Smart Thinking Tony Lewin, 2004

The story of smart is an epic tale of genius inspiration hope disappointment disaster and ultimate triumph Funky stylish and fun smart is the youngest and most exciting brand of car on the market and it has revolutionised the way we think about cars and the way we use them It has put

much needed fun back into driving and even city motorists smile when they're at the wheel of a smart. But it nearly didn't happen at all. The revolutionary design was the product of the genius who invented the Swatch watch, saving the near bankrupt Swiss watch industry in the process. But these visionary ideas proved too radical and the tiny two-seater almost died at birth when a succession of backers lost their nerve. The sensational story of smart traces the decade-long history of this ambitious project, talking to key figures from every stage of the programme and building a vivid picture of an idea ahead of its time.

The Spur, 1923 *Holstein-Friesian Herd-book* Holstein-Friesian Association of America, 1923 *Motor Racing Heroes* Robert John Newman, 2014

Covering the period from the first Grand Prix win in 1906 to Michael Schumacher's 2006 retirement, this book is one man's idea of the 20th century's motor racing heroes. The sport has attracted many men and women whose determination, raw courage and skill at the wheel has driven them into that special rarified atmosphere of heroism. This book tells the stories of 100 of these heroes.

The Car Bryan Appleyard, 2022-09-06

A spirited insightful exploration of our favorite machine and its cultural impact on society over the past one hundred and fifty years. More than any other technology, cars have transformed American popular culture. Cars have created vast wealth as well as novel dreams of freedom and mobility. They have transformed our sense of distance and made the world infinitely more available to our eyes and our imaginations. They have inspired cinema, music and literature. They have, by their need for roads, bridges, filling stations, huge factories and global supply chains, re-engineered the world. Almost everything we now need, want, imagine or aspire to, assumes the existence of cars in all their limitless power and their complex systems of meanings. This book celebrates the immense drama and beauty of the car, of the genius embodied in the Ford Model T, of the glory of the brilliant red Mercedes-Benz S-Class, made by workers for Nelson Mandela on his release from prison, of Kanye West's chopped Maybach, of the salvation of the Volkswagen Beetle by Major Ivan Hirst, of Elvis Presley's 100 Cadillacs, of the Rolls-Royce Silver Ghost and the BMC Mini, and even of that harbinger of the end, the Tesla Model S and its creator, Elon Musk. As the age of the car as we know it comes to an end, Bryan Appleyard's brilliantly insightful book tells the story of the rise and fall of the incredible machine that made the modern world what it is today.
