historic sites of one of America's most beautiful states. The 21 missions founded 200-250 years ago are key to understanding California's history and form the spiritual and cultural landmarks of this epic journey that stretches from the North San Francisco Bay Area to San Diego near the US-Mexico border. The route never strays more than 30 miles from the sunny Pacific Coast, touching famous California beaches at Santa Cruz, Carmel, Santa Barbara, San Clemente, and Carlsbad, not to mention metropolitan areas of San Francisco, Los Angeles, and San Diego. California's diverse wine regions play a starring role, as does the vast Salinas Valley, the Salad Bowl of America. This guide offers everything you'll need to make your trip of 50-60 walking days or 12-20 cycling days on this epic West Coast adventure. There is a wealth of information to help you prepare for the journey, including packing lists and transport notes. In addition to clear route description, each stage of the route includes scale maps for easy orientation and comprehensive details of facilities available on or near the route. The trail is presented in sections so it can either be undertaken in its entirety or split as desired, and an accompanying appendix displays distance intervals between towns and cities, offering accommodation in case you should wish to choose your own itinerary. The route can be walked or cycled; for cyclists, around 95% of the trail can be completed on a road bike. From Mission Sonoma to Mission San Diego, you'll follow the journey of 18th-century Spanish missionaries as they created 21 missions to convert the native inhabitants to Christianity. Included is a sensitive recount of the history of the missions, highlighting the story and monuments of the Native Americans who formed the foundation of the landscape, rather than the Spanish and Franciscan priests. From the sunlit sea to swathes of vineyards to the bustling metropolis of San Francisco and with historic spiritual and scenic interest aplenty, the California Missions Trail offers an unforgettable journey through America's Golden State.

Saints and Citizens Lisbeth Haas, 2014. *Saints and Citizens* is a bold new excavation of the history of Indigenous people in California in the late eighteenth and nineteenth centuries, showing how the missions became sites of their authority, memory, and identity. Shining a forensic eye on colonial encounters in Chumash, Luiseño, and Yokuts territories, Lisbeth Haas depicts how native painters incorporated their cultural iconography in mission painting and how leaders harnessed new knowledge for control in other ways. Through her portrayal of highly varied societies, she explores the politics of Indigenous citizenship in the independent Mexican nation through events such as the Chumash War of 1824, native emancipation after 1826, and the political pursuit of Indigenous rights and land through 1848. **The American Catholic Who's who** Georgina Pell

Curtis, Benedict Elder, 1910. **Santa Barbara's Royal Presidio** Jarrell Jackman, 2023-01-30. Unique in California history and beloved by visitors and residents alike, the city of Santa Barbara boasts three great historical properties: the Mission, the Courthouse, and the Presidio. Least known is the Presidio. This book fills this vacuum, beginning with the story of its adobe construction between 1784 and 1790. This itself was preceded by the construction of three other Spanish forts: Monterey 1770, San Diego 1773, and San Francisco 1776. All four Presidios helped secure the Spanish settlement of Alta or Upper California as the mixed-racial soldiers and their families became the first Spanish settlers of the region. The Santa Barbara

Presidio was the last Spanish fort founded and built not only in California but in all of Spanish North America an area that in its day covered much of the southern portion of the modern United States from Florida to California This book celebrates the Santa Barbara Presidio s place in not only American history but also that of Spain and honors the community that came together to ensure its preservation and faithful reconstruction
