society after serving time in prison The problem of re entry is of growing interest to academics correctional professionals and policy makers who are concerned with high rates of incarceration and the increase in the numbers of prisoners caught up in the revolving door of criminal justice This book is the first attempt to explore the problem of re entry from an international perspective The focus of this book is on strategies utilized in various parts of the Western world that shed light on the struggles facing ex prisoners upon re entry as well as on the way different countries have attempted to solve these problems The book seeks to address the important set of issues involved by bringing together the best of recent research and ideas on the subject of desistance from crime around the world with a distinct focus on how research might impact upon the implementation of ex offender reintegration policies The book is divided into two sections The chapters in the first part Societal Institutional Perspective consider the societal and institutional issues in different countries The chapters in the second part of the book Perspective of the Ex Offender present various viewpoints of experts with first hand accounts of the re entry experiences of ex convicts Publisher s description **American Prisons and Jails** Vidisha Barua Worley, Robert M. Worley, 2018-12-07

This two volume encyclopedia provides a comprehensive and authoritative examination of the history and current character of American prisons and jails and their place in the U S corrections system This encyclopedia provides a rigorous and comprehensive summary of correctional systems and practices and their evolution throughout US history Topics include sentencing norms and contemporary developments differences between local jails and prisons and regional state and federal systems violent and nonviolent inmate populations operations of state and federal prisons including well known prisons such as ADX Florence Alcatraz Attica Leavenworth and San Quentin privately run for profit prisons as well as the companies that run them inmate culture including prisoner generated social hierarchies prisoner slang gangs drug use and violence prison trends and statistics including racial ethnic age gender and educational breakdowns the death penalty and post incarceration

outcomes including recidivism The set showcases contributions from some of the leading scholars in the fields of correctional systems and practices and will be a valuable resource for anyone interested in learning more about American prisons jails and community corrections Prisoner Reentry in the Era of Mass Incarceration Daniel P. Mears, Joshua C.

Cochran, 2014-10-27 Understanding and Improving Prisoner Reentry Outcomes Prisoner Reentry is an engaging and comprehensive examination of prisoner reentry and how to improve public safety well being and justice in the era of mass incarceration Renowned authors Daniel P Mears and Joshua C Cochran investigate historical trends in incarceration and punishment policy the salience of in prison and post prison contexts and experiences for reentry and the importance of understanding group differences in offending punishment and social context Using extensive reliance on both theory and empirical research the authors identify how reentry reflects criminal justice policy in America and at the same time has profound implications for crime prevention and justice Readers will develop a diverse foundation for current policies identify the implications of reentry for families community and society at large and gain a conceptual and empirical toolkit for analyzing and improving the lives of those released from prison *The First Line of Defense* United States. Congress.

Senate. Committee on the Judiciary. Subcommittee on Crime and Drugs, 2010 **Parole, Desistance from Crime, and Community Integration** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Community Supervision and Desistance from Crime, 2007-11-26 Every day about 1 600 people are released from prisons in the United States Of these 600 000 new releasees every year about 480 000 are subject to parole or some other kind of postrelease supervision Prison releasees represent a challenge both to themselves and to the communities to which they return Will the releasees see parole as an opportunity to be reintegrated into society with jobs and homes and supportive families and friends Or will they commit new crimes or violate the terms of their parole contracts If so will they be returned to prison or placed under more stringent community supervision Will the communities to which they return see them as people to be reintegrated or people to be avoided And the institution of parole itself is challenged with three different functions to facilitate reintegration for parolees who are ready for rehabilitation to deter crime and to apprehend those parolees who commit new crimes and return them to prison In recent decades policy makers researchers and program administrators have focused almost exclusively on recidivism which is essentially the failure of releasees to refrain from crime or stay out of prison In contrast for this study the National Institute of Justice NIJ of the U S Department of Justice asked the National Research Council to focus on desistance which broadly covers continued absence of criminal activity and requires reintegration into society Specifically the committee was asked 1 to consider the current state of parole practices new and emerging models of community supervision and what is necessary for successful reentry and 2 to provide a research agenda on the effects of community supervision on desistance from criminal activity adherence to conditions of parole and successful reentry into the community To carry out its charge the committee organized and held a workshop

focused on traditional and new models of community supervision the empirical underpinnings of such models and the infrastructure necessary to support successful reentry Parole Desistance from Crime and Community Integration also reviews the literature on desistance from crime community supervision and the evaluation research on selected types of intervention

Behind the Walls Michael Weinrath, 2016-11-01 In this system you can't trust anybody Like even on the streets I've never trusted my own brother But now in Ni Miikana I'm starting to get that trust back You just gotta be careful what you say in here and you'll be all right Despite falling crime rates more rights for inmates and better training for correctional officers Canada's prison population is on the rise and outbreaks of violence continue to grab headlines Applying Erving Goffman's frame theory and drawing on interviews with inmates and correctional officers in federal and provincial institutions Michael Weinrath assesses whether improvements over the past twenty five years have truly led to better corrections Behind the Walls offers an unprecedented look at life in contemporary prisons Inmates and staff describe their transition to prison life and corrections work and they explain how they frame or understand their roles and how they relate to others They provide commentaries on key developments and problems including the experiences of female correctional officers in male prisons boundary violations by correctional officers the introduction of behavioural programs and the rise of prison gangs Weinrath's balanced assessment reveals that although prisons have seen improvements they continue to be plagued by problems that prevent inmates from forging positive relationships among themselves and with correctional officers

Hartney, 2018-01-17 American Corrections Second Edition offers you a contemporary issues oriented introduction that covers every aspect of corrections prompting you to think critically about complex issues that are affecting the current U.S. correctional system Incorporating the most recent theory research and data available the Second Edition encourages you to explore the most interesting and progressive developments in correctional policy and practice Authors Barry A. Krisberg Susan Marchionna and Christopher J. Hartney draw from years of professional

experience to give you a practical knowledge of corrections as well as provide a framework for thoughtful analysis into what is plaguing the American correctional system and a realistic exploration of the solutions that could make a difference New to the Second Edition Up to date coverage of today s key issues reflects the latest developments in corrections including the fiscal impact of corrections reforms in corrections and an expanded use of alternatives to incarceration Debates around the effectiveness of corrections encourage you to think critically about probation problem solving courts split sentences and flash incarceration new recidivism studies rates of racial and ethnic disparity in adult and juvenile corrections and overrepresentation of youth of color in prisons Recent trends are discussed to give you a clearer picture of how the correctional system has transformed over the years including the decline in the practice of incarcerating juveniles in large prisons the rising incarceration rate for women the treatment of mentally ill inmates the increase of private prisons and more Incisive exploration of policies proposed by the Trump administration shows you how the current administration s approach differs from Obama era sentencing reforms and encourages students to think critically about the potent impacts on the correctional system New Spotlight boxes introduce you to key issues such as immigration and detention and the opioid addiction epidemic Updated references statistics court rulings and data help you understand the latest trends in correctional practices

The Punishment Imperative Todd R. Clear, Natasha A. Frost, 2015-09-04 Clear and Frost chart the rise of penal severity in the U S and the forces necessary to end it Over the last 40 years the US penal system has grown at an unprecedented rate five times larger than in the past and grossly out of scale with the rest of the world In *The Punishment Imperative* eminent criminologists Todd R Clear and Natasha A Frost argue that America s move to mass incarceration from the 1960s to the early 2000s was more than just a response to crime or a collection of policies adopted in isolation it was a grand social experiment Tracing a wide array of trends related to the criminal justice system this book charts the rise of penal severity in America and speculates that a variety of forces fiscal political and evidentiary have finally come together to bring this great social experiment to an end The authors stress that while the doubling of the crime rate in the late 1960s represented one of the most pressing social problems at the time it was instead the way crime posed a political problem and thereby offered a political opportunity that became the basis for the great rise in punishment Clear and Frost contend that the public s growing realization that the severe policies themselves not growing crime rates were the main cause of increased incarceration eventually led to a surge of interest in taking a more rehabilitative pragmatic and cooperative approach to dealing with criminal offenders that still continues to this day Part historical study part forward looking policy analysis *The Punishment Imperative* is a compelling study of a generation of crime and punishment in America

Treating Addicted Offenders Kevin Knight (Ph. D.), David Farabee, 2004 **Recovering Police Legitimacy** Rafe

McGregor, 2024-07-11 Transatlantic policing is experiencing an unprecedented crisis of legitimacy epitomised by public

responses to the murders of George Floyd and Sarah Everard during the COVID 19 pandemic Legitimacy is lost when the police either fail to protect the public or rely on coercion rather than consent to achieve that protection Recovering Police Legitimacy challenges conventional criminological political and public solutions to the problem by approaching it from the bottom up beginning with policing as a practice constituted by a unique set of excellences skills and characteristics The author draws on his experience as a police officer and on the serial fictions of James Ellroy David Peace and Nic Pizzolatto to characterise the practice in terms of heroic struggle edgework absolute sacrifice and worldmaking These characteristics provide an analytic tool for revolutionising our understanding of the relations among policing as a situated practice public protection and police legitimacy and for identifying the different levels at which legitimacy is undermined His conclusion is that recovery is possible but will be slow in pace and incomplete in scope Written accessibly for students police officers policymakers scholars and anyone with an interest in police legitimacy this is a groundbreaking study of a pressing social problem
