History and Collective Memory in South Asia, 1200-2000 Sumit Guha, 2019-11-04 In this far ranging and erudite exploration of the South Asian past Sumit

Guha discusses the shaping of social and historical memory in world historical context. He presents memory as the result of both remembering and forgetting and of the preservation, recovery and decay of records. By describing how these processes work through sociopolitical organizations, Guha delineates the historiographic legacy acquired by the British in colonial India: the creation of the centralized educational system and mass production of textbooks that led to unification of historical discourses under colonial auspices and the divergence of these discourses in the twentieth century under the impact of nationalism and decolonization. Guha brings together sources from a range of languages and regions to provide the first intellectual history of the ways in which socially recognized historical memory has been made across the subcontinent. This thoughtful study contributes to debates beyond the field of history that complicate the understanding of objectivity and documentation in a seemingly post-truth world. *Understanding Culture and Society in India* Abha Chauhan, 2021-06-26

This book is an in-depth account of people's cultural and religious life in the Jammu region of Jammu and Kashmir, India. It brings out the significance of Sufi and deity shrines as alternative places of worship that give meaning and purpose to people's lives. It includes sites and practices commonly associated with Islam, Sufism and Hinduism as spaces of shared culture. Most of the existing literature of Jammu and Kashmir is on Kashmir, focusing mostly on topics such as politics, state identity, conflict or violence. This book proposes to go beyond these works by delimiting the focus and area of the study to culture, society and religion. It explores the sites of religious pluralism and tolerance in the violence-ridden territory of Jammu and Kashmir. The chapters are mainly based on ethnographic data collected through qualitative methods like observation, participant and non-participant case studies, in-depth interviews and oral history. The book is of interest to researchers, both faculty and graduate students, in the areas of sociology of religion, social anthropology, religious studies, cultural studies, Sufism, shrines and deity worship in South Asia. *Ideals, Images, and Real Lives* Alice Thorner, Maithreyi Krishna Raj, 2000

Women studies as a distinct field emerged in India in the mid-seventies. But preoccupation with the position of women dates back to more than a century and a half. By the use of methods of history, literary criticism and analysis of discourse, this volume seeks not only to illustrate the broadening of the sphere of women studies in India in recent years but also to point to the need for relating ideas about women and gender relations to the social and economic forces that shape history.
