Rethinking the Unthinkable Ivo H. Daalder, Terry Terriff, 2014-02-04 Rethinking the Unthinkable examines the future direction of nuclear arms control in the post Cold War security environment Believing that the new environment requires a radical rethinking of the purpose and role of nuclear weapons in international politics the contributors address many fundamental issues influencing further US Russian and European nuclear arms reductions This volume is a product of the Project on Rethinking Arms Control sponsored by the Center for International and Security Studies in Maryland **US Nuclear Weapons Policy After the Cold War** Nick Ritchie, 2008-08-08 This book offers an in depth examination of America's nuclear weapons policy since the end of the Cold War Exploring nuclear forces structure arms control regional planning and the weapons production complex the volume identifies competing sets of ideas about nuclear weapons and domestic political constraints on major shifts in policy It provides *Rethinking the Unthinkable* Terry Terriff, **"The Unthinkable" in Ethics, History and Philosophical Anthropology** Sami Pihlström, 2025-02-06 What we find unthinkable is not seriously considered as an ethical option in our thought and deliberation it is ruled out from the outset Combining a broadly pragmatist approach with a Kantian inspired transcendental strategy Sami Pihlström distinguishes between what is considered unthinkable and what is merely ethically wrong Pihlström demonstrates how different issues concerning the unthinkable vs the thinkable ranging from the proper ethical response to the Holocaust to philosophical considerations of monstrous characters familiar in gothic fiction may challenge the categories we use to structure the world In particular he makes the case that it is unthinkable for us to reject the kind of human exceptionalism that attributes an ineliminable dignity or preciousness to human beings Chapters also explore the complex relationship between our responses to human suffering and the suffering of non human animals together with questions concerning the philosophy of war and pacifism *The Unthinkable in Ethics History and Philosophical Anthropology* turns our attention to the ethically and ontologically constitutive character of the boundaries we draw between the thinkable and the unthinkable while utilizing conceptual and argumentative resources from the Wittgensteinian tradition in moral philosophy particularly from the work of Raimond Gaita An original and timely study it will be welcomed by students and scholars interested in the fundamental ethical issues of human life **Historical Dictionary of Arms Control and Disarmament** Jeffrey A.
