Mills,2016-10-18 We often see flyers of missing people many of them are children who perhaps enjoyed too much of their escapade that they were separated from their parents Others were probably adults suffering from a mental condition that rendered them incapable of returning home Other missing people cases however are far more intriguing and creepy For example would you imagine a group of

passengers abandoning a ship even though it was still capable of operating. If pirates killed them then why would they bother bringing the bodies? Another case was about three friends who went missing after talking to a man with blond hair. They boarded a boat according to some witnesses but what transpired in the boat is still a mystery. Other cases such as a lost plane, a missing woman with bipolar disorder, and a police cover up on the disappearance of a teenage boy can also be found in this book. So if you want to share creepy real life tales to friends during a bonfire session then get ready for some disturbingly weird stories. Amazon.com

This page turner includes famous disappearances such as expedition crews in search of new territory, ships going missing in the Bermuda Triangle, the lost colony of Roanoke, Amelia Earhart, and the recent case of Malaysia Airlines Flight 370. As they read this engrossing resource, readers can decide where these people's lives were tampered with by an unexplainable phenomenon.

Missing People Malcolm Cliver, 2016-03-11. A Stunning Collection Of Missing Persons Cases And Stories Of Missing People And Their Unusual Disappearances. People disappear everyday, some of them turn up, murdered, some willingly escaped their current lives while some cases remain to be clouded with mystery. Day by day we hear and read about missing people but we take them for granted because none of them are connected to us. For the families of the people who disappeared, they are constantly hoping that the public would care enough if they happen to see a person who resembles their lost loved one. Who knows perhaps if you were just familiar with the case you would be able to identify one missing person. But what happens to these people is mostly unknown. Sure we speculate but most of the time we will never really know the truth.

*Missing* Jenny Edkins, 2011-09-06. Stories of the missing offer profound insights into the tension between how political systems see us and how we see each other. The search for people who go missing as a result of war, political violence, genocide, or natural disaster reveals how forms of governance that objectify the person are challenged. Contemporary political systems treat persons instrumentally as objects to be administered rather than as singular beings; the apparatus of government recognizes categories, not people. In contrast, relatives of the missing demand that authorities focus on a particular person; families and friends are looking for someone who to them is unique and irreplaceable. In *Missing*, Jenny Edkins highlights stories from a range of circumstances that shed light on this critical tension: the aftermath of World War II when millions in Europe were displaced; the period following the fall of the World Trade Center towers in Manhattan in 2001 and the bombings in London in 2005; searches for military personnel missing in action; the thousands of political disappearances in Latin America; and in more quotidian circumstances where people walk out on their families and disappear.

of their own volition When someone goes missing we often find that we didn't know them as well as we thought there is a sense in which we are missing even to our nearest and dearest and even when we are present not absent In this thought provoking book Edkins investigates what this more profound missingness might mean in political terms People Missing in the Woods Steph Young, 2018-12-13 People in the Woods are disappearing hikers missing in national parks people lost to the woods never to return people taken never found again Natural predators can lurk in the wilderness bears mountain lions cougars and occasionally a hiker will be victim to these wild animals They feed where they kill or drag their bloody victim to a nearby lair they leave a trail that is obvious to searchers However the victims in this book show no evidence of an animal attack For these victims there is no logical explanation only cryptic mysteries enigma and many unanswered questions Baffling strange and cryptic cases Based on True Stories Bestselling Author Steph Young has appeared on radio shows including Coast to Coast AM telling creepy unexplained mysteries of stories that come from her books and her Podcast Unexplained Mysteries with Steph Young PEOPLE MISSING IN THE WOODS People are disappearing in the Woods True Stories of Unexplained Disappearances Unexplained Mysteries Creepy Unexplained Disappearances Strange vanishings of people Missing hikers missing in national parks Baffling strange creepy and cryptic cases The Cases Of Missing Persons Sergio Vandergrift, 2021-06-27 These were some appalling stories of heartbreak and horror Everywhere around the world there are cases of those that vanish in thin air Some are eventually found and some are not This book mentions many of those in the last one hundred years In this book we hope to examine the sheer range of cases that have enthralled the interested and distressed those involved for many years Some of these cases became national stories while others remain private tragedies In the cases of missing persons trying to find an explanation is almost as difficult as trying to find the person themselves So join us on this journey and discover just how morbidly fascinating and compelling the cases of the missing can become Here are some of the cases that you will find inside The criminal mastermind who vanished when jumping from a plane The case of the woman abducted by Bigfoot America's first missing person The crazed writer and human rights lawyer who vanished in Mexico The horror writer who vanished into the unknown The genius computer scientist who vanished without a trace One of the world's first filmmakers vanishes before reaping the rewards of his invention Two generations vanish from the same house on the same night And much more *Missing Persons -2-* Leonard Lowe, 2024-08-10 These cases leave you speechless The 411 cases truly give you goosebumps and leave the reader bewildered shaking their head and stunned Exciting I devoured the books everything very exciting eerie and creepy Not just for X Files fans Highly recommended Very exciting I read both the 1st and 2nd parts in one go Some cases read as creepy Why do people always get tired just before they disappear and why do they always take off their shoes Most are found dead miles away Or never again Interesting exciting eerie I stumbled upon the topic Missing 411 rather by chance This book is very interesting exciting eerie and when you see the cases side by side commonalities patterns emerge What could be going on there I have read volumes 1
