## Rethinking Women:

**Rethinking Women's and Gender Studies** Catherine M. Orr, Ann Braithwaite, 2012-03-22 *Rethinking Women's and Gender Studies* re-examines the field's foundational assumptions by identifying and critically analyzing eighteen of its key terms. Each essay investigates a single term (e.g., feminism, interdisciplinarity, intersectionality) by asking how it has come to be understood and mobilized in Women's and Gender Studies and then explicates the roles it plays in both producing and shutting down possible versions of the field. The goal of the book is to trace and expose critical paradoxes, ironies, and contradictions embedded in the language of Women's and Gender Studies from its high theory to its casual conversations that relies on these key terms. *Rethinking Women's and Gender Studies* offers a fresh approach to structuring Feminist Theory Senior Capstone and introductory graduate level courses in Women's and Gender Studies.

**Rethinking Women's and Gender Studies Volume 2** Catherine M. Orr, Ann Braithwaite, 2023-11-23 The second volume of *Rethinking Women's and Gender Studies* addresses the complexities and inherent paradoxes within the expansive knowledge project known as Women's and Gender Studies for audiences both inside and adjacent to the field. Each of the volume's chapters identifies and critically examines a key term that circulates in this field, exploring how the term has come to be understood and mobilized within its everyday narratives and practices. In constructing provocative genealogies for their terms, authors explicate the roles that this language and the narratives attached to it play in producing and limiting possible versions of the field. The ongoing aim of *Rethinking Women's and Gender Studies* both in the original volume and this entirely new extension is to trace and expose important paradoxes, ironies, and contradictions embedded in the field from its high theory to its casual conversations that rely on these terms. Forging collective conversation and intellectual community from its thoughtful and critical lines of inquiry, the second volume of *Rethinking Women's and Gender Studies* remains bracingly original and full of fresh insight. It provides a perfect complement for Feminist Theory Senior Capstone and introductory graduate level courses offered in Women's and Gender Studies and related fields.

**Rethinking Women's Roles** Denise O'Brien, Sharon W. Tiffany, 1984-01-01 **The Politics of Women's Biology** Ruth Hubbard, 1990 In this work, the author explores the social and political assumptions of biology and genetics in particular. She examines the ways biologists use scientific language, use genetics, and apply it to human situations, especially to women's situations.

**Rethinking Women's Roles** Denise O'Brien, Sharon W. Tiffany, 2021-01-08 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1984.

**Rethinking Women in Development** Joan Akinyi Othieno, 2002 *Mothers of Invention* So Mayer, Corinn Columpar, 2022-04-05 This collection belongs on the bookshelves of students and scholars of cinema and media studies, feminist and queer media studies, labor studies, filmmaking.

and production and cultural studies      **Situating the Feminist Gaze and Spectatorship in Postwar Cinema** Marcelline Block, Angela Laflen, 2009-01-14 Marcelline Block's *Situating the Feminist Gaze and Spectatorship in Postwar Cinema* breaks new ground in exploring feminist film theory. It is a wide-ranging collection re-visiting important theoretical questions as well as offering close analyses of films produced in the United States, France, England, Belgium, and Russia. This anthology investigates exciting areas of research for critical inquiry into film and gender studies as well as feminist, queer, and postfeminist theories and treats film texts from Marguerite Duras to 21st-century horror films from Agnès Varda's 2007 installation at the Pantheon to the post-Soviet Russian filmmakers Aleksei Balabanov and Valerii Todorovskii from Quentin Tarantino's *Death Proof* to Sofia Coppola's postfeminist trilogy from Chantal Akerman's transhistorical transgressive and transgendered gaze to the quantum gaze in Steven Spielberg's *Jurassic Park* from Hitchcock's *Good Looking Blondes* to the career woman in peril thriller among others. According to the semiotician Marshall Blonsky of the New School University in New York, given the breadth of the editor's choices, this volume makes a splendid contribution to feminist and cinematic fields as well as cultural and media studies, postmodernism, and postfeminism. It lends readers new eyes to view canonical and other film texts. David Sterritt, chairman of the National Society of Film Critics, states that this anthology should be required reading for students and scholars among other readers interested in the interaction of cinema with contemporary culture. *Situating the Feminist Gaze and Spectatorship* is prefaced by Jean Michel Rabat's brilliant essay *Mulvey was the First*.      **Women, Science, and Technology** Mary Wyer, Mary Barbercheck, Donna Cookmeyer, Hatice Ozturk, Marta Wayne, 2013-09-11 *Women, Science, and Technology* is an ideal reader for courses in feminist science studies. This third edition fully updates its predecessor with a new introduction and twenty-eight new readings that explore social constructions mediated by technologies, expand the scope of feminist technoscience studies, and move beyond the nature/culture paradigm.

*Resources in Education*, 2000      **Class** John Scott, 1996 Class and status are both foundational themes in the study of sociology. John Scott brings together the central theoretical contributions to the debate on class and status as aspects of stratification. Using a selection of seminal pieces and commentaries on the classics, it raises central issues, for example, the distinction between class and status, which are then examined by leading authorities.      *The Women of NOW* Katherine Turk, 2023-08-15 A clear blueprint for change. A must-read. Clara Bingham, *The Guardian*. The history of NOW, its organization, trials, and revolutionary mission, told through the work of three members. In the summer of 1966, crammed into a D.C. hotel suite, twenty-eight women devised a revolutionary plan. Betty Friedan, the well-known author of *The Feminine Mystique*, and Pauli Murray, a lawyer at the front lines of the civil rights movement, had called this renegade meeting. From attendees at the annual conference of state women's commissions, fed up with waiting for government action and trying to work with a broken system, they laid out a vision for an organization to unite all women and fight for their rights. Alternately skeptical and energized, they debated the idea late into the night. In less than twenty-four hours, the National Organization for Women was

born In The Women of NOW the historian Katherine Turk chronicles the growth and enduring influence of this foundational group through three lesser known members who became leaders Aileen Hernandez a federal official of Jamaican American heritage Mary Jean Collins a working class union organizer and Chicago Catholic and Patricia Hill Burnett a Michigan Republican artist and former beauty queen From its bold inception through the tumultuous training ground of the 1970s NOW s feminism flooded the nation permanently shifted American culture and politics and clashed with conservative forces presaging our fractured national landscape These women built an organization that was radical in its time but flexible and expansive enough to become a mainstream fixture This is the story of how they built it and built it to last Includes 16 pages of black and white images

**A World Full of Women** Martha C. Ward, Monica D. Edelstein, 2015-10-14 Takes a cross cultural approach to the study of women A World Full of Women 6 e combines descriptive ethnography gender theory and international statistics to present a comprehensive picture of the lives of women Readers will better comprehend and contextualize women s issues and experiences in today s world This title explores the diversity of women s lives from class to culture with examples ranging from women s work to marriage patterns health issues violence against women and grassroots organizing

**A Comparative Perspective of Women's Economic Empowerment** Meltem Yenilmez, Onur Celik, 2019-05-29 The need for the creation of an enabling political legal and economic environment for women within Turkey is rising A growing concern is shown at the ethnic divisions and local discrimination against women which have spilled over into the labor market This book lends a supporting voice to the economic and social empowerment of women globally focusing on the real causes and the unpredictable nature of the ongoing conflicts surrounding the issue The authors bring to the forefront problems of development within various regions and the implementation of projects which address the state of women inequality and risks that are inimical to their participation in the economy Emphasis is laid on

They argued that gender differences must be accommodated and that equality could not always be achieved by applying an identical standard of treatment to men and women. The reform agenda they championed—an end to unfair sex discrimination, just compensation for their waged labor, and the right to care for their families and communities—launched a revolution in employment practices that carries on today. Unique in its range and perspective, this is the first book to link the continuous tradition of social feminism to the leadership of labor women within that movement.
