Cerone, 2016-04-21 The contributors to this volume J D Punch Jennifer Knust Tommy Wasserman Chris Keith Maurice Robinson and Larry Hurtado re examine the Pericope Adulterae John 7 53 8 11 asking afresh the question of the paragraph s authenticity Each contributor not only presents the reader with arguments for or against the pericope s authenticity but also with viable theories on how and why the earliest extant manuscripts omit the passage Readers are encouraged to evaluate manuscript witnesses scribal tendencies patristic witnesses and internal evidence to assess the plausibility of each contributor s proposal Readers are presented with cutting edge research on the pericope from both scholarly camps those who argue for its originality and those who regard it as a later scribal interpolation In so doing the volume brings readers face to face with the most recent evidence and arguments several of which are made here for the first time with new evidence is brought to the table allowing readers to engage in the controversy and weigh the evidence for themselves

Christ and the Law in Matthew Brice L. Martin, 2001-02-20 Martin argues that Jesus relationship to the law is not described in terms of keeping terein doing poiein establishing histemi making firm bebaionun interpreting hermeneuein adding prostithemi completing or making perfect telein or teleioun but of fulfilling pleroun Jesus eschatological mission is not in any way to take away from the law or add a foreign mixture to the law but to fill the law full to bring all of it into eschatological fullness This he does in the events of his coming his earthly life death resurrection and return but he also does it with his teaching

The New Testament Donald A. Hagner, 2012-11-15 This capstone work from widely respected senior evangelical scholar Donald Hagner offers a substantial introduction to the New Testament Hagner deals with the New Testament both historically and theologically employing the framework of salvation history He treats the New Testament as a coherent body of texts and stresses the unity of the New Testament without neglecting its variety Although the volume covers typical questions of introduction such as author date background and sources it focuses primarily on understanding the

theological content and meaning of the texts putting students in a position to understand the origins of Christianity and its canonical writings Throughout Hagner delivers balanced conclusions in conversation with classic and current scholarship The book includes summary tables diagrams maps and extensive bibliographies The Branch Preston T.

Massey,2018-07-24 The thesis of the book may be stated simply it is an argument based upon the four prophetic texts of Jer 23 5 Zech 3 8 6 12 and Isa 4 2 as a foundational pattern for the four Gospels These four prophetic texts it will be argued mention a King Branch a Servant Branch a Man Priest Branch and a Lord God Branch This study seeks to show how Matthew presents Jesus as the King Branch Mark as the Servant Branch Luke as the Priest Man Branch and John as the Lord God Branch Consideration will also be given to explore the ramification of the four living Beings as described in Rev 4 6 7 Given the sum total of this sequence of literary facts the conclusion of this book will raise a number of possible implications One of these implications will offer the conclusion that the four evangelists could not have written their four Gospels solely on their own human unaided efforts

The Ending of the Canon Külli Tõniste,2016-02-25 Revelation studies have been typically characterised by two very different types of study emanating from academia and the church Academia has been engaged in historical critical and source critical studies which typically dissect the text Whilst the methods used in the church treat Revelation as scripture and keep the text intact these approaches often lack the tools for sound interpretation T niste observes the need for a more holistic and thoughtful methodology to study Revelation T niste develops an approach that respects Revelation as a part of Christian scripture composed by and for the church whilst simultaneously making use of respected modern academic methods that support unity literary canonical and narrative criticism intertextuality and canonical location to arrive at theologically sensible and satisfying interpretations The basic key to unlocking the mysteries of Revelation lies in its abundant use of intertextuality an area that remains still under researched This integrated methodology is explored through a reading of Revelation 21 22 Jesus' Emotions in the Gospels Stephen Voorwinde,2011-06-16

Examines the emotions of Jesus presented by in the gospels and shows how this may be applied in studying these texts

Sociolinguistic Analysis of the New Testament Hughson T. Ong,2021-09-06 This book introduces sociolinguistic criticism to New Testament studies The individual essays cover a wide range of sociolinguistic theories multilingualism speech communities and individuals language and social domains diglossia digraphia codeswitching language maintenance and shift communication accommodation theory social identity theory linguistic politeness theory discourse analysis conversation analysis register analysis interactional sociolinguistics ethnography of communication etc that treat topics and issues pertaining to the language and sociolinguistic contexts of the New Testament social memory orality and literacy and the oral traditions of the Gospels and various texts and genres in the New Testament *THE Gnostic Jesus* Edward D. Andrews,2021-06-09 Jesus is identified by some Gnostics as an embodiment of the supreme being who became incarnate to bring gnosis to the earth In contrast others adamantly denied that the supreme being came in the flesh claiming Jesus to be

merely a human who attained enlightenment through gnosis and taught his disciples to do the same Among the Mandaeans Jesus was considered a *m iha kdaba* or false messiah who perverted the teachings entrusted to him by John the Baptist Still other traditions identify Mani and Seth the third son of Adam and Eve as salvific figures In the course of a century and a half Gnosticism comes and goes before us like a splendid vision And yet its influence upon Christianity was profound and permanent It gave occasion to a great expansion of Christian thought to a clearer idea of the historical relation of Christianity to earlier and surrounding religions and to a better definition of the basis of true faith Therefore it deserves a more careful study than it has only recently received Getting into the Text Daniel L. Akin, Thomas W. Hudgins, 2017-03-01 David Alan

Black has been one of the leading voices in New Testament studies over the last forty years His contributions to Greek grammar textual criticism the Synoptic problem the authorship of Hebrews and many more have challenged scholars and students to get into the text of the New Testament like never before and to rethink the status quo based on all the evidence The present volume consists of thirteen studies written by some of Black's colleagues friends and former students on a number of New Testament topics in honor of his successful research and teaching career Not only do they address issues that have garnered his attention over the years they also extend the scholarly discussion with up to date research and fresh evaluations of the evidence making this book a valuable contribution in itself to the field that Black has devoted himself to since he began his career **The Progressive Publication of Matthew** B. Ward Powers, 2010-11-15 A new voice enters the ongoing Synoptic Problem debate suggesting the answer may be that the Gospel of Matthew was published in stages

Matthean and Lukan Special Material Brice C. Jones, 2011-12-08 For the first time the Gospel material unique to both Matthew and Luke is brought together into one volume in both Greek and English For more than a century New Testament scholars have asserted that Matthew and Luke drew on sources in addition to Q and Mark during the composition of their Gospels For convenience the non paralleled material in Matthew has traditionally been labeled M and the non paralleled material in Luke has traditionally been labeled L We learn only from Matthew for example particular stories like Joseph and Mary's escape to Egypt and the Great Commission from Luke stories like the Prodigal Son and Jesus' appearance on the Emmaus road Studying the material unique to each Gospel in isolation from their narrative contexts will allow students and scholars alike to engage these stories on their own In this book the individual special pericopae from Matthew and Luke are collected and arranged in Greek and English in the order in which they appear in the Greek New Testament An introductory essay is provided to introduce readers to the Synoptic Problem the notions of M and L and where they come from what the parameters are for selection and the critical debate so that readers know how the selections were made and what is being asserted by their inclusion This book will be a wonderful teaching tool for seminary and university professors and will facilitate student engagement with distinctive Matthean and Lukan stories It will also be a valuable resource for New Testament scholars doing research on this special material since having it all in one place will no longer require them to

search for the distinctive passages among the larger Gospel narratives **In Defense of the Bible** Steven B. Cowan, Terry L. Wilder, 2018-11-26 In Defense of the Bible gathers exceptional articles by accomplished scholars Paul Copan William A Dembski Mary Jo Sharp Darrell L Bock etc addressing and responding to all of the major contemporary challenges to the divine inspiration and authority of Scripture Interpreting the New Testament Text Darrell L. Bock, Buist M. Fanning, 2006-10-20 With the explosive increase in availability of English Bible translations the question can easily be asked Why bother with the hard work of biblical exegesis Computers can translate foreign languages and our English texts can take us very close to the original meanings so why exegete Answer because the deepest truths of the Bible are found through the deepest study This book teaches the principles methods and fundamentals of exegeting the New Testament It also has examples of textual exegesis that clearly and helpfully show the value of exegeting a text well Any serious student of Scripture would benefit from utilizing this book in the study of the Bible The Gospel of the Lord Michael F. Bird, 2014-08-22 Balanced comprehensive survey of the critical questions involved in studying the four Gospels In this book through a distinctive evangelical and critical approach Michael Bird explores the historical development of the four canonical Gospels He shows how the memories and faith of the earliest believers formed the Gospel accounts of Jesus that got written and in turn how these accounts further shaped the early church Bird s study clarifies the often confusing debates over the origins of the canonical Gospels Bird navigates recent concerns and research as he builds an informed case for how the early Christ followers wrote and spread the story of Jesus the story by which they believed they were called to live The Gospel of the Lord is ideal for students or anyone who wants to know the story behind the four Gospels Watch an interview with Michael Bird from our Eerdmans Author Interview Series
