Rethinking The Beloved Communi:

Church, Community and Power Roy Kearsley, 2016-05-23 In the era of post Christendom how can church as a sociological reality be switched on to the destructive dangers yet constructive possibilities of power flowing in and around its community Attuned to the current distrust of church power this book creatively works out responses that could turn painful censure into a re visioning of church power relations helped by neglected critical studies The approach exposes a complexity to power and filters that insight into a theology of church The book shows how lessons are available for a religious community from post modern philosopher Michel Foucault and from recent feminism The topic of power has universal importance in the study of religion though the response to analysis and critique in this book is drawn specifically from Christian sources Kearsley concludes with an exploration for a future renovated self critical authentic and growing community sensitive to power while remaining in line with classic Christianity *Encountering Cruelty: The Fracture of the Human Heart* Michael R.

Trice, 2011-04-21 Interest in recent years in reconciliation and conflict transformation has witnessed a great deal of attention to building a future through forgiveness and preventative measures in order to impede egregious wrongdoing This effort for a reconciled future is absent reflection on the nature of cruelty Cruelty has always been apparent in massive acts of wrongdoing and yet is repeatedly concealed in our assessment of the acts themselves This book is a theologically honest and deep structure exploration of cruelty in its personal communal and institutional encounters in human life Drawing on Nietzsche s challenge of cruelty to the western tradition the work offers a comprehensive study of how cruelty undermines care trust respect and justice all those elements of human reciprocity that mark our lives as interdependent beings The work concludes with a tightly written Epilogue on interpreting the theological meaning and accessibility of reconciliation today

Working with Excluded Populations in HIV Carmen Logie, 2021-07-05 This book written decades into the HIV epidemic reflects critically on the idea that the socially excluded populations often focused on in HIV research are in fact difficult to access and reach The author broadly applies the concept hard to reach to characterize populations that researchers find difficult to engage with Social factors that produce marginalization and ultimately result in people choosing not to engage in research are not captured by the concept of hard to reach Limited attention has focused on how researchers can address the social factors that result in decisions to not engage in research Disrupting the ways in which people are conceptualized as hard to reach so as to refocus on transforming social systems and personal values beliefs and approaches is understudied This book uses case examples based on HIV research with Indigenous youth internally displaced women LGBTQ communities in the Global North and Global South and persons at the intersection of these identities to identify successful approaches to working with marginalized and often vulnerable communities and groups The chapters signal the need for attention to five key social factors when developing successful approaches context and storytelling cultural humility critical hope imagination and possibility and love intimate inquiry and the beloved community if nations individuals and communities are to address

Democracy in the Christian Church ,2012-04-12 A survey of historical theological and philosophical arguments for a democratization of the Christian church *An/Other Praxis* Herry M. Mukdani,2013-12-01 Today s ecclesial praxis has to add something to human capacity in order for the church to envision itself whole This book addresses multiple struggles as creative acts theologically for rethinking a possibly constructive ecclesial praxis that addresses God s new creation in its relation to God s people By examining it in broader paradigms Herry Mukdani proposes an Other praxis as a critical option for ecclesial freedom An Other Praxis searches not only new impulses for theological practices but the extension of voices from the margins that have contributed both to fresh ideas and to new opportunities for life It also demands ecclesial praxis to put all existing voices into account and responsibly re discover the subaltern or subordinated others Thus this praxis helps the subaltern communities of faith claim their own identities as border crossers in the midst of cultural and religious plurality They will be active subjects of new theological productions from and for the church They are able to prove theological creativity possible today that expands beyond its ecclesial limits An Other Praxis will be of interest to readers not merely because they want to learn something beyond the existing forms of praxis Rather it will always give them refreshing energies capable of making rich and sometimes risky responses to the ministry possible and real It will also give them attitude and perspective to improve a culturally diverse conversation in theology and thus it adds divers al ity in ministry and leadership in today s church

Rendering the Word in Theological Hermeneutics Mark Alan Bowald,2016-04-08 This book proposes an original typology for grasping the differences between diverse types of biblical interpretation fashioned in a triangle around a major theological and philosophical lacuna the relation between divine and human action Despite their purported concern for reading God s word most modern and postmodern approaches to biblical interpretation do not seriously consider the role of divine agency as having a real influence in and on the process of reading Scripture Mark Bowald seeks to correct and clarify this deficiency by demonstrating the inevitable role that divine agency plays in contemporary proposals in relation to human agency enacted in

the composition of the biblical text and the reader This book presents an important contribution to the emerging field of theological hermeneutics Bowald discusses in depth the hermeneutics of George Lindbeck Hans Frei Kevin Vanhoozer Francis Watson Stephen Fowl David Kelsey Werner Jeanrond Karl Barth James K A Smith and Nicholas Wolterstorff

Church in China: Faith, Ethics, Structure Aiming Wang, 2009 The Protestant Church in China is growing very fast However the role of the Church in society is still fragile and marginal The Church needs a strong ethical and structural development This study analyses the theological ethical and ecclesiological heritage of the Reformation and it shows how this can build the foundation for the future of the Church in China Four models serve as orientation the Reformers Luther and Calvin and the theologians Bonhoeffer and Barth in the 20th century with their vision of Christian faith and a humane society The critical analysis of the missionary heritage since the 19th century shows its contribution for the acceptance of the tradition of the Reformation for the growing Church in China The author combines this theological and ethical perspective with the inculturation in the strong ethical tradition of the Chinese culture He proposes the encounter between the spirituality of the Western culture and that of the traditional culture of China through the relationship with Confucianism The book also offers elements for the dialogue around modern values such as human rights and civil society In this dialogue Chinese Protestantism can play more and more an important role

Scheidt, 2025-08-30 Emerging technologies are entering every aspect of human life including the spiritual realm At the same time spirituality has entered mainstream environments including business education health and healing and tech design This provides an opportunity for technology and wisdom traditions to evolve together due to the

widening audiences and worldviews In this open access volume an assembly of experts explores the intersection of spirituality and technology as they are emerging in a variety of contexts in our world Through a mixture of philosophy advocacy presentation of research findings and sharing of practices this book illustrates technology s influence on spirituality and vice versa and its applications to management strategy and leadership At the same time contributing authors identify the surfacing pitfalls shadow material and areas that must be attended to during this time of evolving landscapes Additionally two of the chapters highlight virtual practices that focus on racial healing which are of crucial import at this time in our collective history and another two explore healing justice and liberation through the uses of technology Written in a think piece style this book is accessible to those within and outside of academia This is an open access book *Engaging with Contemporary Culture* Martyn Percy,2016-04-29 Theology and the churches are often considered to be at the margins of contemporary culture frequently struggling for identity and attention In this important new book Martyn Percy argues that a rich form of practical theological engagement is needed if the churches are to comprehend their situation in the modern world thereby enabling them to engage more confidently with society Drawing on a range of perspectives in the religion culture debate and from case studies in the USA and Europe the book explores the myriad of ways in which culture is now shaping contemporary Christianity and how vital an appreciation of this dynamic is for the self understanding of churches and theology This book explores the crucial and continuing contribution that theology can make to public life in an era that is often perceived to be dominated by consumerism and secularity It will especially appeal to scholars of contemporary religion practical theologians and all those who are engaged in ministerial formation Reconsidering John Calvin Randall C. Zachman,2012 Places Calvin in conversation with theologians such as Barth and Kierkegaard and reconsiders his understanding of judgment and love **Reconsidering Johannine Christianity** Raimo Hakola,2015-04-10 Reconsidering Johannine Christianity presents a full scale application of social identity approach to the Johannine writings This book reconsiders a widely held scholarly assumption that the writings commonly taken to represent Johannine Christianity the Gospel of John and the First Second and Third Epistles of John reflect the situation of an introverted early Christian group It claims that dualistic polarities appearing in these texts should be taken as attempts to construct a secure social identity not as evidence of social isolation While some scholars most notably Richard Bauckham have argued that the New Testament gospels were not addressed to specific early Christian communities but to all Christians this book proposes that we should take different branches of early Christianity not as localized and closed groups but as imagined communities that envision distinct early Christian identities It also reassesses the scholarly consensus according to which the Johannine Epistles presuppose and build upon the finished version of the Fourth Gospel and argues that the Johannine tradition already in its initial stages was diverse *Redefining the Political* Alex J. Moffett-Bateau,2024-09-06 Identifies socio political concepts and frameworks that can be used to recognize and understand the styles of political engagement political rebellion and political

identity creation used by poor Black women living in the United States *The Least of These* Anthony E. Cook, 2014-06-11
First published in 1997 Examining race law and religion in today's America *The Least of These* highlights the power of these principles to both divide and unite and promotes a new form of liberalism that incorporates the spiritual values long neglected by earlier progressive liberals Relaunching the fundamental tenet of progressive liberalism that a justly ordered society must protect the interests and promote opportunities for the least advantaged of its population Anthony Cook argues for a revival of the progressive vision of American politics While the affirmative action debates smolder around the country Cook contends that the spiritual foundation of this liberal tenet must be unearthed and elaborated to fit our times before we can attempt to tackle the issues that the civil rights era has left unanswered As the twentieth century closes *The Least of These* provides a greater understanding of the roots of our ongoing socio political struggles and serves as an invaluable profile of progressive liberal politics from World War II to the present **Rethinking Postmodernism(s)** Katrin Amian, 2008 *Rethinking Postmodernism* revisits three historical sites of American literary postmodernism the early postmodernism of Thomas Pynchon's *V* 1961 the emancipatory postmodernism of Toni Morrison's *Beloved* 1987 and the late or post postmodernism of Jonathan Safran Foer's *Everything Is Illuminated* 2002 For the first time it confronts these texts with the pragmatist philosophy of Charles Sanders Peirce staging a conceptual dialogue between pragmatism and postmodernism that historicizes and recontextualizes customary readings of postmodern fiction The book is a must read for all interested in current reassessments of literary postmodernism in new critical dialogues between seminal postmodern texts and in recent attempts to theorize the post postmodern moment
